Tragedies and disasters have always been part of the fabric of American history. Some gave rise to reactions that profoundly influenced the nation. Others dominated public consciousness for a moment then disappeared from collective memory. Organized chronologically, *Disasters and Tragic Events* examines these moments covering both the familiar and the obscure and probing their immediate and long term effects. Unlike other works that concentrate on a particular type of disaster for example weather or medicine related tragedies, this two volume encyclopedia has no such limits. Its entries range from natural disasters such as hurricanes and tornadoes to civic disturbances, environmental disasters, epidemics and medical errors, transportation accidents and more. The work is a perfect supplement for history classes and will also prove of great interest to the general reader.

Films possess virtually unlimited power for crafting broad interpretations of American history Nineteenth century America has proven especially conducive to Hollywood imaginations producing indelible images like the plight of Davy Crockett and the defenders of the Alamo Pickett's doomed charge at Gettysburg the proliferation and destruction of plantation slavery in the American South Custer's fateful decision to divide his forces at Little Big Horn and the onset of immigration and industrialization that saw Old World lifestyles and customs dissolve amid rapidly changing environments Balancing historical nuance with passion for cinematic narratives Writing History with Lightning confronts how movies about nineteenth century America influence the ways in which mass audiences remember understand and envision the nation's past In these twenty six essays divided by the editors into sections on topics like frontiers slavery the Civil War the Lost Cause and the West notable historians engage with films and the historical events they ostensibly depict Instead of just separating fact from fiction the essays contemplate the extent to which movies generate and promulgate collective memories of American history Along with new takes on familiar classics like Young Mr Lincoln and They Died with Their Boots On the volume covers several films released in recent years including The Revenant 12 Years a Slave The Birth of a Nation Free State of Jones and The Hateful Eight The authors address Hollywood epics like The Alamo and Amistad arguing that these movies flatten the historical record to promote nationalist visions The contributors also examine overlooked films like Hester Street and Daughters of the Dust considering their portraits of marginalized communities as transformative perspectives on American culture By surveying films about nineteenth century America Writing History with Lightning analyzes how movies create popular understandings of American history and why those interpretations change over time Characters of Blood Celeste-Marie Bernier, 2012

Across the centuries the acts and arts of black heroism have inspired a provocative experimental and self reflexive intellectual political and aesthetic tradition In Characters of Blood Celeste Marie Bernier illuminates the ways in which six iconic men and women Toussaint Louverture Nathaniel Turner Sengbe Pieh Sojourner Truth Frederick Douglass and Harriet Tubman challenged the dominant conceptualizations of their histories and played a key role in the construction of an alternative visual and textual archive While these figures have survived as symbolic touchstones Bernier contends that scholars have yet to do justice to their complex bodies of work or their multifaceted lives Adopting a

comparative and transatlantic approach to her subjects remarkable life stories the author analyzes a wealth of creative work from literature drama and art to public monuments religious tracts and historical narratives to show how it represents enslaved heroism throughout the United States Africa and the Caribbean In mapping this black diasporic tradition of resistance Bernier intends not only to reveal the limitations and distortions on record but also to complicate the definitions of black heroism that have been restricted by ideological boundaries between heroic and anti heroic sites and sights of struggle

Ford,2009-09-03 A major

contribution to our understanding of slavery in the early republic Deliver Us from Evil illuminates the white South s twisted and tortured efforts to justify slavery focusing on the period from the drafting of the federal constitution in 1787 through the age of Jackson Drawing heavily on primary sources including newspapers government documents legislative records pamphlets and speeches Lacy K Ford recaptures the varied and sometimes contradictory ideas and attitudes held by groups of white southerners as they tried to square slavery with their democratic ideals He excels at conveying the political intellectual economic and social thought of leading white southerners vividly recreating the mental world of the varied actors and capturing the vigorous debates over slavery He also shows that there was not one antebellum South but many and not one southern white mindset but several with the debates over slavery in the upper South quite different in substance from those in the deep South In the upper South where tobacco had fallen into comparative decline by 1800 debate often centered on how the area might reduce its dependence on slave labor and whiten itself whether through gradual emancipation and

colonization or the sale of slaves to the cotton South During the same years the lower South swirled into the vortex of the cotton revolution and that area s whites lost all interest in emancipation no matter how gradual or fully compensated An ambitious thought provoking and highly insightful book Deliver Us from Evil makes an important contribution to the history of slavery in the United States shedding needed light on the white South s early struggle to reconcile slavery with its Revolutionary heritage
