Woman the Hunter Mary Zeiss Stange, 1998-07-01 Over two million American women hunt By taking up weapons for the explicit purpose of killing they are shattering one of Western culture's oldest and most firmly entrenched taboos The image of a woman armed and dangerous is profoundly threatening to our collective psyche and it is rejected by macho males and radical feminists alike *Woman the Hunter* juxtaposes unsettlingly beautiful accounts of the author's own experiences hunting deer antelope and elk with an argument that builds on the work of thinkers from Aldo Leopold to Clarissa Pinkola Estes Exploring how women and men relate to nature and violence Mary Zeiss Stange demonstrates how false assumptions about women and about hunting permeate contemporary thought Her book is a profound critique of our society's evasion of issues that make us uncomfortable and it culminates in a surprising claim that only by appreciating the value of hunting can we come to understand what it means to be human Controversial and original defying easy stereotypes *Woman the Hunter* is sure to provoke strong reactions in almost every reader
