Religion In Victorian Britain Culture And Empire:

Religion in Victorian Britain: Culture and empire Gerald Parsons, 1988 **Nineteenth-Century Religion, Literature and Society** Naomi Hetherington, Clare Stainthorp, 2020-12-14 This four volume historical resource provides new opportunities for investigating the relationship between religion literature and society in Britain and its imperial territories by making accessible a diverse selection of harder to find primary sources These include religious fiction poetry essays memoirs sermons travel writing religious ephemera unpublished notebooks and pamphlet literature Spanning the long nineteenth century c 1789 1914 the resource departs from older models of the Victorian crisis of faith in order to open up new ways of conceptualising religion Volume four on Disbelief and New Beliefs explores the transformation of the religious landscape of Britain and its imperial territories during the nineteenth century as a result of key cultural and intellectual forces **Empires of Religion** H. Carey, 2008-11-13 A sparkling new collection on religion and imperialism covering Ireland and Britain Australia Canada the Cape Colony and New Zealand Botswana and Madagascar Bursting with accounts of lively characters and incidents from around the British world this collection is essential reading for all students of religious and imperial history **The Science of Religion in Britain, 1860-1915** Marjorie Wheeler-Barclay, 2010-10-21 Marjorie Wheeler Barclay argues that although the existence and significance of the science of religion has been barely visible to modern scholars of the Victorian period it was a subject of lively and extensive debate among nineteenth century readers and audiences She shows how an earlier generation of scholars in Victorian Britain attempted to arrive at a dispassionate understanding of the psychological and social meanings of religious beliefs and practices a topic not without contemporary resonance in a time when so many people feel both empowered and threatened by religious passion and provides the kind of history she feels has been neglected Wheeler Barclay examines the lives and work of six scholars Friedrich Max Müller Edward B Tylor Andrew Lang William Robertson Smith James G Frazer and Jane Ellen Harrison She illuminates their attempts to create a scholarly non apologetic study of religion and religions that drew upon several different disciplines including anthropology sociology the classics and Oriental studies and relied upon contributions from those outside as well as within the universities This intellectual enterprise variously known as comparative religion the history of religions or the science of religion was primarily focused on non Christian religions Yet in Wheeler Barclay s study of the history of this field within the broad contexts of Victorian cultural intellectual social and political history she traces the links between the emergence of the science of religion to debates about Christianity and to the history of British imperialism the latter of which made possible the collection of so much of the ethnographic data on which the scholars relied and which legitimized exploration and conquest Far from promoting an anti religious or materialistic agenda the science of religion opened up cultural space for an exploration of religion that was not constricted by the terms of contemporary conflicts over Darwin and the Bible and that made it possible to think in new and more flexible ways about the very definition of religion **The**

Redcoat and Religion Michael Snape, 2013-01-11 This compelling study presents the most comprehensive examination available of the role of religion in the army during the eighteenth and nineteenth centuries Through extensive analysis of official military sources religious publications and personal memoirs Michael Snape challenges the widely held assumption that religion did not play a role in the British Army until the mid Victorian period and demonstrates that the British soldier was highly susceptible to religious influences long before the Crimean War and Indian Mutiny rendered the subject of wider public concern In *The Redcoat and Religion* Snape argues that religion was of significant even defining importance to the British soldier and reveals the enduring strength and vitality of religion in contemporary British society challenging the view that the popular religious culture of the era was wholly dependent upon the presence and activities of women Students of British history military history and religion will all find this an insightful resource for their studies

International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza, Gloria Durka, Kathleen Engebretson, Robert Jackson, Andrew McGrady, 2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This *International Handbook* presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it is today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world

Anti-Catholicism and British Identities in Britain, Canada and Australia, 1880s-1920s Geraldine Vaughan, 2022-09-23 Recent debates about the definition of national identities in Britain along with discussions on the secularisation of Western societies have brought to light the importance of a historical approach to the notion of Britishness and religion This book explores anti Catholicism in Britain and its Dominions and forms part of a notable revival over the last decade in the critical historical analysis of anti Catholicism It employs transnational and comparative historical approaches throughout thanks to the exploration of relevant original sources both in the United Kingdom and in Australia and Canada several of them untapped by other scholars It applies a four nations approach to British history thus avoiding an Anglocentric viewpoint

A Cultural History of the British Empire John MacKenzie, 2022-12-06 A compelling history of British imperial culture showing how it was adopted and subverted by colonial subjects around the world As the British Empire expanded across the globe it exported more than troops and goods In every colony imperial delegates dispersed British cultural forms

