Making Of The National Parks An American Idea:

An American Idea Kim Heacox, 2009 This authoritative and beautifully illustrated book traces the evolution of the American land ethic from the 1600s to the creation of the national park service in 1916 with an Epilogue featuring the work of Ansel Adams 175 illustrations

National Parks Forever Jonathan B. Jarvis, T. Destry Jarvis, 2022-05-27 Two leaders of the National Park Service provide a front row seat to the disastrous impact of partisan politics over the past fifty years and offer a bold vision for the parks future The US National Parks what environmentalist and historian Wallace Stegner called America s best idea are under siege Since 1972 partisan political appointees in the Department of the Interior have offered two conflicting views of the National Park Service NPS one vision emphasizes preservation and science based decision making and another prioritizes economic benefits and privatization These politically driven shifts represent a pernicious existential threat to the very future of our parks For the past fifty years brothers Jonathan B and T Destry Jarvis have worked both within and outside NPS as leaders and advocates National Parks Forever interweaves their two voices to show how our parks must be protected from those who would open them to economic exploitation while still allowing generations to explore and learn in them Their history also details how Congress and administration appointees have used budget and staffing cuts to sabotage NPS s ability to manage the parks and even threatened their existence Drawing on their experience Jarvis and Jarvis make a bold and compelling proposal that it is time for NPS to be removed from the Department of the Interior and made an independent agency similar to the Smithsonian Institution giving NPS leaders the ability to manage park resources and plan our parks protection priorities and future

With Distance in His Eyes Scott Raymond Einberger, 2018-04-16 One of America s most significant architects of conservation and the environment Stewart Udall comes to life in this environmental biography Perhaps no other public official or secretary of the interior has ever had as much success in environmental

protection natural resource conservation and outdoor recreation opportunity creation as Udall A progressive Mormon born and raised in rural Arizona Udall served as the U S Secretary of the Interior under the presidential cabinets of John F Kennedy and Lyndon Baines Johnson from 1961 1969 During these eight years he established dozens of new national park units and national wildlife refuges wrote the Endangered Species Preservation Act lobbied for unpolluted water and offered ways to beautify urban spaces and bring the impoverished out of poverty Later in life he continued as an advocate for conservation and the environment specifically by proposing solutions to the challenges associated with global warming and the widespread use of oil What can we learn from this farsighted individual In a day and age of partisan politics poor congressional approval ratings and global warming and climate change this captivating biography offers a profound and historical record into Udall s life long devotion to environmental issues he cared about most deeply issues more relevant today than they were then Intimate moments include Udall s learning of the Kennedy assassination his push for civil rights for African Americans his meeting in the U S S R with Nikita Khrushchev the first Kennedy cabinet member to do so and his warnings about global warming 50 years prior to Al Gore s Nobel Prize winning film

The Parks Belong to the People

Joe Weber, Selima Sultana, 2024-04 In examining the 424 units of the U S national park system geographers Joe Weber and Selima Sultana focus attention on the historical geography of the system as well as its present distribution covering the diversity of places under the control of the National Park Service NPS This includes the famous national parks such as the Grand Canyon Yellowstone and Yosemite and the lesser known national monuments memorials lakeshores seashores rivers recreation areas preserves reserves parkways historic sites historic parks and a range of battlefields as well as more than twenty additional sites not fitting into any of these categories such as the White House The geographic view of The Parks Belong to the People sets it apart from others that have taken a solely historical approach Where parks are located what they are near where their visitors come from and how land use and activities are organized within parks are some of the fundamental issues discussed The majority of units in the NPS are devoted to recreation areas or historic sites such as battlefields archaeological sites or sites devoted to a specific person and this is reflected in the authors approach What we think of as a national park has changed over the years and will continue to change Weber and Sultana emphasize changing social and political environments in which NPS units were created and the roles they serve such as protecting scenery providing wildlife habitats preserving history and serving as scientific laboratories and places for outdoor recreation The authors also focus on parks as public facilities and sites of economic activities National parks were created by people for people to enjoy at great cost and with great benefit They cannot be understood without taking this human context into account

Saving Yellowstone Megan Kate Nelson, 2023-04-25 A narrative of adventure and exploration Saving Yellowstone is also a story of Indigenous resistance the expansive reach of railroad photographic and publishing technologies and the struggles of Black southerners to bring racial terrorists to justice It reveals how the early 1870s were a turning point in the

nation's history as white Americans ultimately abandoned the the higher ideal of equality for all people creating a much more fragile and divided United States NationalGeographicTreasures , **Natural Selections** Alan Andrew MacEachern, 2001 During the Depression the Canadian National Parks Branch was under pressure to make the park system truly national to bring the advantages of parks to all provinces In Atlantic Canada however it found itself dealing with an environment that was far different from what it was accustomed to in Western Canada The land areas were smaller flatter and having been settled for generations could hardly be considered wild Wildlife was smaller and less numerous *Sacred Wonderland* Thomas S.
