Making Capitalism:

Making Capitalism Work Leonard Silk, Mark Silk, 1996-11-01 In 1995 Republicans came to power in the United States with an ambitious program proposing to embrace a degree of laissez faire economics unknown for generations anywhere in the industrialized world Simultaneously politicians entrepreneurs and economists championed the new bastions of unregulated capitalism that sprung up in such unfamiliar precincts as Beijing and Moscow Yet to date many free market economic policies be it in Prague or here in America have not lived up to their initial promises In fact it has become a common joke in Russia that capitalism has succeeded in making communism look good a feat unaccomplished by the Kremlin in its 70 year reign In *Making Capitalism Work* Leonard and Mark Silk analyze the failures and successes of capitalism as seen most recently in the former Soviet Bloc Japan China the European Community and the United States While recognizing that capitalism has been successful in a number of countries the authors point out that overly simplistic policies advocating an unfettered capitalism ignore too large a range of issues central to the formation of any moral economic system Viewing capitalism as simply one of a number of economic systems Leonard and Mark Silk address such issues as the obligation of the rich to the poor the responsibility of the state to insulate its citizens from market fluctuations the responsibility of present generations to provide for future ones and whether economic systems can set the proper extent and limits of individual rights and freedoms An important concise thought provoking book this is the last book Leonard Silk wrote before his death late last year and has been completed here by his son Mark

The Making of Global Capitalism Leo Panitch, Sam Gindin, 2013-10-08 The all encompassing embrace of world capitalism at the beginning of the twenty first century was generally attributed to the superiority of competitive markets Globalization had appeared to be the natural outcome of this unstoppable process But today with global markets roiling and increasingly reliant on state intervention to stay afloat it has become clear that markets and states aren't straightforwardly opposing forces In this groundbreaking work Leo Panitch and Sam Gindin demonstrate the intimate relationship between modern capitalism and the American state *The Making of Global Capitalism* identifies the centrality of the social conflicts that occur within states rather than between them These emerging fault lines hold out the possibility of new political movements that might transcend global markets

Making Capitalism Great Again John Di Lemme, 2020-10-15 America will never be a socialist country This was President Donald J Trump's response to the Democrat party pushing for socialism and his commitment to the American people that it will never happen Socialism is a relatively foreign concept for most Americans which is understandable since we've never lived under a socialist regime That's why it's so easy for the far left politicians to mesmerize our citizens with promises of a better future through economic and social equality They conveniently leave out the devastation that will be caused if socialism is ever adopted in our nation This is especially true for business owners and

entrepreneurs As a Capitalism Strategist for over twenty years John Di Lemme has spoken to hundreds of thousands of people around the world and consulted for thousands of business owners and entrepreneurs that have devoted their entire lives to building successful businesses and brands He s seen how our capitalist economy gives us the freedom to build businesses market products services serve consumers and make and spend as much money as we want Because we own our businesses and are in control of the profits that we generate Yes the government does regulate various parts of our businesses and there are laws that we must follow to protect public interests but we are the ultimate decision makers for our success or failure John knew that he couldn t just sit back and watch as our free enterprise system is destroyed by socialists which would simultaneously ruin the lives of every business owner and entrepreneur in America He decided to confront the evils of socialism and call liberals out for their lies Understanding how to maximize capitalism in the United States economy will stop the socialists in their tracks as businesses flourish and thrive This level of success is possible for any business owner or entrepreneur no matter their industry niche product or service when they implement the strategies and systems that John layouts in this book In order to defeat your enemy you must know your enemy Socialism is the enemy of America He closes the book with the ABCs of Socialism versus Capitalism which provides a more than detailed personal business and political perspective on the benefits of Capitalism and the pitfalls of Socialism John invites you to join the Making Capitalism Great Again movement to increase prosperity in America and defeat the economic enemy of socialism **Performing**

Technocapitalism Alev Coban,2024-04-02 In Kenya technology entrepreneurs and makers have to employ their work and emotions in order to re script their peripheral positionalities within technocapitalism and make Kenya a place for technology development Based on ethnographic research in makerspaces and co working spaces in Nairobi Alev Coban argues that postcolonial technology entrepreneurship is neoliberal and inherently political work Technology developers narratives prototypes and digital fabrication tools unite to achieve ambiguous Kenyan futures of technocapitalist market integration and decolonial emancipation in order to foster national well being and disentangle Kenya from exploitative global structures