Facilitated by the rapid growth of print photography film and radio imperialists imagined this new global culture would cement the unity of the empire But this remarkably wide ranging spread of ideas had unintended and surprising results In this groundbreaking history John M MacKenzie examines the importance of culture in British imperialism MacKenzie describes how colonized peoples were quick to observe British culture and adapted elements to their own ends subverting British expectations and eventually beating them at their own game As indigenous communities integrated their own cultures with the British imports the empire itself was increasingly undermined From the extraordinary spread of cricket and horse racing to statues and ceremonies MacKenzie presents an engaging imperial history one with profound implications for global culture in the present day

The Church in the Nineteenth Century Frances Knight,2008-04-07 The nineteenth century was one of the most fascinating and volatile periods in Christian history It was during this time that Christianity evolved into a truly global religion which led to an ever greater variety of ways for Christians to express and profess their faith Frances Knight addresses the crucial question of how Christianity contributed to individual identity in a context of widespread urbanisation and modernisation She explores important topics such as the Evangelical revival led by the likes of the founder of the Christian Mission later the Salvation Army William Booth the Oxford Movement under Newman Keble and Pusey Mormonism and Protestant revivalism in the USA socialism and the impacts of Karl Marx and anarchism continuing theological divisions between Protestants and Catholics and the development of pilgrimage and devotion at places like Lourdes and Knock Her book also examines the most significant intellectual trends such as the rise of critical approaches to the Bible and the different directions that these took in Britain and America The author's unique emphasis on the ordinary experience of Christians worldwide makes her volume indispensable for students and general readers who will be fascinated by this sensitive twenty first century perspective on the nineteenth century

'The better class' of Indians A. Wainwright,2017-03-01 This is the first book length study to focus primarily on the role of class in the encounter between South Asians and British institutions in the United Kingdom at the height of British imperialism In a departure from previous scholarship on the South Asian presence in Britain The better class of Indians emphasizes the importance of class as the register through which British polite society interpreted other social distinctions such as race gender and religion Drawing mainly on unpublished material from the India Office Records the National Archives and private collections of charitable organizations this book examines not only the attitudes of British officials towards South Asians in their midst but also the actual application of these attitudes in decisions pertaining to them This fascinating book will be of particular interest to scholars and general readers of imperialism immigration as well as British and Indian social history

Periodizing Secularization Clive D. Field,2019-10-31 Moving beyond the now somewhat tired debates about secularization as paradigm theory or master narrative Periodizing Secularization focuses upon the empirical evidence for secularization viewed in its descriptive sense as the waning social influence of religion in Britain Particular emphasis is attached to the two key

performance indicators of religious allegiance and churchgoing each subsuming several sub indicators between 1880 and 1945 including the first substantive account of secularization during the fin de siècle. A wide range of primary sources is deployed many of them relatively or entirely unknown and with due regard to their methodological and interpretative challenges. On the back of them a cross cutting statistical measure of active church adherence is devised which clearly shows how secularization has been a reality and a gradual not revolutionary process. The most likely causes of secularization were an incremental demise of a Sabbatarian culture coupled with the associated emergence of new leisure opportunities and transport links and of religious socialization in the church at home and in the school. The analysis is also extended backwards to include a summary of developments during the eighteenth and early nineteenth centuries and laterally to incorporate a preliminary evaluation of a six dimensional model of diffusive religion demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred. The book is designed as a prequel to the author's previous volumes on the chronology of British secularization: *Britain's Last Religious Revival* 2015 and *Secularization in the Long 1960s* 2017. Together they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880-1980. [Women, Gender and Religious Cultures in Britain, 1800-1940](#) Sue Morgan, Jacqueline de

Vries, 2010-06-10. This volume is the first comprehensive overview of women, gender and religious change in modern Britain spanning from the evangelical revival of the early 1800s to interwar debates over women's roles and ministry. This collection of pieces by key scholars combines cross disciplinary insights from history, gender studies, theology, literature, religious studies, sexuality and postcolonial studies. The book takes a thematic approach providing students and scholars with a clear and comparative examination of ten significant areas of cultural activity that both shaped and were shaped by women's religious beliefs and practices: family life, literary and theological discourses, philanthropic networks, sisterhoods and deaconess institutions, revivals and preaching ministry, missionary organisations, national and transnational political reform networks, sexual ideas and practices, feminist communities and alternative spiritual traditions. Together the volume challenges widely held truisms about the increasingly private and domesticated nature of faith, the feminisation of religion and the relationship between secularisation and modern life. Including case studies, further reading lists and a survey of the existing scholarship and with a British rather than Anglo-centric approach, this is an ideal book for anyone interested in women's religious experiences across the nineteenth and twentieth centuries.

