Humanism and Religion in Early Modern Spain Terence O'Reilly, 2021-09-30 Humanism and Religion in Early Modern Spain brings together twenty-five essays by renowned historian Terence O'Reilly. The essays examine the interplay of religion and humanism in a series of writings composed in sixteenth-century Spain. It begins by presenting essential background, the coming together during the reign of the Emperor Charles V of Erasmian humanism and various movements of religious reform, some of them heterodox. It then moves on to the reign of Philip II, focusing on the mystical poetry and prose of St. John of the Cross. It explores the influence on his writings of his humanist learning, classical, biblical, and patristic. The third part of the book concerns a verse epistle by John's contemporary Francisco de Aldana. One chapter presents the text with a parallel version in English, whilst two others trace its debt to Florentine Neoplatonism, particularly the thought of Marsilio Ficino. The final part is devoted to the humanism of the poet and Scripture scholar Luis de León and specifically to the confluence in his work of biblical and classical motifs. This book is essential reading for scholars and students of early modern Spanish history, as well as those interested in literary studies and the history of religion. CS 1102

Poetics of Friendship in Early Modern Spain Gilbert-Santamaria Donald Gilbert-Santamaria, 2020-09-21 Friendship as a poetic principle in early modern Spanish literary works. Donald Gilbert Santamaria shows how the Aristotelian-Ciceronian notion of perfect male friendship operates as an independent poetic force within the development of Spanish literature in the sixteenth and early seventeenth centuries. He traces the trajectory for such a poetics through key prose and theatrical works, culminating in an analysis of Don Quixote, where friendship emerges as an important formal influence in Cervantes's novel. With chapters covering several important genres from the period, including the pastoral novel and the comedia, the book explores the relationship between friendship and other key problems associated with literary representation in the period: subjectivity, exemplarity, and imitatio among others.
