The Shaping Forces in Music Ernst Toch, 1977-01-01 A masterful and original classical composer as well as a renowned composer of film scores Ernst Toch 1887 1964 made a permanent contribution to music in this important and widely praised book Based on a series of lectures given at Harvard in 1944 and first published in 1948 this book is a brilliant examination of the materials and concepts that are the basic building blocks of music harmony melody counterpoint and form An admirable reconciliation of traditional and modern mainly 12 tone trends in composition this book shows all types of writing must respond to psychological wants of the listener and how similar goals may be achieved in seemingly opposed styles Illustrating his discussion with 390 musical examples Toch not only introduces new ideas and approaches but examines many age old problems with clarity and precision consonance and dissonance form versus number and more His analysis of the expanding harmonic universe the wave line of melody and the formative influence of movement are particularly penetrating New to this edition are a biological introduction by Toch's grandson Lawrence Weschler a previously

unpublished letter from Thomas Mann to Toch about this book in English translation and a complete checklist of Toch's compositions. The Life and Twelve-Note Music of Nikos Skalkottas Eva Mantzourani, 2016-03-03 Nikos Skalkottas is perhaps the last great undiscovered composer of the twentieth century. In the 1920s he was a promising young violinist and composer in Berlin and a student of Schoenberg who included him among his most gifted pupils. It was only after his return to Greece in 1933 that Skalkottas became an anonymous and obscure figure working in complete isolation until his death in 1949. Most of his works remained unpublished and unperformed during his lifetime, and although he is largely known for his folkloristic tonal pieces, Skalkottas in fact concentrated predominantly on developing an idiosyncratic dodecaphonic musical language. Eva Mantzourani provides here a comprehensive study of this fascinating yet under-researched composer. The book, lavishly illustrated with musical examples, is divided into three parts. Part I comprises a critical biography that, by drawing extensively on his letters and other writings, reappraises the image of Skalkottas with which we are often presented. The main focus of the book, however, is on Skalkottas's twelve-note compositional processes, since these characterize the majority of his output and are neither well known nor fully understood. Part II presents the structural and technical features of his twelve-note technique, particularly the different types of sets and their manipulation and his approach to musical forms. Part III consists of analytical case studies of several works presented chronologically, which thus provide a diachronic framework within which Skalkottas's dodecaphonic compositional development can be more effectively viewed. This book underlines Nikos Skalkottas's importance as a composer with a distinctive artistic personality whose work contributed to the development of twelve-note compositional practice and who deserves a more significant position within the Western art music canon than that to which he is often assigned.

Joachim Raff Helene Raff, 2012 Joachim Raff (1822-1882), a protégé of both Mendelssohn and Liszt, was one of the most popular composers in the second half of the nineteenth century. This book, the only biography of him ever published, is an essential source for anyone interested in his fascinating life and times, and Alan Howe's splendid idiomatic and extremely readable translation makes it available in English for the first time. Helene Raff's distinctively brisk voice, objective and unsentimental in her judgement of her father, is masterfully brought to life for today's readers. This modern edition significantly enhances the original 1925 book with many illustrations, extensively researched footnotes, a complete work list, and an index.

Alexander Zemlinsky Marc Moskowitz, 2010 Moskowitz's exploration of Zemlinsky's songs, operas, choral works, chamber music, and symphonic compositions follows the composer's search for a distinctly personal sound, revealing an artist caught up in the music of his time yet unwilling to abandon his 19th-century roots. From Zemlinsky's early success as a composer and widely recognized achievements as a conductor to his eventual descent into obscurity, this new biography places Zemlinsky (1871-1942) against the backdrops of Vienna, Prague, and Berlin and illuminates his relationships with figures like Johannes

Brahms Alma Schindler Gustav Mahler and Arnold Schoenberg Moskovitz's exploration of Zemlinsky's songs operas choral works chamber music and symphonic compositions follows the composer's search for a distinctly personal sound revealing an artist caught up in the music of his time yet unwilling to abandon his 19th century roots Alexander Zemlinsky A Lyric Symphony includes an Afterword by conductor James Conlon and a complete discography of Zemlinsky recordings MARC D MOSKOVITZ is principal cellist of the ProMusica Chamber Orchestra of Columbus Ohio and has written for various music journals and the New Grove Dictionary of Music and Musicians