The Imperial Horizons of British Protestant Missions, 1880-1914 Andrew N. Porter, 2003. Christian missions have long been associated with the growth of empire and colonial rule. For just as long the nature and consequences of that association have provoked animated debate over such themes as culture and identity. This volume brings together studies of changing attitudes and practices in Protestant missions during the hectic decades of European imperial and territorial expansion between 1880 and 1914. Written by acknowledged experts, *The Imperial Horizons of British Protestant Missions* includes chapters on the imperial and ecclesiastical ambitions of

the high church Society for the Propagation of the Gospel the role of empire as an arena for working out Christian understandings of atonement the international politics of the missionary movement conflicting understandings of race missionary strategies and the transfer of Western scientific knowledge Indian nationalist responses to Christian teaching and changing interpretations of Western missionary methods in China and of female missionary roles in South Africa Contributors D W Bebbington John W de Gruchy Deborah Gaitskell John M MacKenzie Chandra Mallampalli Steven Maughan Lauren F Pfister Andrew Porter Andrew C Ross Brian Stanley *Representations of Indian Muslims in British Colonial Discourse* A. Padamsee, 2005-08-02 This study questions current views that Muslims represented a secure point of reference for the British understanding of colonial Indian society Through revisionary readings of a wide range of texts it re examines the basis of the British misperception of Muslim conspiracy during the Mutiny Arguing that this belief stemmed from conflicts inherent to the secular ideology of the colonial state it shows how in the ensuing years it produced representations ridden with paradox and requiring a form of descriptive segregation **A Companion to Nineteenth-Century Britain** Chris Williams, 2008-04-15 A Companion to Nineteenth Century Britain presents 33 essays by expert scholars on all the major aspects of the political social economic and cultural history of Britain during the late Georgian and Victorian eras Truly British rather than English in scope Pays attention to the experiences of women as well as of men Illustrated with maps and charts Includes guides to further reading **Nation and Religion** Peter van der Veer, Hartmut Lehmann, 2020-10-06 Does modernity make religion politically irrelevant Conventional scholarly and popular wisdom says that it does The prevailing view assumes that the onset of western modernity characterized by the rise of nationalism the dominance of capitalism and the emergence of powerful state institutions favors secularism and relegates religion to the purely private realm This collection of essays on nationalism and religion in Europe and Asia challenges that view Contributors show that religion and politics are mixed together in complex and vitally important ways not just in the East but in the West as well The book focuses on four societies India Japan Britain and the Netherlands It shows that religion and nationalism in these societies combined to produce such notions as the nation being chosen for a historical task imperialism for example the possibility of national revival and political leadership as a form of salvation The volume also examines the qualities of religious discourse and practice that can be used for nationalist purposes paying special attention to how religion can help to give meaning to sacrifice in national struggle The book's comparative approach underscores that developments in colonizing and colonized countries too often considered separately are subtly interrelated In addition to the editors the contributors are Benedict R Anderson Talal Asad Susan Bayly Partha Chatterjee Frans Groot Harry Harootunian Hugh McLeod Barbara Metcalf and Peter van Rooden *From Mission to Modernity* Paul Sedra, 2011-03-30 In this pioneering account of Egyptian educational history Paul Sedra describes how the Egyptian state under Muhammad Ali Pasha sought to forge a new relationship with children during the nineteenth century Through the introduction of modern forms of education brought to Egypt by

evangelical missions the state aimed to ensure children's loyal service to the state whether through conscription or forced labour. However, these schemes of educational reform, most prominently Joseph Lancaster's monitorial system, led to unforeseen consequences as students in Egypt's new modern schools resisted efforts to control their behaviour in creative and complex ways, and these acts of resistance themselves led to new forms of political identity. Tracing the development of a distinctly Egyptian modernity, *From Mission to Modernity* is indispensable for all those interested in Egyptian history and the history of modern education and reform.

Suscribing to Faith? The Anglican Parish Magazine 1859-1929 Jane Platt, 2016-01-12. This book reveals the huge sales and propagandist potential of Anglican parish magazines while demonstrating the Anglican Church's misunderstanding of the real issues at its heart and its collective collapse of confidence as it contemplated social change.

Secular War Stacey Gutkowski, 2013-11-27. How have long-standing and unconscious secular assumptions about religion shaped the post 9/11 climate and its wars? Stacey Gutkowski explores this little-examined yet crucial element of British perceptions of and policy towards Jihadism over the last decade to draw critical conclusions about the relationship between war and the secular. She points to a surprisingly coherent body of secular beliefs that have fuelled policies in Iraq, Afghanistan, and counter-terrorism, and that have had mixed results, responsible for both positive strategies and tragic errors. The theory Gutkowski develops on the impact of this secular approach to warfare holds a broader global significance and cannot be viewed as just a British phenomenon. This book addresses ongoing and critical debates such as the overreach of Western liberal interventionism in the Middle East and speaks to policy makers, security analysts, and students of IR, Foreign Policy, and Security Studies.
