**Hawthorne** Brenda Wineapple, 2012-01-11 Handsome reserved almost frighteningly aloof until he was approached then playful cordial Nathaniel Hawthorne was as mercurial and double edged as his writing Deep as Dante Herman Melville said Hawthorne himself declared that he was not one of those supremely hospitable people who serve up their own hearts delicately fried with brain sauce as a tidbit for the public Yet those who knew him best often took the opposite position He always puts himself in his books said his sister in law Mary Mann he cannot help it His life like his work was extraordinary a play of light and shadow In this major new biography of Hawthorne the first in more than a decade Brenda Wineapple acclaimed biographer of Janet Flanner and Gertrude and Leo Stein Luminous Richard Howard brings him brilliantly alive an exquisite writer who shoveled dung in an attempt to found a new utopia at Brook Farm and then excoriated the community or his attraction to it in caustic satire the confidant of Franklin Pierce fourteenth president of the United States and arguably one of its worst friend to Emerson and Thoreau and Melville who unlike them made fun of Abraham Lincoln and who also unlike them wrote compellingly of women deeply identifying with them he was the first major American writer to create erotic female characters Those vibrant independent women continue to haunt the imagination although Hawthorne often punishes

*American Civil War* Spencer C. Tucker, 2013-09-30 This expansive multivolume reference work provides a broad multidisciplinary examination of the Civil War period ranging from pre Civil War developments and catalysts such as the Mexican American War to the rebuilding of the war torn nation during Reconstruction The Civil War

was undoubtedly the most important and seminal event in 19th century American history. Students who understand the Civil War have a better grasp of the central dilemmas in the American historical narrative: states rights versus federalism, freedom versus slavery, the role of the military establishment, the extent of presidential powers, and individual rights versus collective rights. Many of these dilemmas continue to shape modern society and politics. This comprehensive work facilitates both detailed reading and quick referencing for readers from the high school level to senior scholars in the field. The exhaustive coverage of this encyclopedia includes all significant battles and skirmishes, important figures both civilian and military, weapons, government relations with Native Americans, and a plethora of social, political, cultural, military, and economic developments. The entries also address the many events that led to the conflict, the international diplomacy of the war, the rise of the Republican Party, and the growing crisis and stalemate in American politics, slavery and its impact on the nation as a whole, the secession crisis, the emergence of the total war concept, and the complex challenges of the aftermath of the conflict.

**Traveling through Time** M. Gerard Fromm, 2022-02-16. Bullets don't just travel through skin and bone. They travel through time. These words were tattooed onto the shoulder of a young woman whose father was shot during The Troubles in Northern Ireland. This wrenching, volatile but also binding truth is the subject of this book. It's a truth about traumatic experiences that happen to a family but also to a society and to the organizations that link these intimate units with the larger context of history and culture. It's also a truth about the way trauma plays out over time, including between generations. Grounded in Erik Erikson's way of looking at things, the book is a journal of encounters between clinical psychoanalysis and other disciplines, and an inquiry into what might be learned there for both. Sometimes that learning has to do with trauma, the way in which what can't be emotionally contained, thought about, or spoken in one part of a system is passed along with disorganizing, sometimes heartbreaking consequences to another. After a reflection on dignity, the book examines intergenerational trauma in families, including Erikson's. It then illustrates how trauma to organizations slips below the threshold of awareness and yet continues to wear down its members. The final section examines aspects of the larger society, including radicalization, war trauma, the pandemic, and cultural healing. What emerges is the sober yet hopeful truth that what people discover by taking their own emotional experiences seriously, though that might markedly differ from what is accepted in the everyday world, is a primary path toward recovery from trauma.

*The Social Self* Joseph Alkana, 2021-05-11. American literary history of the nineteenth century as a conflict between individualistic writers and a conformist society. In *The Social Self*, Joseph Alkana argues that such a dichotomy misrepresents the views of many authors. Sudden changes caused by the industrial revolution, urban development, increased immigration, and regional conflicts were threatening to fragment the community, and such writers as Nathaniel Hawthorne, William James, and William Dean Howells were deeply concerned about social cohesion. Alkana persuasively reintroduces Common Sense philosophy and Jamesian psychology as ways to understand how the nineteenth-century self-society dilemma developed. All three writers believed that introspection was the proper path

to the discovery of truth. They also felt. Alkana argues that such discoveries had to be validated by society. In these sophisticated readings of Hawthorne's short stories and *The Scarlet Letter*, Howells's utopian *Altrurian* romances and James's *The Principles of Psychology*, it becomes obvious that characters who isolate themselves from the community do so at considerable psychological risk. *The Social Self* links these writers' interest in contemporary psychology to their concern for history and society. Alkana's argument that nineteenth-century expressions of individualism were defensive responses to the fear of social chaos radically revises the traditional narrative of American literary culture.
