Making And Remaking Italy The Cultivation Of National Identity Around The Risorgimento:

Making and Remaking Italy Albert Russell Ascoli, Krystyna Clara Von Henneberg, 2001-05 This important new book considers many of the ways in which national identity was imagined implemented and contested within Italian culture before during and after the period of Italian unification in the mid nineteenth century Taking a fresh approach towards national icons cherished by both Left and Right the collection s authors examine the complex interaction between a perceived need for national identity and the fragmented nature of the Italian peninsula In so doing they draw on examples from a wide range of artistic and cultural media The book opens with an introduction which defines the case of the Italian Risorgimento and places it within a large context of European and global nation building and nationalism Authors discuss how episodes from the distant past were used by nineteenth and twentieth century artists musicians and writers to recreate narratives of nationhood as well as how the problem of Italian identity was before and during the Risorgimento The question of who belonged in the new Italy who remained outsiders and how social and sexual differences entered into defining these groups is also addressed The book concludes with an analysis of twentieth century attempts to appropriate and reforge the spirit of the Risorgimento under Fascism and in our own time

Risorgimento in Modern Italian Culture Norma Bouchard, 2005 The renewed attention to the origin and shape of nationalist discourses has promoted many excellent studies devoted to examining the rich storehouse of cultural responses produced during and after Risorgimento the political events that from 1859 to 1870 led Italy from being a fragmented peninsular to an independent and unified nation state However the assessment of Risorgimento and its myths from the post World War II era to the present remains for the most part unexplored While it is undeniable that the dramatic economic social and political transformations that have characterized Italy from the second half of the twentieth century to the present have altered the role and function of nationalist narratives it remains equally true that interest in the Risorgimento in modern Italian culture has not diminished

Mussolini's National Project in Argentina David Aliano, 2012-08-31 During the 1920s and 1930s Mussolini s fascist regime attempted to promote fascist Italy s national project in Argentina bombarding the republic with its propaganda Although politically a failure this propaganda provoked a debate over the idea of a national identity outside the nation state and the potential roles that citizens living abroad could play in their country of origin In propagating an Italian national identity within another sovereign state Mussolini s initiative also inspired heated debate among native Argentines over their own national project as a nation of immigrants Using the experiences of Mussolini s efforts in Argentina as its case study this book demonstrates how national projects take on different meanings once they enter a contested public space It details how both members of the Italian community as well as native Argentines reshaped Italy s national discourse from abroad by entangling it with Argentina s own national project In exploring the way in which nations are imagined constructed and recast both from above as well as from below Mussolini s National Project in Argentina offers new perspectives on the politics of identity formation

while providing a transatlantic example of the dynamic interplay between the Italian state and its emigrant communities It is in short a transnational perspective on what it means to belong to a nation

The Heirs to the Savoia Throne and the Construction of 'Italianità', 1860-1900 Maria Christina Marchi, 2022-05-26 This book explores the evolution of the role of the heirs to the throne of Italy between 1860 and 1900 It focuses on the future kings Umberto I 1844 1900 and Vittorio Emanuele III 1869 1947 and their respective spouses Margherita of Savoia 1851 1926 and Elena of Montenegro 1873 1952 It sheds light on the soft power the Italian royals were attempting to generate by identifying and examining four specific areas of monarchical activity firstly the heirs public role and the manner in which they attempted to craft an Italian identity through a process of self presentation secondly the national royal linguistic and military education of the heirs thirdly the promotion of a family centred dynasty deploying both male and female elements in the public realm and finally the readiness to embrace different modes of mobility in the construction of Italianity By analysing the growing importance of the royal heirs and their performance on the public stage in post Risorgimento Italy this study investigates the attempted construction of a cohesive national identity through the crown and more specifically the heirs to the throne

