Mothers and Children Susan E. Chase, Mary Frances Rogers, 2001 Motherhood is a highly personal array of experiences with a uniquely public dimension preoccupying policymakers, advice givers, health care providers, religious leaders, child care workers, educators, and total strangers who feel entitled to judge mothers they see with their children in the neighborhood or on the TV news Chase, U of Tulsa and Rogers, U of West Florida approach motherhood and mothering as feminist sociologists focusing on questions such as how ideas about motherhood are shaped by social and historical conditions, how ideas about motherhood change over time and across social contexts, who has the power to make their definitions of motherhood stick, and what diverse groups of mothers themselves think

Speaking of Sex Deborah L. Rhode, 1999 Speaking of Sex explores a topic that frequently is absent from our discussions about sex: the persistence of sex-based inequality and the cultural forces that sustain it On critical issues affecting women, most Americans deny either that gender inequality is a serious problem or that it is one which they have a personal or political responsibility to address In tracing this no problem problem Speaking of Sex examines the most fundamental causes of women's disadvantages and the inadequacy of current public policy to combat them

The Gender Line Nancy Levit, 1998-04-01 Despite tremendous advances in civil rights, we live in a world where the sexes remain sharply segregated from birth to death in names, clothing, social groupings, and possessions in occupations, civic association, and domestic roles Gender separatism so pervasive as to be almost invisible permeates the fabric of our daily social routines Preferring a notion of gender that is fluid and contextual and denying that separatism is inevitable, Nancy Levit dismantles the myths of gender essentialism Drawing on a wealth of interdisciplinary data regarding the biological and cultural origins of sex differences, Levit provides a fresh perspective on gendered behaviors

and argues the need for careful cultivation of new relations between the sexes With its focus particularly on men The Gender Line offers an insightful overview of the construction of gender and the damaging effects of its stereotypes Levit analyzes the ways in which law legitimizes the social segregation of the sexes through legal decisions regarding custody employment education sexual harassment and criminal law In so doing she illustrates the ways in which men's and women's oppressions are intertwined and how law molds the very definition of masculinity Applying feminist methodology to the doctrine of feminism itself Levit artfully demonstrates that gender separatism infects even our contemporary views of feminism Levit asks questions that have been too long been unspoken those that lie at the core of the feminist project yet threaten its very foundations Revealing masculinity as both a privileged and a victimized condition she calls for a step forward past the bounds of contemporary feminism and its conflicts toward a more egalitarian and inclusive feminism This brand of feminism would reshape traditional masculinity invite men into feminist dialogue and claim men as political allies

Perfect Madness Judith Warner, 2006-02-07 A lively and provocative look at the modern culture of motherhood and at the social economic and political forces that shaped current ideas about parenting What is wrong with this picture That's the question Judith Warner asks in this national bestseller after taking a good hard look at the world of modern parenting at anxious women at work and at home and in bed with unhappy husbands When Warner had her first child she was living in Paris where parents routinely left their children home with state subsidized nannies to join friends in the evening for dinner or to go on dates with their husbands When she returned to the States she was stunned by the cultural differences she found toward how people think about effective parenting in particular assumptions about motherhood None of the mothers she met seemed happy instead they worried about the possibility of not having the perfect child panicking as each developmental benchmark approached Combining close readings of mainstream magazines TV shows and pop culture with a thorough command of dominant ideas in recent psychological social and economic theory *Perfect Madness* addresses our cultural assumptions and examines the forces that have shaped them Working in the tradition of classics like Betty Friedan's *The Feminine Mystique* and Christopher Lasch's *The Culture of Narcissism* and with an awareness of a readership that turned recent hits like *The Bitch in the House* and Allison Pearson's *I Don't Know How She Does It* into bestsellers Warner offers a context in which to understand parenting culture and the way we live as well as ways of imagining alternatives actual concrete changes that might better our lives

Men as Managers, Managers as Men David Collinson, Jeff Hearn, 1996-09-28 Most managers in most organizations in most countries are men This book is the first international work to address the relationships between men masculinities and managements It examines the processes through which gendered managerial structures cultures and practices are reproduced Exploring top and middle managers entrepreneurs corporate executives and public and private sector managers the book breaks new ground by critically examining the gendered power processes that have largely been assumed and ignored by conventional organizational and management theory As well as providing new insights into how
