Making Of Paul Klees Career 1914 1920:

The Making of Paul Klee's Career, 1914-1920 Otto Karl Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O K Werckmeister traces Klee's career as a professional artist concentrating on the years 1914-20 in which Klee rose from obscurity to recognition in the visual culture of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee's sales reviews of his exhibitions the artist's published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee's transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee's success first in the war weary modernist art world of 1916-18 and then in the pseudo revolutionary art world of 1919-20 This work is a critical challenge to the myth of Klee's art and to the hagiography of his artistic personality Werckmeister's historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come *War, Violence and the Modern Condition* Bernd Hüppauf, 2010-11-05 No detailed description available for War Violence and the Modern Condition Paul Klee Kathryn Porter Aichele, 2006 Sumario The artist poet painter I am a poet after all The poetic and the pictorial A poetic personal idea of landscape Harmonizing architectonic and poetic painting Poems in pictorial script Klee and concrete poetry What counts as poetry **Modern Art on Display** K. Porter Aichele, 2016-05-19 Modern Art on Display The Legacies of Six Collectors is structured as a sequence of case studies that pair collectors of modern art with artists they particularly favored Duncan Phillips and Augustus Vincent Tack Albert Barnes and Chaim Soutine Albert Eugene Gallatin and Juan Gris Lillie Bliss and Paul C zanne Etta Cone and Henri Matisse G David Thompson and Paul Klee The case studies are linked by a thematic focus on the integral relationship between the collectors acquired knowledge about the work they amassed and their innovative display models This focus brings a new perspective to the history of collecting and interpreting modern art in America for nearly half a century 1915-1960 By examining the books the collectors themselves read and analyzing archival photographs of their displays the author makes a case for the historical significance of how the collectors presented the art they acquired before their collections were institutionalized *Painting Words* Beatriz Gonzalez Moreno, Fernando González-Moreno, 2020-05-14 Painting Words Aesthetics and the Relationship between Image and Text addresses the importance of dialogue between art and literature text and image in our image saturated era In a globalized world isolation and compartmentalization hinder us back whereas the Romantic idea of belonging urges us to look beyond and to build

bridges Bearing this Romantic spirit in mind rather than focusing on a traditional paragonal approach this book puts forward the benefits of alliance by offering an interdisciplinary and transdisciplinary perspective Illustrations are included to guide the reader into comparativism and intermedial encounters while providing an inspiring overview of the literary and visual department both in Europe and America from the Renaissance to the twentieth century The different essays lead us through an aesthetic exploratory journey by the hand of Cervantes Shakespeare Felicia Hemans Emily Eden William Wordsworth Edgar A Poe Flannery O Connor N Scott Momaday Jos Joaqu n de Mora Wallace Stevens and Jos ngel Valente among others Editors Beatriz Gonz lez Moreno and Fernando Gonz lez Moreno have brought together an international group of scholars around the idea of painting words which they define as the pictorial ability of language to stir the reader s imagination and the way illustrators have read literary works over the course of centuries Many traditional comparative studies examine literature belonging to specific time periods or movements far less frequently do they bridge visual culture with text Painting Words Aesthetics and the Relationship between Image and Text aims to do just that **Franz Radziwill and the Contradictions of German Art History, 1919-45** James A. Van Dyke, 2011 An exploration of the career of Franz Radziwill investigating the question of art in a Nazi context *Art/Commerce* Maria A. Slowinska, 2014-09-15 This book offers a compelling perspective on the striking similarity of art and commerce in contemporary culture Combining the history and theory of art with theories of contemporary culture and marketing Maria A Slowinska chooses three angles space object experience persona to bridge present and past aesthetic appearance and theoretical discourse and traditional divisions between art and commerce Beyond both pessimistic and celebratory rhetorics Art Commerce illuminates contemporary phenomena in which the aestheticization of commerce and the commercialization of aesthetics converge *Architectures of Transversality* Shima Mohajeri, 2018-07-11 Architectures of Transversality investigates the relationship between modernity space power and culture in Iran Focusing on Paul Klee s Persian inspired miniature series and Louis Kahn s unbuilt blueprint for a democratic public space in Tehran it traces the architectonics of the present as a way of moving beyond universalist and nationalist accounts of modernism Transversality is a form of spatial production and practice that addresses the three important questions of the self objects and power Using Deleuzian and Heideggerian theory the book introduces the practices of Klee and Kahn as transversal spatial responses to the dialectical tension between existential and political territories and in doing so situates the history of the silent unrepresented and the unbuilt constructed from the works of Klee and Kahn as a possible solution to the crisis of modernity and identity based politics in Iran *The Visual Arts in Germany, 1890-1937* Shearer West, 2000 This work provides an introduction to the visual arts in Germany from the early years of German unification to World War II The study is an analysis of painting sculpture graphic art design film and photography in relation to a wider set of cultural and social issues that were specific to German modernism It concentrates on the ways in which the production and reception of art interacted with and was affected by responses to unification conflict between left

and right political factions gender concerns contemporary philosophical and religious ideas the growth of cities and the increasing importance of mass culture *German Post-Expressionism : The Art of the Great Disorder 1918-1924* , German Post Expressionism is the first study to reconstruct historically the evolution of Die neue Sachlichkeit the slogan coined as a designation for the Post Expressionist figural art that developed throughout Germany following the failed revolution of 1919 Rather than starting with the moment this Post Expressionist movement was christened with a slogan 1923 Crockett investigates the sources and precepts of Post Expressionism beginning with the anti Expressionist stance of Dada in 1918 and the loss of faith in Expressionism on the part of some of its chief supporters during 1919-20
