Modern Historians on British History 1485-1945 (Routledge Revivals) G.R. Elton, 2009-12-10 The twenty five year period following the Second World War saw an enormous expansion of activity in the writing of the history of modern Britain and with that expansion a major transformation of the state of knowledge in many parts of the area First published in 1970 this Revivals reissue which includes an extensive coverage of books and a reasonable selection of articles endeavours both to survey the work done and to reduce it to some comprehensible order It indicates achievements and probable lines of development and collects the materials that have grown around the main controversies Omitted are local history in the main and the history of empire and commonwealth except where the latter really arises out of the affairs of the mother country There are special sections on social history the history of ideas Scotland and Ireland

England's Sea Empire, 1550-1642 David B. Quinn, A N Ryan, 2023-08-11 First published in 1983 England's Sea Empire was originally part of the Early Modern Europe Today book series It explores the relationships between the increase of English merchant shipping the growth of naval power and the early experiments in overseas trade and colonisation No other book combines these topics for the period from the middle of the 16th to the middle of the 17th century In dealing with economic strategic and technical problems the authors write in language which is intelligible to non specialist readers They illustrate the arguments with generous quotations from contemporary sources and with maps of the regions under discussion This book will be of value on undergraduate courses in early British or colonial or maritime history

The Oxford Illustrated History of Britain Kenneth O. Morgan, 2000 Examines political economic social and culture changes in Great Britain from Roman times to the present

James Ussher and John Bramhall Jack Cunningham, 2017-11-30 This book examines the lives of two leading Irish ecclesiastics James Ussher 1581 1656 and John Bramhall 1594 1663 Both men were key players in the religious struggles that shook the British Isles during the first half of the seventeenth century and their lives and works provide important insights into the ecclesiastical history of early modern Europe As well as charting the careers of Ussher and Bramhall this study introduces an original and revealing method for examining post Reformation religion Arguing that the Reformation was stimulated by religious impulses that pre date Christianity it introduces a biblical concept of Justice and Numinous motifs to provide a unique perspective on ecclesiastical development Put simply these motifs represent on the one hand the fear of God's judgement and on the other the sacred conception of the fear of God These subtle understandings that co existed in the Catholic church were split apart at the Reformation and proved to be separate poles around which different interpretations of Protestantism gathered By applying these looser concepts to Ussher and Bramhall rather than rigid labels such as Arminian Laudian or Calvinist a more subtle understanding of their careers is possible and provides an altogether more satisfactory method of denominational

categorisation than the ones presently employed not just for the British churches but for the history of the Reformation as a whole
