Nathan Trotter Elva Tooker, 2014-04-16 Nathan Trotter, Philadelphia Merchant, 1787-1853 E. Tokker, 1972 **The Private City** Sam Bass Warner, 1987-06 Winner of the Albert J Beveridge Award in American History Packed with suggestive historical detail **A Gentleman of Color** Julie Winch, 2003-06-05 Winch has written the first full length biography of James Forten a hero of African American history and one of the most remarkable men in 19th century America Born into a free black family in 1766 Forten served in the Revolutionary War as a teenager By 1810 he had earned the distinction of being the leading sailmaker in Philadelphia Soon after Forten emerged as a leader in Philadelphia's black community and was active in a wide range of reform activities Especially prominent in national and international antislavery movements he served as vice president of the American Anti Slavery Society and became close friends with William Lloyd Garrison to whom he lent money to start up the Liberator His family were all active abolitionists and a granddaughter Charlotte Forten published a famous diary of her experiences teaching ex slaves in South Carolina's Sea Islands during the Civil War This is the first serious biography of Forten who stands beside Harriet Tubman Frederick Douglass Booker T Washington and Martin Luther King Jr in the pantheon of African Americans who fundamentally shaped American history **New York City Mutual Savings Banks, 1819-1861** Alan L. Olmstead, 2018-07-25 These institutions were founded ostensibly for philanthropic purposes to encourage and reward thrift on the part of society's lower classes For purposes of analysis Olmstead formulates an alternative hypothesis Men organized mutuals for the same reason that impelled their other business ventures the hope of profit The author focuses on the internal operations of several banks and the important role they played in financing antebellum development A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **A History of Banking in Antebellum America** Howard Bodenhorn, 2000-02-13 Previous banking histories have focused on the money supply function of early American banks and its connection to the recurrent boom bust cycle of the antebellum era This history focuses on the credit generating function of American banks It demonstrates that banks aggressively promoted development rather than passively followed its course Using previously unexploited data Professor Bodenhorn shows that banks helped to advance the development of incipient industrialization Additionally he shows that banks formed long distance relationships that promoted geographic capital mobility thereby assuring that short term capital was directed in socially desirable directions that is where it was most in demand He then traces those institutional and legal developments that allowed for this capital mobility The result was that America was served by an efficient system of financial intermediaries by the mid nineteenth century *Out of Stock* Dara Orenstein, 2019-11-07 In *Out of Stock* Dara Orenstein delivers an ambitious and engrossing account of that most generic and underappreciated site in American commerce and

industry the warehouse She traces the progression from the nineteenth century's bonded warehouses to today's foreign trade zones enclaves where goods can be simultaneously on US soil and off US customs territory Orenstein contends that these zones nearly 800 of which are scattered across the country are emblematic of why warehouses have begun to supplant factories in the age of Amazon and Walmart Circulation is so crucial to the logistics of how and where goods are made that it is increasingly inseparable from production to the point that warehouses are now some of the most pivotal spaces of global capitalism Drawing from cultural geography cultural history and political economy Out of Stock nimbly demonstrates the centrality of warehouses for corporations workers cities and empires Riches, Class, and Power Edward

Pessen, 2017-07-12 Until publication of Riches, Classes and Power Alexis de Tocqueville's vision of the United States as a generally egalitarian nation predominated While historians might quarrel about the social sources of egalitarianism they did not dispute the soundness of the basic model and Tocqueville's vision clearly dominated American's sense of itself as well A self acknowledged congenital skeptic Pessen decided to find out whether the facts of American life sustained Tocqueville's conclusions Riches, Class and Power represents more than five years intensive research on the wealth family backgrounds careers marriages residential patterns uses of leisure life styles social standing and influence and power of the wealthy in four of the five largest cities in the United States before the Civil War Pessen examines New York City Philadelphia Boston and the then separate city of Brooklyn in the 1820s and 1840s His claim is that the massive evidence on urban life of the time sharply refutes Tocqueville's thesis A National Book Award finalist for history Riches, Class and Power undoubtedly helped reshape America before the Civil War In his reintroduction to this paperback edition Pessen reviews the critical reaction and reconsiders the extent to which its findings are applicable to the social structure of small or frontier towns of the period He discusses whether unequal distribution of wealth in America results more from changes in historical circumstance or to shifts in demographic or age structure Business History Kenneth. A. Tucker, 2013-12-19 First Published in 1977 This set of

readings has been planned to demonstrate good examples of the writing of business history using a wide range of source material Furthermore the intention is to aid the development of critical perception and facilitate further analysis The overriding criterion in selection has therefore been the framework of structure conduct performance for the industry activity or firm The emphasis is on the technical and organisational relationships between the governing factor input and output conditions and the objectives and control mechanisms of the decision making personnel **International Bibliography of**

Business History Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History

brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians *Sheffield Steel and America* Geoffrey Tweedale,1987 The book provides an important contribution to the technological and commercial history of crucible and electric steelmaking by thoroughly examining its development in Sheffield and American centres such as Pittsburgh It also discusses cutlery saw and file manufacturing where the Americans quickly shed Sheffield s traditional technologies and with the help of superior marketing established a word lead by 1900 It is also shown however that this did not free the US from its dependence on Sheffield steel Sheffield s innovation in special steelmaking which began with the Hunstman crucible process in 1742 continued with a series of brilliant firsts which gave the world tool manganese silicon vanadium and stainless steel alloys Thus the US continued to draw from Sheffield know how even in the twentieth century a transfer of technology that was facilitated by the foundation of Sheffield s own subsidiary firms in America the history of which is recounted here **The Emergence of the Middle Class** Stuart M.

McGaw,2014-01-01 This collection of original essays documents technology s centrality to the history of early America Unlike much previous scholarship this volume emphasizes the quotidian rather than the exceptional the farm household seeking to preserve food or acquire tools the surveyor balancing economic and technical considerations while laying out a turnpike the woman of child bearing age employing herbal contraceptives and the neighbors of a polluted urban stream debating issues of property odor and health These cases and others drawn from brewing mining farming and woodworking enable the authors to address recent historiographic concerns including the environmental aspects of technological change and the gendered nature of technical knowledge Brooke Hindle s classic 1966 essay on early American technology is also reprinted and his view of the field is reassessed A bibliographical essay and summary of Hindle s bibliographic findings conclude the volume The contributors are Judith A McGaw Robert C Post Susan E Klepp Michal McMahon Patrick W O Bannon Sarah F McMahon Donald C Jackson Robert B Gordon Carolyn C Cooper and Nina E Lerman

Peter A. Coclanis,2020-05-21 The Atlantic Economy during the Seventeenth and Eighteenth Centuries is a collection of essays focusing on the expansion elaboration and increasing integration of the economy of the Atlantic basin comprising parts of Europe West Africa and the Americas during the seventeenth and eighteenth centuries In thirteen essays the contributors examine the complex and variegated processes by which markets were created in the Atlantic basin and how they became integrated While a number of the contributors focus on the economic history of a specific European imperial system others mirroring the realities of the world they are writing about transcend imperial boundaries and investigate topics shared throughout the region In the latter case the contributors focus either on processes occurring along the margins or interstices of empires or on breaches in the colonial systems established by various European powers Taken together the essays shed much needed light on the organization and operation of both the European imperial orders of the early modern era and the increasingly integrated economy of the Atlantic basin challenging these orders over the course of the same period **Explorations in Entrepreneurial History**,1972 Lives of the Philadelphia Engineers Andrew