The Music of Herbert Howells Phillip A. Zoltan Kodaly's World of Music Anna Dalos, 2020-09-08 Hungarian composer and

musician Zoltán Kodály 1882-1967 is best known for his pedagogical system the Kodály Method which has been influential in the development of music education around the world. Author Anna Dalos considers for the first time in publication Kodály's career beyond the classroom and provides a comprehensive assessment of his works as a composer. A noted collector of Hungarian folk music, Kodály adapted the traditional heritage musics in his own compositions, greatly influencing the work of his contemporary Béla Bartók. Highlighting Kodály's major music experiences, Dalos shows how his musical works were also inspired by Brahms, Wagner, Debussy, Palestrina, and Bach. Set against the backdrop of various oppressive regimes of twentieth-century Europe, this study of Kodály's career also explores decisive extramusical impulses such as his bitter experiences of World War I, Kodály's reception of classical antiquity, and his interpretation of the male and female roles in his music. Written by the leading Kodály expert, this impressive work of historical and musical insight provides a timely and much-needed English language treatment of the twentieth-century composer. The Three Apostles of Russian Music Gregor Tassie, 2021-11-11. The Three Apostles of Russian Music looks at three figures in the Soviet avant-garde who led modernist music in the 1920s: Mosolov, Popov, and Roslavets. They were popular composers who are now unfortunately forgotten. These remarkable musicians produced compositions like the sensational machine music *Foundry* by Mosolov. The first symphony by Popov attracted musicians in Europe and America but was banned after the premiere, while Roslavets discovered serialism before Schoenberg, opening up a new trend in modernism. This book is the first study in English of the work, lives, and legacies of these apostles of the Russian avant-garde. *Henry Holden Huss* Gary A. Greene, 1995. Contains an annotated worklist with suggestions of Huss pieces for further exploration by performers, a list of his writings on musical topics, and numerous illustrations. Weinzweig Brian Cherney, 2018-03-31. John Weinzweig 1913-2006 was the pre-eminent Canadian composer of his generation. Influenced by European modernists such as Stravinsky, Berg, and Webern, he was the first Canadian composer to employ serialism, thereby bringing a spirit of innovation to mid-twentieth-century Canadian music. A forceful advocate for modern Canadian composition, Weinzweig played a key role in the founding of the Canadian League of Composers and the Canadian Music Centre during a buoyant and expansive period for the arts in Canada. He was an influential force as a teacher of composition, first with the Royal Conservatory of Music and later with the University of Toronto's music faculty. This first comprehensive study of Weinzweig since his death consists of new essays by composers, theorists, and musicologists. It deals with biographical aspects, the social context of early twentieth-century Toronto, his activism, his teaching, his early scores for CBC Radio dramas, analyzes his compositional processes and his output, his approach to serialism, his instrumental practice, the presence of jazz elements, the vocal works, the divertimenti, and examines various evaluations of his music, his own in letters, interviews, talks, and writings, plus those of critics and scholars, of listeners, and of performers. The essays are framed by the co-editors' portrait, assessment of Weinzweig, and a brief personal memoir. Much of the content draws on new research in the extensive Weinzweig Fonds at Library and Archives Canada in Ottawa.

Included at the end of the book are a <http://www.wlupress.wlu.ca/Generalbeckwithcherneylistofworksdiscography.pdf> List of Works by John Weinzweig by Kathleen McMorro and a Discography by David Olds both available here as pdfs

Listening to music is not merely something one does but something central to a way of living Listening has the power to transport one into another way of being It is a mode of feeling and forms the bedrock of deep emotion Written from the viewpoint of a philosophy of sensibility Matthew Del Nevo notes that this perspective may not be in fashion but it follows a long tradition Del Nevo emphasizes the aesthetic experience of listening to art music as it has developed and disintegrated in Western civilization He recognizes a deep psychological element to what he calls soul or more accurately sensibility He addresses music in a non technical way taking up the powerful art theory of Charles Baudelaire the music philosophy of Schopenhauer and Richard Wagner and takes a strong critical stand against modernist intellectual art music The importance of this book for the musically literate reader is its insight into the metaphysics of nostalgia This comprehension is missing from nearly all musical instruction because we have lost sight of it Del Nevo asserts that this understanding must be brought back into our culture And since this is a book about listening to art music it is no less about sensibility and its cultivation which in its object form we call culture An engaging book Art Music will appeal to those interested in music culture and philosophy **Franz Schubert: A Biography** Henry Frost,2019-02-01 Clarity of outline conciseness and formal beauty are excellent things in musical works but an exquisite fancy a noble imagination and a lofty poetic spirit are of infinitely greater account and no one ever possessed these inestimable gifts in richer profusion than Franz Schubert This new edition of Henry Frost s 1892 biography of Franz Schubert has been edited and revised The original references to pieces by Opus number have been replaced with the more commonly used D numbers Many illustrations of places and people have been added throughout the text and a complete catalog of Schubert s works has been included With faith man steps forth into the world Faith is far ahead of understanding and knowledge for to understand anything I must first of all believe something Faith is the higher basis on which weak understanding rears its first columns of proof reason is nothing but faith analysed Franz Schubert **Sonic Transformations of Literary Texts** Siglind Bruhn,2008 Among the possible relationships between art forms that express themselves in different sign systems the pairing of words and images is the one that is most thoroughly explored And in fact the most securely established terminology is found in a field that has experienced a significant revival in recent years ekphrasis The literary topos through which a poem or any other text addresses itself to the visual arts has received much attention in recent years and been subjected to intense scrutiny **BOOK JACKET** **Twenty-Six Composers Teach the Violinist** William Starr,1995-11-16 An invaluable collection of excerpts from solo chamber and orchestral
