Making Of Terrorism:

The Making of Terrorism Michel Wieviorka, 1993-12-15 In this innovative study Michel Wieviorka applies interventionist sociology to a comparative analysis of Italian Peruvian Basque and Middle Eastern terrorist groups Through staged confrontations between terrorists and their targets and extensive interviews with both parties he throws new light on the terrorists and their relationships both to the movements they represent and the social institutions they attempt to destroy Wieviorka demonstrates that the truly terrorist actor has become alienated both from the collective movement and society The actor turns to the blind violence when he finds himself cut off from the very ideology which legitimates his actions Pure terrorism Wieviorka concludes is more than simply a break between those who use it and those it targets it is also a relationship between the individual and the collective he represents which has been rendered unrealistic or artificial Thus terrorist violence should be understood not as the desperate act of a faltering movement but as a substitute for a movement which has fallen away from the ideology in which it was forged For the revelations it offers on the roots and motivations of terrorism for its innovative methods and for its useful comparative analysis of terrorist groups in recent history *The Making of Terrorism* will be an important resource across many disciplines for anyone interested in terrorism or political violence

Clinton, New Terrorism and the Origins of the War on Terror Chin-Kuei Tsui, 2016-07-15 A frequent assumption of the American led war on terror and its accompanying discourse originated largely with the George W Bush Administration and that there was a counterterrorism policy revolution in the U S political arena Challenging these assumptions through a genealogical analysis of U S terrorism and counterterrorism discourses this book demonstrates a distinct continuity and lack of change of U S counterterrorism policy from Ronald Reagan to Bill Clinton and through to George W Bush The book focuses on President

Clinton's discursive construction of new terrorism or catastrophic terrorism and the counterterrorism practices implemented by the Clinton Administration while simultaneously comparing it with President Reagan's and President George W Bush's approaches to counterterrorism. It shows how the war on terror can be traced to earlier periods and that the so-called Bush revolution was largely built upon the existing framework established by President Reagan and President Clinton. Prior to the 2001 terrorist attacks, Clinton had expanded Reagan's first war on terrorism discourse and constructed the new terrorism discourse characterised by the notions of borderless threats, home-grown terrorism, WMD terrorism, cyberterrorism, and rogue states. Clinton's new terrorism discourse provided a useful framework for George W Bush to discursively respond to the terrorist attacks on September 11th 2001. Aiming to uncover the myth of President George W Bush's foreign policy revolution and contribute to a deeper historical understanding of the U.S.-led war on terror, it will be of great use to postgraduates and scholars of US foreign policy, security studies, and terrorism studies.
