Los Angeles Downtown America:

The New American Majority, Koreatown, Los Angeles Shelley Sang-Hee Lee, 2022-06-14 The story of how one ethnic neighborhood came to signify a shared Korean American identity At the turn of the twenty first century Los Angeles County's Korean population stood at about 186 000 the largest concentration of Koreans outside of Asia Most of this growth took place following the passage of the Hart Celler Act of 1965 which dramatically altered US immigration policy and ushered in a new era of mass immigration particularly from Asia and Latin America By the 1970s Korean immigrants were seeking to turn the area around Olympic Boulevard near downtown Los Angeles into a full fledged Koreatown and over the following decades they continued to build a community in LA As Korean immigrants seized the opportunity to purchase inexpensive commercial and residential property and transformed the area to serve their community's needs other minority communities in nearby South LA notably Black and Latino working class communities faced increasing segregation urban poverty and displacement Beginning with the early development of LA's Koreatown and culminating with the 1992 Los Angeles riots and their aftermath Shelley Sang Hee Lee demonstrates how Korean Americans' lives were shaped by patterns of racial segregation and urban poverty and legacies of anti Asian racism and orientalism Koreatown Los Angeles tells the story of an American ethnic community often equated with socioeconomic achievement and assimilation but whose experiences as racial minorities and immigrant outsiders illuminate key economic and cultural developments in the United States since 1965 Lee argues that building Koreatown was an urgent objective for Korean immigrants and US born Koreans eager to carve out a spatial niche within Los Angeles to serve as an economic and social anchor for their growing community More than a dot on a map Koreatown holds profound emotional significance for Korean immigrants across the nation as a symbol of their shared bonds and place in American society The Rough Guide to Los Angeles Jeff Dickey, 2003 Fully updated this irreverent guide to the City of Angels focuses on both the major tourist destinations as well as lesser known gems and curiosities A colour photograph section brings the city's highlights to life from the Hollywood Hills to Santa Monica Boulevard Each chapter gives detailed coverage of each area's attractions from accommodation and restaurants to galleries shops sports activities and child oriented diversions There are also feature articles on such subjects as Hollywood LA on film architecture and LA people **The Rebirth of the American City** United States. Congress. House. Committee on Banking, Currency and Housing, 1976 **Cinema between Latin America and Los Angeles** Colin Gunckel, Jan-Christopher Horak, Lisa Jarvinen, 2019-02-08 Historically Los Angeles and its exhibition market have been central to the international success of Latin American cinema Not only was Los Angeles a site crucial for exhibition of these films but it became the most important hub in the western hemisphere for the distribution of Spanish language films made for Latin American audiences Cinema between Latin America and Los Angeles builds upon this foundational insight to both examine the considerable ongoing role that Los Angeles played in the history of Spanish language cinema and to explore the implications of this transnational

dynamic for the study and analysis of Latin American cinema before 1960 The volume editors aim to flesh out the gaps between Hollywood and Latin America American imperialism and Latin American nationalism in order to produce a more nuanced view of transnational cultural relations in the western hemisphere **The American Cities and Technology**

American City Jon C. Teafor, 2016-09-11 An updated edition of the essential text from a respected urban historian Annals of Iowa Throughout the twentieth century the city was deemed a problematic space one that Americans urgently needed to improve Although cities from New York to Los Angeles served as grand monuments to wealth and enterprise they also reflected the social and economic fragmentation of the nation Race ethnicity and class splintered the metropolis both literally and figuratively thwarting efforts to create a harmonious whole The urban landscape revealed what was right and wrong with both the country and its citizens way of life In this thoroughly revised edition of his highly acclaimed book Jon C Teafor updates the story of urban America by expanding his discussion to cover the end of the twentieth century and the first years of the next millennium A new chapter on urban revival initiatives at the close of the century focuses on the fight over suburban sprawl as well as the mixed success of reimagining historic urban cores as hip new residential and cultural hubs The book also explores the effects of the late century immigration boom from Latin America and Asia which has complicated the metropolitan ethnic portrait Drawing on wide ranging primary and secondary sources Teafor describes the complex social political economic and physical development of US urban areas over the course of the long twentieth century Touching on aging central cities technoburbs and the ongoing conflict between inner city poverty and urban boosterism The Twentieth Century American City offers a broad accessible overview of America s persistent struggle for a better city

American Arcadia Peter J. Holliday, 2016-05-03 American Arcadia explores the innumerable ways Californians shaped their visual and social culture using models and ideals from the classical tradition

Building Downtown Los Angeles Leland T. Saito, 2022-07-26 From the 1970s on Los Angeles was transformed into a center for entertainment consumption and commerce for the affluent Mirroring the urban development trend across the nation new construction led to the displacement of low income and working class racial minorities as city officials targeted these neighborhoods for demolition in order to spur economic growth and bring in affluent residents Responding to the displacement there emerged a coalition of unions community organizers and faith based groups advocating for policy change In Building Downtown Los Angeles Leland Saito traces these two parallel trends through specific construction projects and the backlash they provoked He uses these events to theorize the past and present processes of racial formation and the racialization of place drawing new insights on the relationships between race place and policy Saito brings to bear the importance of historical events on contemporary processes of gentrification and integrates the fluidity of racial categories into his analysis He explores these forces in action as buyers and entrepreneurs meet in the real estate marketplace carrying with them a fraught history of exclusion and vast disparities in wealth among racial groups

The Power of Place Dolores Hayden, 1997-02-24 Based on her extensive experience in the urban communities of Los Angeles historian and architect Dolores Hayden proposes new perspectives on gender race and ethnicity to broaden the practice of public history and public art enlarge urban preservation and reorient the writing of urban history to spatial struggles In the first part of The Power of Place Hayden outlines the elements of a

social history of urban space to connect people's lives and livelihoods to the urban landscape as it changes over time. She then explores how communities and professionals can tap the power of historic urban landscapes to nurture public memory. The second part documents a decade of research and practice by The Power of Place, a nonprofit organization Hayden founded in downtown Los Angeles. Through public meetings, walking tours, artists' books, and permanent public sculpture, as well as architectural preservation teams of historians, designers, planners, and artists, they worked together to understand, preserve, and commemorate urban landscape history as African American, Latina, and Asian American families have experienced it. One project celebrates the urban homestead of Biddy Mason, an African American ex-slave and midwife active between 1856 and 1891. Another reinterprets the Embassy Theater, where Rose Pesotta, Luisa Moreno, and Josefina Fierro de Bright organized Latina dressmakers and cannery workers in the 1930s and 1940s. A third chapter tells the story of a historic district where Japanese American family businesses flourished from the 1890s to the 1940s. Each project deals with bitter memories: slavery, repatriation, internment, but shows how citizens survived and persevered to build an urban life for themselves, their families, and their communities. Drawing on many similar efforts around the United States, from New York to Charleston, Seattle to Cincinnati, Hayden finds a broad new movement across urban preservation, public history, and public art to accept American diversity at the heart of the vernacular urban landscape. She provides dozens of models for creative urban history projects in cities and towns across the country.