Joyce's Dante James Robinson, 2016-10-14 Joyce's engagement with Dante is a crucial component of all of his work This title reconsiders the responses to Dante in Joyce's work from *A Portrait of the Artist as a Young Man* to *Finnegans Wake* It presents that encounter as an historically complex and contextually determined interaction reflecting the contested development of Dante's reputation readership and textuality throughout the nineteenth century This process produced a Dante with a difference a uniquely creative and unorthodox construction of the poet which informed Joyce's lifelong engagement with such works as the *Vita Nuova* and the *Commedia* Tracing the movement through Joyce's writing on exile as a mode of alienation and charting his growing interest in ideas of community Joyce's Dante shows how awareness of his changing reading of Dante can alter our understanding of one of the Irish writer's lasting thematic preoccupations

William Lloyd Garrison and Giuseppe Mazzini Enrico Dal Lago, 2013-11-11 William Lloyd Garrison and Giuseppe Mazzini two of the foremost radicals of the nineteenth century lived during a time of profound economic social and political transformation in America and Europe Both born in 1805 but into dissimilar family backgrounds the American Garrison and Italian Mazzini led entirely different lives one as a

citizen of a democratic republic the other as an exile proscribed by most European monarchies Using a comparative analysis Enrico Dal Lago suggests that Garrison and Mazzini nonetheless represent a connection between the egalitarian ideologies of American abolitionism and Italian democratic nationalism Focusing on Garrison's and Mazzini's activities and transnational links within their own milieus and in the wider international arena Dal Lago shows why two nineteenth century progressives and revolutionaries considered liberation from enslavement and liberation from national oppression as two sides of the same coin At different points in their lives both Garrison and Mazzini demonstrated this belief by concurrently supporting the abolition of slavery in the United States and the national revolutions in Italy The two meetings Garrison and Mazzini had in 1846 and in 1867 served to reinforce their sense that they somehow worked together toward the achievement of liberty not just in the United States and Italy but also in the Atlantic and Euro American world as a whole In the end the abolition of American slavery led to Garrison's consecration while the new Italian kingdom forced Mazzini into exile Despite these different outcomes Garrison and Mazzini both attracted legions of devoted followers who believed these men personified the radical causes of the nations to which they belonged

Gabriele D'Annunzio and Italy's Renaissance Guylian Nemegeer, 2025-11-10 This book examines how Gabriele D'Annunzio 1863-1938 reimagined the Renaissance as a metaphor for Italy's national rebirth Rather than a nostalgic revival the Renaissance became in his hands a future oriented ideological

project that served as the backbone of his ethnonationalist worldview Tracing how modernist temporality intersects with historical mythmaking and nationalist discourse the book positions D Annunzio within broader European debates on decadence modernity and regeneration It also reconsiders his role as a public intellectual whose mythmaking shaped Italy s cultural identity and modern ambitions By highlighting the strategic mobilization of tradition this study assesses the significance of D Annunzio s Renaissance ideology within the cultural politics of European modernism In an era of resurgent far right ideologies and nationalist imaginaries across Europe and beyond revisiting figures like D Annunzio is essential to understanding how historical myths have shaped past political narratives and continue to influence those of the present

obstruction of direct light from hitting that surface For writers and artists the shadows cast by their precursors can be either a welcome influence one consciously evoked in textual production via homage or bricolage or can manifest as an intrusive haunting prohibitive presence one which threatens to engulf the successor Many writers and artists are affected by an anxious and ambiguous relationship with their precursors while others are energised by this relationship The role that intertextuality plays in creative production invites interrogation and this publication explores a range of conscious and unconscious influences informing relations between texts and contexts between predecessors and successors The chapters revolve around intertextual influence ranging from conscious imitation and intentional allusion to Julia Kristeva's idea of intertextuality Do all texts contain references to and even quotations from other texts Do such references help shape how we read This multidisciplinary work includes chapters on the long shadows cast by Shakespeare Dante Scott Virgil and Ovid the shadows of colonial precursors on postcolonial successors the shadows cast over Kipling and Murdoch and chapters on other writers dramatists and filmmakers and their relationships with precursor figures With its focus on intertextual relationships this book contributes to the thriving fields of adaptation studies and studies of intertextuality
