The Lost Civilization Enigma Philip Coppens, 2012-10-22 An examination of archaeological controversies with arguments showing evidence of prehistoric civilizations not recorded as part of human history Are history books giving us the whole story Or is civilization far more complex and older than we have been taught Our school textbooks barely mention the 6 000 year old Sumerian civilization yet the latest archaeological findings at sites such as Jericho and most recently Gobekli Tepe in Turkey have been dated to 10 000 BC Civilization goes back at least another 10 000 years if we are willing to believe what our ancestors themselves claimed The Lost Civilization Enigma reveals the truth about Lost magnitudes to known cultures such as the Bosnian Pyramids and the civilization of Old Europe The fabled lost golden cities of South America and the Amazon which are slowly being rediscovered Fascinating examples of lost technology such as the Antikythera Device Atlantis and the fact that it was a real civilization Analyzing the historical and archaeological record best selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older far more advanced and far more special than is currently accepted Clearly our history books have left out a great deal

A Secret History of Consciousness Gary Lachman, 2003-07 For the last four centuries science has tried to account for everything in terms of atoms and molecules and the physical laws they adhere to Recently this effort was extended to try to include the inner world of human beings Gary Lachman argues that this view of consciousness is misguided and unfounded He points to another approach to the study and exploration of consciousness that erupted into public awareness in the late 1800s In this secret history of consciousness consciousness is seen not as a result of neurons and molecules but as responsible for them meaning is not imported from the outer world but rather creates it In this view consciousness is a living evolving presence whose development can be traced through different historical periods and which evolves along a path to a broader more expansive state What that consciousness may be like and how it may be achieved is a major concern of this book Lachman concentrates on the period since the late 1800s when Madame Blavatsky first brought the secret history out into the open As this history unfolds we encounter the ideas of many modern thinkers from esotericists like P D Ouspensky Rudolf Steiner and Colin Wilson to more mainstream philosophers like Henri Bergson William James Owen Barfield and the psychologist Andreas Mavromatis Two little known but important thinkers play a major role in his synthesis Jurij Moskvitin who showed how our consciousness relates to the mechanisms of perception and to the external world and Jean Gebser who presented perhaps the most impressive case for the evolution of consciousness An important contribution to the study of consciousness a must read

Eran: Rich Cultural Heritage of Lost Civilizations Dr. Mohan Lal Chadhar, 2025-01-15 Eran a site of immense historical and archaeological significance holds a prominent

position in the Chalcolithic cultures of Central India The excavations conducted in Eran have unearthed a treasure trove of evidence related to the Kayatha Ahar Malwa and Jorwe cultures providing valuable insights into the ancient civilizations that thrived in the region The artifacts and remains discovered at Eran have shed light on the cultural practices technological advancements and social organization of the Chalcolithic people who once inhabited the area The architectural marvels of Eran stand as a testament to the ingenuity and craftsmanship of our forebears The temples with their austere simplicity speak of an era when art and architecture were intrinsically linked to spirituality The monumental pillars crowned with back to back human figures leave us awestruck by the mastery of ancient sculptors This book seeks to provide a comprehensive account of the various inscriptions obtained from Eran offering readers a deeper understanding of the rich cultural heritage of lost civilizations Through the study of these inscriptions we aim to preserve and celebrate the legacy of Eran s past ensuring that its significant contributions to India s history remain cherished and well appreciated

Notes of a Potato Watcher James Lang, 2001 Native to the New World the potato was domesticated by Andean farmers probably in the Lake Titicaca basin almost as early as grain crops were cultivated in the Near East Full of essential vitamins and energy giving starch the potato has proved a valuable world resource Curious Spaniards took the potato back to Europe from whence it spread worldwide Today the largest potato producer is China with India not far behind To tell the potato s story Lang has done fieldwork in South America Asia and Africa
