## **Nathaniels Nutmeg Or True Incredible Adventures Spice Trader Who Changed Course Hist:**

*Nathaniel's Nutmeg* Giles Milton, 2014-06-10 A true tale of high adventure in the South Seas The tiny island of Run is an insignificant speck in the Indonesian archipelago Just two miles long and half a mile wide it is remote tranquil and these days largely ignored Yet 370 years ago Run s harvest of nutmeg a pound of which yielded a 3 200 percent profit by the time it arrived in England turned it into the most lucrative of the Spice Islands precipitating a battle between the all powerful Dutch East India Company and the British Crown The outcome of the fighting was one of the most spectacular deals in history Britain ceded Run to Holland but in return was given Manhattan This led not only to the birth of New York but also to the beginning of the British Empire Such a deal was due to the persistence of one man Nathaniel Courthope and his small band of adventurers were sent to Run in October 1616 and for four years held off the massive Dutch navy Nathaniel s Nutmeg centers on the remarkable showdown between Courthope and the Dutch Governor General Jan Coen and the brutal fate of the mariners racing to Run and the other corners of the globe to reap the huge profits of the spice trade Written with the flair of a historical sea novel but based on rigorous research Giles Milton s Nathaniel s Nutmeg is a brilliant adventure story by Giles Milton a writer who has been hailed as the new Bruce Chatwin Mail on Sunday *Nathaniels Nutmeg* Giles Milton, 1999-07-01 An exciting account of the dangerous voyages bizarre transactions and desperate battles of the spice wars The island of Run is a tiny remote island in the Indonesian archipelago At the beginning of the 17th cent however Run s harvest of nutmeg turned it into the most lucrative of the Spice Islands precipitating a fierce and bloody battle between the powerful Dutch East India Co and a band of ragtag British adventurers The outcome of the fighting was one of the most spectacular deals in history Britain ceded Run to Holland but in return was given Manhattan A brilliant adventure story of unthinkable hardship savagery the navigation of uncharted waters and the exploitation of new worlds *The Nutmeg's Curse* Amitav Ghosh, 2021-10-14 The author of *The Great Derangement* finds the origins of our climate crisis in Western colonialism s violent exploitation of human life and the environment A powerful work of history essay testimony and polemic Amitav Ghosh s new book traces our contemporary planetary crisis back to the discovery of the New World and the sea route to the Indian Ocean *The Nutmeg s Curse* argues that the dynamics of climate change today are rooted in a centuries old geopolitical order constructed by Western colonialism At the center of Ghosh s narrative is the now ubiquitous spice nutmeg The history of the nutmeg is one of conquest and exploitation of both human life and the natural environment In Ghosh s hands the story of the nutmeg becomes a parable for our environmental crisis revealing the ways human history has always been entangled with earthly materials such as spices tea sugarcane opium and fossil fuels Our crisis he shows is ultimately the result of a mechanistic view of the earth where nature exists only as a resource for humans to use for our own ends rather than a force of its own full of agency and meaning Writing against the backdrop of the global pandemic and the Black Lives Matter protests Ghosh frames these historical stories in a way that connects our shared colonial histories with the deep

inequality we see around us today By interweaving discussions on everything from the global history of the oil trade to the migrant crisis and the animist spirituality of Indigenous communities around the world *The Nutmeg's Curse* offers a sharp critique of Western society and speaks to the profoundly remarkable ways in which human history is shaped by non human forces

**In Defense of Processed Food** Robert L. Shewfelt, 2016-11-23 It has become popular to blame the American obesity epidemic and many other health related problems on processed food Many of these criticisms are valid for some processed food items but many statements are overgeneralizations that unfairly target a wide range products that contribute to our health and well being In addition many of the proposed dangers allegedly posed by eating processed food are exaggerations based on highly selective views of experimental studies We crave simple answers to our questions about food but the science behind the proclamations of food pundits is not nearly as clear as they would have you believe This book presents a more nuanced view of the benefits and limitations of food processing and exposes some of the tricks both Big Food and its critics use to manipulate us to adopt their point of view Food is a source of enjoyment a part of our cultural heritage a vital ingredient in maintaining health and an expression of personal choice We need to make those choices based on credible information and not be beguiled by the sophisticated marketing tools of Big Food nor the ideological appeals and gut feelings of self appointed food gurus who have little or no background in nutrition

