Making Of The Hapsburg Monarchy 1550 1700 An Interpretation:

The Making of the Habsburg Monarchy, 1550-1700 Robert John Weston Evans, 1979 *The Habsburg Monarchy 1815-1918* Steven Beller, 2018-05-10 This clear and compelling account of the Habsburg Monarchy in its last century explains why a century after its disappearance it has never been more relevant With extensive discussion of recent historiographic controversies about the Monarchy's character and viability Steven Beller presents a detailed account of the main strands of the Monarchy's political history and how its economic social and cultural development interacted with this main narrative While recognizing the importance of these larger trends readers will learn how the historical accident of personality and the complexities of high politics and diplomacy still had a central impact on the Monarchy's fate Although some would see the Monarchy as an atavistic irrelevance in the modern age its multicultural multinational experience and inclusive logic was in many ways more relevant to our modernity than the nationalism that did so much to bring about its demise

The Habsburg Monarchy as a Fiscal-Military State William D. Godsey, Petr Maťa, 2022-03-10 Renders greater precision and depth to the concept of the fiscal military state and applies it to the Habsburg Monarchy one of early modern Europe's foremost war machines It systematically integrates the problems of armed conflict and foreign competition into perceptions of society and government in the Monarchy ruled from Vienna

[The Habsburg Empire: A Very Short Introduction](#) Martyn Rady, 2017-03-16 The Habsburgs are the most famous dynasty in continental Europe From the thirteenth to the twentieth centuries they ruled much of Central Europe and for two centuries were also rulers of Spain Through the Spanish connection they acquired lands around the Mediterranean and a chunk of the New World spreading eastwards to include the Philippines Reaching from South East Asia to what is now Ukraine the Habsburg Empire was truly global In this Very Short Introduction Martin Rady looks at the history of the Habsburgs from their tenth century origins in Switzerland to the dissolution of the Habsburg Empire in 1918 He introduces the pantheon of Habsburg rulers which included adventurers lunatics and at least one monarch who was so malformed that his true portrait could never be exhibited He also discusses the lands and kingdoms that made up the Habsburg Empire and the decisive moments that shaped their history Dynasty Europe global power and the idea of the multi national state all converge on the history of the Habsburg Empire

[The Meaning of Literature](#) Timothy J. Reiss, 2018-10-18 In this searching and wide ranging book Timothy J Reiss seeks to explain how the concept of literature that we accept today first took shape between the mid sixteenth century and the early seventeenth a time of cultural transformation Drawing on literary political and philosophical texts from Central and Western Europe Reiss maintains that by the early eighteenth century divergent views concerning gender politics science taste and the role of the

writer had consolidated and literature came to be regarded as an embodiment of universal values During the second half of the sixteenth century Reiss asserts conceptual consensus was breaking down and many Western Europeans found themselves overwhelmed by a sense of social decay A key element of this feeling of catastrophe Reiss points out was the assumption that thought and letters could not affect worldly reality Demonstrating that a political discourse replaced the no longer viable discourse of theology he looks closely at the functions that letters served in the reestablishment of order He traces the development of the idea of literature in texts by Montaigne Spenser Sidney Shakespeare Lope de Vega and Cervantes among others through seventeenth century writings by such authors as Davenant Boileau Dryden Rymer Anne Dacier Astell and Leibniz to eighteenth century works including those of Addison Pope Batteux and Hutcheson Burke Lessing Kant and Wollstonecraft Reiss follows key strands of the tradition particularly the concept of the sublime into the nineteenth century through a reading of Hegel s Aesthetics The Meaning of Literature will contribute to current debates concerning cultural dominance and multiculturalism It will be welcomed by anyone interested in literature and in cultural studies including literary theorists and historians comparatists intellectual historians historical sociologists and philosophers

German Histories in the Age of Reformations, 1400-1650 Thomas A. Brady Jr., 2009-07-13 This book studies the connections between the political reform of the Holy Roman Empire and the German lands around 1500 and the sixteenth century religious reformations both Protestant and Catholic It argues that the character of the political changes dispersed sovereignty local autonomy prevented both a general reformation of the Church before 1520 and a national reformation thereafter The resulting settlement maintained the public peace through politically structured religious communities confessions thereby avoiding further religious strife and fixing the confessions into the Empire s constitution The Germans emergence into the modern era as a people having two national religions was the reformation s principal legacy to modern Germany

