Mosaics Inspired by Nature Rachel Davies, 2024-09-26 A creative guide to making abstract mosaic designs inspired by nature using the beauty and texture of slate and stone The shapes patterns and

structures found in the natural world can provide a source of wonder and inspiration for mosaic artists. Mosaics do not have to be made from tiles and then grouted but instead they can be full of texture incorporating a whole array of materials which hold connections to nature and to particular places. The subtle beauty of stone surfaces gives the work an organic feel creating beautiful abstract designs. Not only are these materials attractive but preparing them is an enjoyable task in itself. In this book experienced artist Rachel Davies shares the methods she uses in her mosaic practice. Starting with tools, materials and cutting techniques, discover adhesive and substrate options and get to know the various materials and how to use them creatively. Supported by step by step photos, follow a series of exercises and suggestions to explore your interests and develop your own designs. With a focus on three of her own mosaics inspired by seaweed, lichen and bark, Rachel walks you through her process to show how a piece of art develops from start to finish. Beautifully illustrated with photographs of Rachel's own work as well as spotlights on seven other contemporary artists, find inspiration and get started on your own mosaic journey.
