Seven Days in Silence Stephan Bielfeldt, 2024-03-15 A small group of perhaps 10 or 30 people come together to spend some days in silent meditation It is not important which gender ethnicity or religion they might identify with all are welcome Old age or physical disability is not a hindrance This meditation is open for everyone Sitting silently in a hall breathing sensing the body seeing the light reflected from the floor being in touch with the people around Who or what are we to be Nobody special Can it be enough to flow with the stream of aliveness which is here in utter simplicity no separation no wanting no missing When no separating thoughts or feelings appear everything is complete as it is How do we live our everyday lives Is there space to open up to become aware Are we truly in touch with what surrounds us or what is inside of us Honestly our lives are crowded with constant thoughts actions and reactions We are often overwhelmed and we switch to autopilot to get through the daily challenges Are we victims of our automated programs Is it inevitable to live most of the time in chaos feeling helplessly exposed to a world that offers not even a moment to contemplate The central expression of this book is awareness Awareness is a state of being present in the actual moment being here in the actual truth that unfolds

directly in front of our eyes Everything is already complete here Can we simply sense it feel it without judgment without knowledge or explanation No need to identify with anything What drives us The impulses to act are we aware of them A new understanding of all life and nature including us may dawn from such simple silent awareness Not a new concept of the world or of who we are Concepts are part of the observed Awareness is an understanding emerging from the truth of this moment