Beyond the Wall Martin Elbel, 2020-09-14T16:54:00+02:00 The wall separating the cloister from the surrounding world is one of the most distinctive features of a monastery it marks out the community of monks or friars and

defines the very essence of a cloister However this wall was never completely impenetrable Those inside interacted with those outside in churches in towns and villages or even in the cloisters It is this permeability of the cloister wall what constitutes the central motif of this book Using the example of the Franciscan Friary of St Bernardino in Olomouc nowadays in the Czech Republic it analyses the interaction of the friars and the urban community It focuses on the 17th and 18th centuries when following the suppression of non Catholic confessions Roman Catholicism became the only official religion and the city became one of major ecclesiastical centres in the Habsburg Lands The Franciscans significantly contributed to the formation of the new Catholic confessional culture in the city yet they were just one of the many agents They were forced to constantly re negotiate their position and to compete with other religious institutions The mendicant character of the order eventually proved to be their main advantage Although the life in strict poverty brought many complications it also greatly enhanced the prestige of the friars Simultaneously it motivated them to search for new and efficient ways to address the people Begging for alms thus became one of the main forms of interaction between the friary and the local community allowing the mendicants to extend their reach significantly to emphasise their uniqueness and importance and to patiently build their own network of ties to the local population The story of the friary of St Bernardino in Olomouc demonstrates that early modern Roman Catholicism was not built unilaterally from the top down but was instead the result of synergy and even conflicts between many actors

Zone Di Frattura in Epoca Moderna Almut Bues, 2005 Until recently there have not been many researches on border zones in Early Modern Europe For the time before the emergence of nation states however it is convenient to think in European cases which indicate instability or cooperation in these zones of contact Three representative geographic regions have been central to an international conference which was questioning the specificities of zones of fracture Poland Lithuania has been linked with two zones the Baltic Sea and the Balkans The Northern Italian States were situated between two tectonic regions the Balkans and the Rhine valley The Balkans by themselves were divided into various mini zones and confronted with the Ottoman Empire The panels did not only try to look for comparisons but intended to find out the complexity and the different experiences within zones of frontiers in an European context The overlapping of various lines especially in the fields of law taxes and the Church has been brought into sharper focus

Eurocentrism at the Margins Lutfi Sunar,2016-05-05 Eurocentrism remains a prevailing feature of Western dominated social scientific perspectives tending to ignore alternative views originating outside the West and thus maintaining a form of scholarly hegemony As such there is an urgent need to reconsider Eurocentrism in social science to ask whether it constitutes an obstacle to understanding social problems and whether it is possible to go beyond Eurocentrism in the construction of reliable more universal knowledge At the same time certain questions persist particularly with regard to the extent to which recent revisionist challenges have really contributed to the surmounting of Eurocentric domination and whether the constant repetition of the concept serves to reinforce it This book engages with the central problems of Eurocentrism in the social sciences bringing together the work of scholars from around the world to offer a critique of this perspective from both European and non European positions thus shedding light on the binaries that often come into being in debates in this field Thematically organised and addressing a range of questions including Eurocentrism in historical studies in the understanding of religion and civilisation and in the study of international relations as well as in the institutionalisation and professionalisation of research and discourses on modernisation in the Middle East Eurocentrism at the Margins will appeal to scholars with interests in knowledge production and circulation and Eurocentrism and post colonialism in the social sciences

Confessional Identity in East-Central Europe Maria Craciun, Ovidiu Ghitta, 2017-05-15 This book considers the emergence of a remarkable diversity of churches in east central Europe between the 16th and 18th centuries which included Catholic Orthodox Hussite Lutheran Bohemian Brethren Calvinist anti Trinitarian and Greek Catholic communities Contributors assess the extraordinary multiplicity of confessions in the Transylvanian principality as well as the range of churches in Poland Bohemia Moravia and Hungary Essays focus on how each church sought to establish its own identity in a crowded market place of religious ideas and on the extent to which printed literature brokered the popular reception of religious doctrine The volume addresses how ideas about religion spread within the largely illiterate societies of east central Europe especially through catechisms and how printed literature was used to instruct congregations about doctrinal truth to encourage the faithful to pious devotions and to shape the religious life and identity of local communities

