Excerpt from Making Fences Walls and Hedges Undoubtedly the first use of fences and walls was for protection primarily against the mighty beast that threatened our earliest ancestors and later to secure the crops and domesticated animals They helped to stop the encroaching forests and jungles acted as wind breaks to delicate plants or to habitations and finally served as boundaries to property controlled by the family or community As the home became an institution and men gathered in favorable locations for mutual protection and social intercourse the fence acted as a screen or barrier to the private life about the house All walls and fences no matter what their use can be made ornamental and their proper use however simple but employed with feeling and discernment for the architecture of the house and for the nature of the land stamps the property at once with a personal touch About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

House of Commons,1808 **The Front Garden** Mary Riley Smith,2001-02-27 The front yard is the stepchild of landscape design ignored in the current enthusiasm for gardening Typically with its high maintenance lawn and overgrown foundation planting the front yard doesn t enhance the house or provide useful living space for the homeowner Yet as new properties become

smaller and old ones grow shadier the front garden may be the best place to grow vegetables or flowers to sit outside in comfort and privacy or even to swim or play tennis Mary Riley Smith a landscape designer who has often dealt with poorly planned and underused front properties has filled this book with creative ways to make your own front garden beautiful and functional She shows how to design paths driveways and parking areas and how to camouflage unattractive but necessary structures For privacy she describes the different virtues of fences clipped hedges and loose flowing hedgerows When it comes to planting in front of the house the choices are surprising instead of a lawn you might create a colorful cottage garden an edible landscape a drought tolerant meadow of regional native plants a sea of ornamental grasses or even a romantic orchard All of these landscapes and dozens more from all parts of the country are illustrated with beautiful photographs THE FRONT GARDEN concludes with nine case histories including the landscape designers plans that will give you even more ideas for turning your front yard into a beautiful garden *The Law of Party Walls and Fences* Humphry William Woolrych, 1845
