exposure metric In symbols Risk K Exposure where Exposure would be defined in terms of a metric such as total production of chicken contaminated with fluoroquinolone resistant bacteria that might cause human illnesses and Risk would describe the expected number of cases per year of human illness due to fluoroquinolone resistant bacterial infections caused by chicken and treated with fluoroquinolones *Operations Research and Big Data* Ana Paula Ferreira Dias Barbosa Póvoa,Joao Luis de Miranda,2015-09-11 The development of Operations Research OR requires constant improvements such as the integration of research results with business applications and innovative educational practice The full deployment and commercial exploitation of goods and services generally need the construction of strong synergies between educational institutions and businesses The IO2015 XVII Congress of APDIO aims at strengthening the knowledge triangle in education research and innovation in order to maximize the contribution of OR for sustainable growth the promoting of a knowledge based economy and the smart use of finite resources The IO2015 XVII Congress of APDIO is a privileged meeting point for the promotion and dissemination of OR and related disciplines through the exchange of ideas among teachers researchers students and professionals with different background but all sharing a common desire that is the development of OR
