MARK LINDSEY LUTHEGGER

Rebels Dilemma

Ammar Shamaileh

Rebels Dilemma:

The Rebel's Dilemma Mark Irving Lichbach, 1998 The author brings significant new insights to the study of dissent rebellion and revolution

Caught in the Crossfire Thomas David Mason, 2004 The puzzle of revolution in the Third World Theories of revolution the evolution of the field Dependent development and the crisis of rural stability Mobilizing peasant social movements The response of the state reform or repression State repression and the escalation of revolutionary violence Win lose or draw how civil wars end Reform repression and revolution in El Salvador Peruvian land reform the rise of Sendero Luminoso The future of revolutions in the countryside globalization democratization and peacekeeping

Trust and Terror Ammar Shamaileh, 2017-04-21 Why do some individuals choose to protest political grievances via non violent means while others take up arms What role does whom we trust play in how we collectively act This book explores these questions by delving into the relationship between interpersonal trust and the nature of the political movements that individuals choose to join Utilizing the examples of the Arab Spring uprisings in Egypt Libya and Syria a novel theoretical model that links the literature on social capital and interpersonal trust to violent collective action is developed and extended Beyond simply bringing together two lines of literature this theoretical model can serve as a prism from which the decision to join terrorist organizations or violent movements may be analyzed The implications of the theory are then examined more closely through an in depth look at the behavior of members of political movements at the outset of the Arab Spring as well as statistical tests of the relationship between interpersonal trust and terrorism in the Middle East and globally Trust and Terror will be of interest to scholars of Comparative Politics and International Relations The Open Access version of this book available at <https://doi.org/10.4324/9781315505817> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Transnational Cooperation of Ethnopolitical Mobilization Yu-Wen Chen, 2009 This book explores the influences for ethnopolitical groups to act internationally in advancement of their group interests Yu Wen Chen proposes an ecological approach to comprehend ethnopolitical contention In essence she argues that transnationalizing the contention has the merit of raising the ethnopolitical group's salience and helps to create niches that can demarcate one group from other claim making groups in a society Quantitative analysis of the primary data from the European Survey of Ethnopolitical Groups ESEPG and qualitative case studies confirm that although some ethnopolitical groups have presented their issues in the international arena the domestic realm is still the main locus for ethnopolitical contention to occur Salience resources domestic and international opportunity structures affect ethnopolitical groups international engagement This book is an essential volume for anyone interested in ethnic mobilization social movements and transnationalization

Handbook of War Studies III Manus I. Midlarsky, 2009-06-24 *Handbook of War Studies III* is a follow up to *Handbook of War Studies I* 1993 and *II* 2000 This new volume collects original work from leading international relations scholars on domestic strife ethnic conflict genocide and other timely topics Special attention is given to civil war

which has become one of the dominant forms if not the dominant form of conflict in the world today Contributors Bruce Bueno de Mesquita New York University and Hoover Institution Stanford University Nils Petter Gleditsch International Peace Research Institute Oslo PRIO and Norwegian University of Science and Technology NTNU Trondheim Hvard Hegre University of Oslo and International Peace Research Institute Oslo PRIO Erin K Jenne Central European University Budapest Mark Irving Lichbach University of Maryland Roy Licklider Rutgers University New Brunswick T David Mason University of North Texas Rose McDermott Cornell University Stephen Saideman McGill University Hvard Strand International Peace Research Institute Oslo PRIO Monica Duffy Toft Harvard University Manus I Midlarsky is the Moses and Annuta Back Professor of International Peace and Conflict Resolution at Rutgers University New Brunswick He is the founding past president of the Conflict Processes Section of the American Political Science Association and a past vice president of the International Studies Association

Rebels and Conflict Escalation Isabelle Duyvesteyn, 2021-06-10 Duyvesteyn critically examines the potential explanations for the escalation and de escalation during conflicts involving states and non state actors such as terrorists and insurgents

Ordinary Rebels Kolby Hanson, 2025-09-02 In Ordinary Rebels Kolby Hanson argues that these periods of state toleration do not simply change armed groups behavior but fundamentally transform the organizations themselves by shaping who takes up arms and which leaders they follow This book draws on a set of innovative experimental surveys and 75 in depth interviews tracing four armed movements over time in Northeast India and Sri Lanka A powerful new theory of how conditions shape the trajectory of non state armed groups this book reshapes our understanding of why such organizations become more moderate over time

Rebel Recruitment and Information Problems Kazuhiro Obayashi, 2017-09-05 How do rebel groups decide how to recruit members To answer this question Obayashi classifies recruitment techniques of rebel groups into two types coercion and inducement and develops a theory of rebel recruitment that simultaneously addresses agency problems inside rebel groups and the rebel state contest over information Important themes such as desertion counterinsurgency strategies including amnesties and civil war termination are also examined to further understand the dynamics of rebellion and violent disorder The theory is applied to examine the changes in conflicts involving the Liberation Tigers of Tamil Eelam in Sri Lanka and the Lord s Resistance Army in Uganda

Rebels without Borders Idean Salehyan, 2011-07-07 Rebellion insurgency civil war conflict within a society is customarily treated as a matter of domestic politics and analysts generally focus their attention on local causes Yet fighting between governments and opposition groups is rarely confined to the domestic arena Internal wars often spill across national boundaries rebel organizations frequently find sanctuaries in neighboring countries and insurgencies give rise to disputes between states In Rebels without Borders which will appeal to students of international and civil war and those developing policies to contain the regional diffusion of conflict Idean Salehyan examines transnational rebel organizations in civil conflicts utilizing cross national datasets as well as in depth case studies He shows how external Contra bases in Honduras and Costa Rica facilitated

the Nicaraguan civil war and how the Rwandan civil war spilled over into the Democratic Republic of the Congo fostering a regional war He also looks at other cross border insurgencies such as those of the Kurdish PKK and Taliban fighters in Pakistan Salehyan reveals that external sanctuaries feature in the political history of more than half of the world s armed insurgencies since 1945 and are also important in fostering state to state conflicts Rebels who are unable to challenge the state on its own turf look for mobilization opportunities abroad Neighboring states that are too weak to prevent rebel access states that wish to foster instability in their rivals and large refugee diasporas provide important opportunities for insurgent groups to establish external bases Such sanctuaries complicate intelligence gathering counterinsurgency operations and efforts at peacemaking States that host rebels intrude into negotiations between governments and opposition movements and can block progress toward peace when they pursue their own agendas

Revolution Rosemary H. T. O'Kane, 2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more