**Global Dishes** Caryn E. Neumann, Lori L. Parks, Joel G. Parks, 2023-06-30 Winner 2024 RUSA Outstanding Reference Award Through an interdisciplinary approach that shows how food can reflect a culture and time this book whets the appetite of students for further research into history anthropology geography sociology and literature Food is a great unifier It is used to mark milestones or rites of passage It is integral to the way we celebrate connecting a familial and cultural past to the present through tradition It bolsters the ill and soothes those in mourning The dishes in this text are those that have come to be known within a part of the world and culture but also have moved beyond those borders and are accessible and enjoyed by many in our ever smaller and more interconnected world Featuring more than 100 recipes and detailed discussions of dishes from across the globe *Global Dishes Favorite Meals from around the World* explores the history and cultural context surrounding some of the best known and favorite foods The book covers national dishes from more than 100 countries including large nations like Mexico and small countries like Macao There is also coverage of foods beloved by Indigenous peoples such as the Sami of Scandinavia Traditional favorites are offered as well as newer dishes

*Encyclopedia of World Trade: From Ancient Times to the Present* Cynthia Clark Northrup, Jerry H. Bentley, Alfred E. Eckes, Jr, Patrick Manning, Kenneth Pomeranz, Steven Topik, 2015-04-10 Written for high school or beginning undergraduate students this four volume reference valiantly attempts to provide a historical framework for the perhaps overly broad concept of world trade Entry topics were selected on trade organizations influential people commodities events that affected trade trade routes navigation religion communic

*The Ongoing Columbian Exchange* Christopher Cumo, 2015-02-25 This unique encyclopedia enables students to understand the myriad

ways that the Columbian Exchange shaped the modern world covering every major living organism from pathogens and plants to insects and mammals Most people have only the vaguest notion of how profoundly the world was changed by Christopher Columbus s arrival in the Americas Indeed some of what is commonly regarded as traditional Native American life and culture living in teepees and hunting buffalo from horseback for example came from the arrival of Europeans This encyclopedia helps students acquire fundamental information about the Columbian Exchange through approximately 100 alphabetically arranged entries on animals plants diseases and items that were exchanged accompanied by sidebars throughout that provide interesting discussions of key people companies and other related topics The work begins with an introductory essay that overviews the Columbian exchange and not only addresses its biological and cultural components but also treats it as a political and economic event The alphabetically organized entries cover topics ranging from the African slave trade almonds and alpacas to watermelon whooping cough and yellow fever The encyclopedia also offers a chronology of the major events of the Columbian Exchange as well as 15 transcribed primary source documents that enable students to look into history directly including passages about the exchange that focus on the Irish Potato Famine the slave trade and the influenza pandemic of 1918 1919

