The Pariahs of Yesterday Leslie Page Moch, 2012-03-30 This work looks at the surge of Bretons who left their homes in Western France in the latter half of the 19th century to live and work in Paris Portrayed as backward ignorant peasants they found no welcome until after WWII Moch positions her work within immigration theory connecting migration studies to theories about state projects of assimilation and about cultures of inclusion and exclusion **Argentina** Alan Biggins, 1991

The Price of Freedom David Foulk, 2022-11-04 This is a significant book that investigates how the French internal resistance and external Free French movement were financed during the Second World War It brings together the secretive financial aspects of resistance inside France with those under the control of the Free French movement in London To date there have been a number of studies that have followed the Gaullist movement but none have studied how they were funded This exploration also demonstrates the global scale of the war It shows how the Free French were not simply a European Atlantic based movement but were in fact colonial and operated on a global scale shedding light on French relations with their colonies in Africa and the Pacific It underlines the role played by expatriates those belonging to the French diaspora and third country nationals in Allied nations and neutral countries including Central and South America Through the combination of digital humanities methods including social network analysis and GIS Geographic Information Systems the Allied funding for de Gaulle s movement and the internal resistance will be unveiled for the first time in its entirety The painstaking reconstruction of the financial records of the Free French and their lines of subsidy is a novel approach that sheds new light onto the financial networks between French British and American officials who made this financing possible This illuminates the complexity of international relations in a time of war Using a combination of economic and accounting analysis as well as primary sourced historical research this book distinctively applies sociological methodologies to this long held question This book will be of interest to those in economics economic history finance accounting digital humanities modern history international relations political science and war studies **European Immigration and Ethnicity in Latin**
