Making Democracy Work Better Richard A. Couto, 2003-07-11 The decade of the 1980s marked a triumph for market capitalism As politicians of all stripes sought to reinvent government in the image of private enterprise they looked to the voluntary sector for allies to assuage the human costs of reductions in public policies of social welfare This book details the savage side of market capitalism in Appalachia and explains the social political and economic roles that mediating structures play in mitigating it Profiling the work of twenty three such mediating structures community based organizations that battled to provide social safety nets fight environmental assaults and upgrade the education and job skills of Appalachian residents Richard Couto distills the practical lessons to be found in their successes and shortcomings Couto argues that a broader set of democratic dimensions be used in taking the measure of civil society and public policy in the twenty first century He shows that mediating structures promote the democratic prospect of reduced inequality and increased communal bonds when they provide and advocate for new forms and increased amounts of social capital the public goods and moral resources that we invest in one another as members of a community

Making Democracy Work Robert D. Putnam, 1993 Why do some democratic governments succeed and others fail In a book that has received attention from policymakers and civic activists in America and around the world Robert Putnam and his collaborators offer empirical evidence for the importance of civic community in developing successful institutions Their focus is on a unique experiment begun in 1970 when Italy created new governments for each of its regions After spending two decades analyzing the efficacy of these governments in such fields as agriculture housing and health services they reveal patterns of associationism trust and cooperation that facilitate good governance and economic prosperity

Why Politics Matters Gerry Stoker, 2006-08-22 Achieving mass democracy was the great triumph of the twentieth century Learning to live with it will be the greatest achievement of the twenty first century A rising tide of discontent is posing a major crisis for systems of mass democracy the evidence is clear to see in reduced turnout and party membership and in opinion surveys The failures of politicians have

played their part but Gerry Stoker argues equally important are the dysfunctional political stances and styles adopted by many citizens Democratic politics he argues is doomed to disappoint because it involves collective decision making demands complicated communication and generally produces a messy compromise one size fits no one So what is the solution Stoker suggests that democracy and the political class must create a new politics making it as easy as possible for as many people as possible to express and debate their political preferences **Making Democracy Work for Pro-poor Development**