**War Crimes in Japan-Occupied Indonesia** J. Kevin Baird, Sangkot Marzuki, 2015-05-15 Shortly after Pearl Harbor the Japanese Imperial Army invaded the Dutch East Indies now known as Indonesia A deceitful campaign promoting Asian brotherhood recruited and coerced young Indonesian men to support the Japanese occupation with the sinister outcome that several million of them were worked to death or summarily killed as expendable slave laborers or romusha as they were called While many romusha disappeared from the record nine hundred were known victims of a brutal and immoral medical experiment perpetuated by an increasingly desperate Imperial Japan In anticipation of a land assault the Japanese needed a means to protect their troops from tetanus and they used these nine hundred men as human guinea pigs to test an insufficiently vetted vaccine Within days all nine hundred suffered the protracted agonizing death of acute tetanus With the Allied forces poised for victory the Japanese needed a scapegoat for this well documented incident if they were to avoid war crimes prosecution They brutally tortured Achmad Mochtar a native Indonesian and renowned scientist along with his colleagues at the Eijkman Institute in Batavia now Jakarta until Mochtar signed a confession to the murders in exchange for the liberty of his fellow scientists The Japanese beheaded Mochtar weeks before the war ended War Crimes in Japan Occupied Indonesia unravels the deceit of the Japanese Army the reasons for the mass murder of the romusha and Mochtar s heroic role in these tragic events The end result finds justice for Mochtar and reveals the true extent of one of the least recognized war crimes of World War II

The Anarchy William Dalrymple, 2020-11-12 THE TOP 5 SUNDAY TIMES BESTSELLER ONE OF BARACK OBAMA S BEST BOOKS OF 2019 THE TIMES HISTORY BOOK OF THE YEAR FINALIST FOR THE CUNDILL HISTORY PRIZE 2020 LONGLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NON FICTION 2019 A FINANCIAL TIMES OBSERVER DAILY TELEGRAPH WALL STREET

JOURNAL AND TIMES BOOK OF THE YEAR Dalrymple is a superb historian with a visceral understanding of India A book of beauty Gerard DeGroot The Times In August 1765 the East India Company defeated the young Mughal emperor and forced him to establish a new administration in his richest provinces Run by English merchants who collected taxes using a ruthless private army this new regime saw the East India Company transform itself from an international trading corporation into something much more unusual an aggressive colonial power in the guise of a multinational business William Dalrymple tells the remarkable story of the East India Company as it has never been told before unfolding a timely cautionary tale of the first global corporate power Empires of Love Carmen Nocentelli,2013-02-05 Drawing on a wide range of Dutch English French Italian Portuguese and Spanish sources Empires of Love shows how the encounter with Asia shaped the way early modern Europeans came to define their racial and sexual identities **Killing for Power and Profit** H. G. Willms,2018-11-14 King Leopold II of Belgium built palaces public buildings castles and monuments to remember his greatness as a king People still praise him even though he killed millions of people The question of accountability is raised not only in the case of Leopold but all in power who have caused the death of millions of human beings The terrible wars of the recent past have all been followed with excuses by those who planned the wars In this military and political history and commentary the author a U S Army veteran covers more than one hundred years leading up to the present day In addition to Leopold II he highlights figures such as Otto von Bismarck the chancellor of Prussia who united Germany Japanese Emperor Hirohito Adolf Hitler President Franklin D Roosevelt President Lyndon B Johnson and many others From the rise of colonial empires to World War I and World War II to fighting in Korea Vietnam and beyond we must study the past to determine what we might do better moving forward Learn the fascinating history of the Western world s major conflicts and gain an appreciation for those who ve fought and died in Killing for Power and Profit Entomology at the Land Grant University Kevin M. Heinz,Carlos Enrique Bográn,Raymond E. Frisbie,2005 Insects affect the health and well being of humans every day everywhere so the entomology departments that study them make a crucial contribution to many aspects of life Indeed agricultural success in the United States and other countries depends upon the work of entomology departments within the land grant system at universities across the nation Entomology at the Land Grant University is a thorough look at how entomology departments have adapted to shifting demographics changes in land use patterns environmental issues and advances in the life sciences It also highlights the leadership of entomologists in their multifaceted roles as researchers teachers and consultants With world renowned contributors from both academia and industry this volume is the culmination of a series of mini symposia celebrating the 100th anniversary of the Department of Entomology at Texas A M University The centenary was a time to reflect on past accomplishments and to plan for future challenges spotlighting the academic scientific economic and social importance of entomology The result is a broad brushed picture of a discipline that at its best represents the highest virtues of fundamental and applied science with topics such as fulfilling the land grant university

mission roles of entomology departments the function of the extension service the global reach of entomological research civic education in insect management genetic engineering future innovations in pest management and insecticide design Not just for entomologists this insightful look into the workings of a university department within the context of a rapidly changing scientific social and economic climate will appeal to anyone associated with a land grant university extension or regulatory agency or related industry