Eighteenth-Century Ireland (New Gill History of Ireland 4) Ian McBride, 2009-10-02 The eighteenth century is in many ways the most problematic era in Irish history Traditionally the years from 1700 to 1775 have been short changed by historians who have concentrated overwhelmingly on the last quarter of the period Professor Ian McBride s survey the fourth in the New Gill History of Ireland series seeks to correct that balance At the same time it provides an accessible and fresh account of the bloody rebellion of 1798 the subject of so much controversy The eighteenth century was the heyday of the Protestant Ascendancy Professor McBride explores the mental world of Protestant patriots from Molyneux and Swift to Grattan and Tone Uniquely however McBride also offers a history of the eighteenth century in which Protestant Catholic and Dissenter all receive due attention One of the greatest advances in recent historiography has been the recovery of Catholic attitudes during the zenith of the Protestant Ascendancy Professor McBride s Eighteenth Century Ireland insists on the continuity of Catholic politics and traditions throughout the century so that the nationalist explosion in the 1790s appears not as a sudden earthquake but as the culmination of long standing religious and social tensions McBride also suggests a new interpretation of the penal laws in which themes of religious persecution and toleration are situated in their European context This holistic survey cuts through the clichés and lazy thinking that have characterised our understanding of the eighteenth century It sets a template for future understanding of that time Eighteenth Century Ireland Table of Contents Introduction Part I Horizons English Difficulties and Irish Opportunities The Irish Enlightenment and its Enemies Ireland and the Ancien Régime Part II The Penal Era Religion and Society King William s Wars What Were the Penal Laws For How Catholic Ireland Survived Bishops Priests and People Part III The Ascendancy and its World Ascendancy Ireland Conflict and Consent Queen s and Captain s Right Agrarian Rebellion Part IV The Age of Revolutions The Patriot Soldier A Brotherhood of Affection 1798 Hungary between Two Empires 1526-1711 Géza Pálffy, 2021-06-08 The Hungarian defeat to the Ottoman army at the pivotal Battle of Mohács in 1526 led to the division of the Kingdom of Hungary into three parts altering

both the shape and the ethnic composition of Central Europe for centuries to come Hungary thus became a battleground between the Ottoman and Habsburg empires In this sweeping historical survey G za P lffy takes readers through a crucial period of upheaval and revolution in Hungary which had been the site of a flowering of economic cultural and intellectual progress but battles with the Ottomans lead to over a century of war and devastation P lffy explores Hungary s role as both a borderland and a theater of war through the turn of the 18th century In this way Hungary became a crucially important field on which key debates over religion government law and monarchy played out Reflecting 25 years of archival research and presented here in English for the first time Hungary between Two Empires 1526 1711 offers a fresh and thorough exploration of this key moment in Hungarian history and in turn the creation of a modern Europe

Rural Society and the Search for Order in Early Modern Germany Thomas Robisheaux,2002-07-25 For the rural societies of Germany the early sixteenth century was a time of massive upheavals In this probing study of village life based upon rich manuscript sources from the old County of Hohenlohe Thomas Robisheaux seeks to understand how petty German princes Lutheran pastors and villagers struggled to create order out of their confusing world The Hohenlohe region experienced all of the turmoil associated with the sixteenth century including a peasant near rising in 1600 the brutal effects of the wage price scissors chronic shortages of land famines impoverishment and the destructive cycles of war By using concepts borrowed from anthropology Professor Robisheaux looks for the way social hierarchy and discipline countered the disruptive changes of the age The years between 1550 and 1620 saw new sources of stability and order created in the family through systematized customs of inheritance through market relationships and in the practice of state power within the village

Embodiments of Power Gary B. Cohen,Franz A. J. Szabo,2008 The period of the baroque late sixteenth to mid eighteenth centuries saw extensive reconfiguration of European cities and their public spaces Yet this transformation cannot be limited merely to signifying a style of art architecture and decor Rather the dynamism emotionality and potential for grandeur that were inherent in the baroque style developed in close interaction with the need and desire of post Reformation Europeans to find visual expression for the new political confessional and societal realities Highly illustrated this volume examines these complex interrelationships among architecture and art power religion and society from a wide range of viewpoints and localities From Krakow to Madrid and from Naples to Dresden cities were reconfigured visually as well as politically and socially Power in both its political and architectural guises had to be negotiated among constituents ranging from monarchs and high churchmen to ordinary citizens Within this process both rulers and ruled were transformed Europe left behind the last vestiges of the medieval and arrived on the threshold of the modern