Making Capitalism Fit For Society Colin Crouch,2014-08-21 Capitalism is the only complex system known to us that can provide an efficient and innovative economy but the financial crisis has brought out the pernicious side of capitalism and shown that it remains dependent on the state to rescue it from its own deficiencies Can capitalism be reshaped so that it is fit for society or must we acquiesce to the neoliberal view that society will be at its best when markets are given free rein in all areas of life The aim of this book is to show that the acceptance of capitalism and the market does not require us to accept the full neoliberal agenda of unrestrained markets insecurity in our working lives and neglect of the environment and of public services In particular it should not mean supporting the growing dominance of public life by corporate wealth The world s most successful mature economies are those that fully embrace both the discipline of the market and the need for protection against its negative outcomes Indeed a continuing unresolved clash between these two forces is itself a major

source of vitality and innovation for economy and society But maintenance of that tension depends on the enduring strength of trade unions and other critical groups in civil society a strength that is threatened by neoliberalism s increasingly intolerant onward march Outlining the principles for a renewed and more assertive social democracy this timely and important book shows that real possibilities exist to create a better world than that which is being offered by the wealthy elites who dominate our public and private lives *Making Sense of Society* Alex Khasnabish, 2022-05-30T00:00:00Z

Grounded in the sister disciplines of sociology and anthropology this textbook is an accessible and critical introduction to contemporary social research Alex Khasnabish eschews the common disciplinary silos in favour of an integrated approach to understanding and practising critical social research Situated in the North American context the text draws on cross cultural examples to give readers a clear sense of the diversity in human social relations It is organized thematically in a way that introduces readers to the core areas of social research and social organization and takes an unapologetically radical approach in identifying the relations of oppression and exploitation that give rise to what most corporate textbooks euphemistically identify as social problems Focusing on key dynamics and processes at the heart of so many contemporary issues and public conversations this text highlights the ways in which critical social research can contribute to exploring understanding and forging alternatives to an increasingly bankrupt violent unstable and unjust status quo *Beyond Digital Capitalism: New Ways of Living* Leo Panitch, Greg Albo, 2020-12-29

Essays that explore new ways of living with technological change Every year since 1964 the Socialist Register has offered a fascinating survey of movements and ideas from the independent new left This year s edition asks readers to explore just how we need to live with new technologies Essays in this 57th Socialist Register reveal the contradictions and dislocations of technological change in the twenty first century And they explore alternative ways of living from artificial intelligence AI to the arts from transportation to fashion from environmental science to economic planning Greg Albo Post capitalism Alternatives or detours Nicole Aschoff and Pankaj Mahta AI deology Science capitalism and the dream of a people s AI Hugo Radice There is nothing artificial about AI Labour class utopia socialism Larry Lohman Interpretation machines Contradictions of digital mechanization in twenty first century capitalism Robin Hahnel Democratic socialist planning Against with and beyond the new technologies Tanner Mirrlees Platform socialists in the age of digital capitalism Derek Hrynshyn Imagining information socialism Bryan Palmer Capitalism and the clock Time s meaning in the struggle for socialism Sean Sweeney and John Treat Shifting gears Labour strategies for low carbon public transit mobility Adam Greenfield Smart cities technological traps democratic possibilities Christoph Hermann The consequences of commodification Contours of a post capitalist society Joan Sangster The surveillance of service labour Conditions and possibilities of resistance Jeronimo Montero Bressan Beyond neoliberal fashion Imagining clothing production as a human need Massimiliano Mollona Art Commons Art collectives and the post capitalist imagination Ingar Solty The world of tomorrow Scenarios for our future between demise and hope **The Max Weber Dictionary** Richard

Swedberg,Ola Agevall,2016-09-07 Max Weber is one of the world s most important social scientists but he is also one of the most notoriously difficult to understand This revised updated and expanded edition of The Max Weber Dictionary reflects up to the moment threads of inquiry and introduces the most recent translations and references Additionally the authors include new entries designed to help researchers use Weber s ideas in their own work they illuminate how Weber himself thought theorizing should occur and how he went about constructing a theory More than an elementary dictionary however this work makes a contribution to the general culture and legacy of Weber s work In addition to entries on broad topics like religion law and the West the completed German definitive edition of Weber s work Max Weber Gesamtausgabe necessitated a wealth of new entries and added information on topics like pragmatism and race and racism Every entry in the dictionary delves into Weber scholarship and acts as a point of departure for discussion and research As such this book will be an invaluable resource to general readers students and scholars alike **Africapitalism** Uwafiokun Idemudia,Kenneth

Amaeshi,2019-04-01 Using theory empirical research and case studies this book explores the changing nature of business in Africa and how businesses can actively contribute to the development of Africa It uses and critically analyses the concept of Africapitalism a management philosophy and movement which seeks to blend the best of African values and Western management theories as a basis for sustainable development in Africa to understand the subtle factors that underpin business decisions in Africa The collection of chapters in this book are organized around actors issues and reflections They collectively present an account of Africapitalism albeit from different perspectives and on different issues and open up a new space for rethinking business and society relations in Africa from an Africapitalism perspective Crucial is the critical engagement with both the discourse and practice of Africapitalism and its implications for sustainable development It is anticipated that the challenges and opportunities highlighted by the book would be embraced by researchers policy makers and practitioners in the broad area of business and society in Africa This multidisciplinary book will be valuable reading for advanced students researchers and policymakers looking at business in society corporate social responsibility sustainable business international business and African development *China's Transition from Communism - New Perspectives*

