Maker of Heaven and Earth Langdon Gilkey, 1965 **Maker Of Heaven And Earth** Langdon Gilkey, 1959 **Maker of Heaven and Earth** Langdon Gilkey, 1965 **Maker of Heaven and Earth; a Study of the Christian Doctrine of Creation** Langdon Gilkey, *Heaven and Earth in the Gospel of Matthew* Jonathan T. Pennington, 2007-11-30 A much overlooked aspect of the Gospel of Matthew is the theme of heaven and earth Rather than being a reverential circumlocution for God heaven in Matthew is part of a highly developed discourse of heaven and earth language Matthew s idiolectic way of using heaven language consists of four aspects 1 a distinction in meaning between singular and plural forms of ouranos 2 frequent use of the heaven and earth word pair 3 regular reference to the Father in heaven and 4 the recurrent use of the Matthean expression kingdom of heaven This book examines the historical precedents for each of these aspects and shows in Matthew how they serve one overriding theological purpose to highlight the tension that currently exists between heaven and earth or God and humanity while looking forward to its eschatological resolution **Toward A Theology of Scientific Endeavour the Descent of Science** Christopher B. Kaiser, 2007 This book explores four foundations of scientific endeavour the cosmos human intelligence cultural beliefs and technological structures and investigates some of the paradoxes each of them raises The concurrent study of all four together reveals several tensions and interconnections among them that point the way to a greater unification of faith and science Kaiser shows that the resolution of these paradoxes inevitably leads us into theological discourse and raises new challenges for theological endeavour In order to address these challenges Kaiser draws on the wider resources of the Judeo Christian tradition and argues for a refocusing of contemporary theology from the perspective of natural science **The Great Angel** , 1992-01-01 In this groundbreaking book Barker claims that pre Christian Judaism was not monotheistic and that the roots of Christian Trinitarian theology lie in a pre Christian Palestinian belief about angels derived from the ancient religion of Israel Barker s beliefs are based on canonical and deuterocanonical works and literature from Qumran and rabbinic sources Science and the Study of God Alan G. Padgett, 2003 For many today religion and science are seen as enemies battling for human hearts and minds In this new book Alan Padgett shows that they can and should work together in developing a worldview that is at once spiritually meaningful and scientifically sound Pursuing a perspective that he calls the mutuality model Padgett highlights the contributions that both religion and science make to a full understanding of the world and our place in it He argues convincingly that the natural sciences and theology can rationally influence each other without giving up their important distinctives and methods The book explores the nature of informal reason and worldviews the character of theology as a spiritual and academic discipline and the question of what counts as natural science Along the way Padgett discusses such topics as thermodynamics time resurrection and the historical Jesus as examples of the powerful model that he is developing *The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy Volume II: Anthropogenesis* Helena Petrovna Blavatsky, 2018-02-24 The last book in the

monumental work of Theosophic thought This book focuses on gaining occult power in the formation of the humanity and the earth This group sought to learn the secrets of nature science and divinity in order to empower themselves to godhood and this book reveals their secrets as to how knowledge to do this can be attained It does not reveal what the ultimate saving knowledge is that can do this but it gives guidelines on how to start the journey for yourself **Maker of heaven and earth**
