After Alfred Pauline Stafford,2020-07-02 The vernacular Anglo Saxon Chronicles cover the centuries which saw the making of England and its conquest by Scandinavians and Normans After Alfred traces their development from their genesis at the court of King Alfred to the last surviving chronicle produced at the Fenland monastery of Peterborough These texts have long been part of the English national story Pauline Stafford considers the impact of this on their study and editing since the sixteenth century addressing all surviving manuscript chronicles identifying key lost ones and reconsidering these annalistic texts in the light of wider European scholarship on medieval historiography The study stresses the plural chronicles whilst also identifying a tradition of writing vernacular history which links them It argues that that tradition was an expression of the ideology of a southern elite engaged in the conquest and assimilation of old kingdoms north of the Thames Trent and Humber Vernacular chronicling is seen not as propaganda but as engaged history writing closely connected to the court whose networks and personnel were central to the production and continuation of these chronicles In particular After Alfred connects many chronicles to bishops and especially to the Archbishops of York and Canterbury The disappearance of the English speaking elite after the Norman Conquest had profound impacts on these texts It repositioned their authors in relation to the court and royal power and ultimately resulted in the end of this tradition of vernacular chronicling

Greek and added to the Septuagint around 200 BC when a large number of refugees fled from the war in Judea and settled in Egypt. The four books of the Kingdoms would later become two books in the Masoretic Texts: the books of Samuel and Kings. Subsequent Latin and English translations of the Masoretic Texts labeled these books as 1 and 2 Samuel and 1 and 2 Kings. The Septuagint's 1 Kingdoms is the book called 1 Samuel in most Catholic and Protestant Bibles and 1 Kingdoms in Orthodox and Coptic Bibles. This version differs slightly from the later Masoretic book of Samuel, although all three are generally similar. Unlike the Masoretic version, Saul does not repeatedly meet David for the first time, meaning that either the Greeks simplified the Aramaic texts they translated or the Masoretic version is based on a different version of 1 Kingdoms. While a Greek simplification of the text is the simplest explanation for the less confusing narrative, it cannot explain why the Masoretic version has Saul meeting David for the first time in three unique stories or why the Greek translation has transliterated Hebrew words that are no longer in the Masoretic version. The origin of 1 Kingdoms, along with the other five books of Kingdoms and Paralipomena, is a matter of great debate among scholars. The Bava Basra tractate of the Talmud reports that the first 25 chapters of Masoretic Samuel and therefore the first 25 chapters of 1 Kingdoms were written by the prophet Samuel, and the rest of Masoretic Samuel, which would be chapter 26 through 31 of 1 Kingdoms, and the entire book of 2 Kingdoms were written by the prophets Gad and Nathan. Samuel, Gad, and Nathan are all mentioned in 1 and 2 Kingdoms; however, most biblical scholars have rejected the idea that they had anything to do with the authorship of these books for the past few hundred years. Almost all scholars in every era have agreed with the idea that the six books were based on the older, now lost books of the Chronicles of the Kings of Samaria and Judea mentioned in the later books of Kingdoms. These six later books are generally accepted as having been written in the Babylonian or Persian era and then redacted in the Greek era or Hasmonean dynasty; however, the origin of the earlier works is a matter of debate. The language of 1 Kingdoms is archaic, and early sections dealing with Eli and Samuel read like a continuation of Judges, implying the original book of Judges continued until Saul seized power in 1037 BC.

Septuagint: History Scriptural Research Institute, 2019-12-22. In the mid 3rd century BC, King Ptolemy II Philadelphus of Egypt ordered a translation of the ancient Israelite scriptures for the Library of Alexandria. This translation later became known as the Septuagint, based on the description of the translation by seventy translators in the Letter of Aristeas. By 132 BC, the Septuagint included all the books later adopted by the Byzantine Orthodox church as the Old Testament section of the Christian Bible. Some of these books were rejected by the Hebrew translators during the Hasmonean Dynasty of Judea and never formed part of the Masoretic text. The Septuagint of 132 BC included four sections: the Torah, History, Wisdom, and Prophets sections. The History section includes the books of Joshua, Judges, Ruth, Kingdoms, Paralipomena, Ezra, Tobit, Judith, Esther, and Maccabees. One of the problems with academic translations of the Septuagint is the use of unfamiliar names or terms, as the Septuagint was written in Greek and therefore many names are unrecognizable to modern readers who are used to Hebrew-derived names. This project uses the more commonly understood

Hebrew derived names instead of their Greek translations such as Canaan instead of Chanaan and Melchizedek instead of Melchisedec Common modern names are also used instead of either Greek or Hebrew terms when geographical locations are known such as the archaeological name Uruk instead of the Greek Orech or the Hebrew Erech and the archaeological term Sumer instead of Shinar or Senar While this could be argued as not being a correct academic procedure it does fulfill the goal of making the translation easy to read and understand The Lost Chronicle of Barnstaple 1586-1611 Todd Gray,1998