Guoguang Wu,Helen Lansdowne,2015-11-06 As China moved from a planned to a market economy many people expected that China s political system would similarly move from authoritarianism to democracy It is now clear however that political liberalisation does not necessarily follow economic liberalisation This book explores this apparent contradiction presenting many new perspectives and new thinking on the subject It considers the path of transition in China historically makes comparisons with other countries and examines how political culture and the political outlook in China are developing at present A key feature of the book is the fact that most of the contributors are China born Western trained scholars who bring deep knowledge and well informed views to the study **The SAGE Handbook of Marxism** Beverley Skeggs,Sara R.

Farris,Alberto Toscano,Svenja Bromberg,2021-11-17 The past decade has witnessed a resurgence of interest in Marxism both

within and without the academy Marxian frameworks concepts and categories continue to be narratively relevant to the features and events of contemporary capitalism Most crucially an attention to shifting cultural conditions has lead contemporary researchers to re confront some classical and essential Marxist concepts as well as elaborating new critical frameworks for the analysis of capitalism today The SAGE Handbook of Marxism showcases this cutting edge of today s Marxism It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory and showcases interventions that set the agenda for Marxist research in the 21st century A rigorous and challenging collection of scholarship this book contains a stunning range of contributions from contemporary academics writers and theorists from around the world and across disciplines invaluable to scholars and graduate students alike Part 1 Reworking the critique of political economy Part 2 Forms of domination subjects of struggle Part 3 Political perspectives Part 4 Philosophical dimensions Part 5 Land and existence Part 6 Domains Part 7 Inquiries and debates

Banking on Words Arjun Appadurai,2016 In this short but ambitious book Arjun Appadurai argues that the failure of the financial system in 2007 08 in the United States was primarily a failure of language This argument does not deny that greed ignorance weak regulation and irresponsible risk taking were important factors in the collapse But the new role of language in the marketplace for Appadurai is the condition of possibility for all these more easily identifiable flaws Attempts to rectify the social pathologies of contemporary finance must address that failure of language Banking on Words focuses on derivatives as the distinctive innovation of our financial era Derivatives are written promises concerning the uncertain future prices of financial assets and the substance of these contracts is expressed

in terms of money The recent failure of derivatives markets was systematic and should be understood as failed promises While it is well known that derivatives pile risk on risk with little basis in real production and trade Appadurai reveals this process in a fresh light from which some policy conclusions may be drawn While critical of derivative finance's present social infrastructure and supporting ideology Appadurai acknowledges its capacity for creating vast new forms of wealth and asks the crucial question if we want access to that wealth what kind of social arrangements would we need to make sure that it benefits all of society rather than reinforcing a system that benefits the few who are already well off His bold answer involves not the repair of the force of promises but rather the repair and reconstruction of the idea of the individual to enable new sorts of solidarity between individuals agents whose very partiality may allow for new aggregations of aspiration interest and affiliation This amounts to nothing less than a new ideology of sociality

We Are the Crisis of Capital John Holloway, 2019-04-01 *We Are the Crisis of Capital* collects articles and excerpts written by radical academic theorist and activist John Holloway over a period of forty years This collection asks Is there a way out How do we break capital a form of social organisation that dehumanises us and threatens to annihilate us completely How do we create a world based on the mutual recognition of human dignity Holloway's work answers loudly By screaming NO By thinking from our own anger and creativity By trying to recover the we buried under the categories of capitalist thought By opening those categories and discovering the antagonism they conceal and by discovering that behind the concepts of money state capital crisis and so on there moves our resistance and rebellion An approach sometimes referred to as Open Marxism it is an attempt to rethink Marxism as daily struggle The articles move forward influenced by the German state derivation debates of the 1970s by the CSE debates in Britain and the group around the Edinburgh journal *Common Sense* and then moving on to Mexico and the wonderful stimulus of the Zapatista uprising and now the continuing whirl of discussion with colleagues and students in the Posgrado de Sociología of the Benemérita Universidad Autónoma de Puebla

Chinese Capitalisms Y. Chu, 2010-01-13 In *Chinese Capitalisms* experts examine the rise of capitalism on China and Taiwan analyzing impacts exerted by global capitalism Chinese civilization and remnants of socialist practice In focusing on these they also address longstanding issues such as Weber's China Thesis state business relationships and China's civil society among others