**Out of the East** Paul Freedman, 2008-03-25 How medieval Europe's infatuation with expensive fragrant exotic spices led to an era of colonial expansion and discovery A consummate delight Marion Nestle James Beard Award winning author of *Unsavory Truth* The demand for spices in medieval Europe was extravagant and was reflected in the pursuit of fashion the formation of taste and the growth of luxury trade It inspired geographical and commercial exploration as traders pursued such common spices as pepper and cinnamon and rarer aromatic products including ambergris and musk Ultimately the spice quest led to imperial missions that were to change world history This engaging book explores the demand for spices Why were they so popular and why so expensive Paul Freedman surveys the history geography economics and culinary tastes of the Middle Ages to uncover the surprisingly varied ways that spices were put to use in elaborate medieval cuisine in the treatment of disease for the promotion of well being and to perfume important ceremonies of the Church Spices became symbols of beauty affluence taste and grace Freedman shows and their expense and fragrance drove the engines of commerce and conquest at the dawn of the modern era A magnificent very well written and often entertaining book that is also a major contribution to European economic and social history and indeed one with a truly global perspective *American Historical Review*

*Immanuel Wallerstein and the Problem of the World* David Palumbo-Liu, Bruce Robbins, Nirvana Tanoukhi, 2011-02-18 Leading cultural theorists consider the meaning and implications of world scale humanist scholarship by engaging with Immanuel Wallersteins world systems analysis

**Science, Literature and Rhetoric in Early Modern England** David Burchell, 2017-03-02 These essays throw new light on the

complex relations between science literature and rhetoric as avenues to discovery in the seventeenth and eighteenth centuries Scholars from a variety of disciplinary backgrounds examine the agency of early modern poets playwrights essayists philosophers natural philosophers and artists in remaking their culture and reforming ideas about human understanding Analyzing the ways in which the works of such diverse writers as Shakespeare Bacon Hobbes Milton Cavendish Boyle Pope and Behn related to contemporary epistemological debates these essays move us toward a better understanding of interactions between the sciences and the humanities during a seminal phase in the emergence of modern Western thought

**Rivalry for Trade in Tea and Textiles** Chris Nierstrasz,2015-09-22 The rivalry for trade in tea and textiles between the English and Dutch East India companies is very much a global history This trade is strongly connected to emblematic events such as the opening of Western trade with China the Boston Tea Party the establishment of British Empire in Bengal and the Industrial Revolution

**Geographies of Race and Food** Rachel Slocum,Arun Saldanha,2016-04-15 While interest in the relations of power and identity in food explodes a hesitancy remains about calling these racial What difference does race make in the fields where food is grown the places it is sold and the manner in which it is eaten How do we understand farming and provisioning tasting and picking eating and being eaten hunger and gardening better by paying attention to race This collection argues there is an unacknowledged racial dimension to the production and consumption of food under globalization Building on case studies from across the world it advances the conceptualization of race by emphasizing embodiment circulation and materiality while adding to food advocacy an antiracist perspective it often lacks Within the three socio physical spatialities of food fields bodies and markets the collection reveals how race and food are intricately linked An international and multidisciplinary team of scholars complements each other to shed light on how human groups become entrenched in myriad hierarchies through food at scales from the dining room and market stall to the slave trade and empire Following foodways as they constitute racial formations in often surprising ways the chapters achieve a novel approach to the process of race as one that cannot be reduced to biology culture or capitalism

**The Alchemy of Empire** Rajani Sudan,2016-06-01 Named Top 6 South Asia studies publications of 2016 by the British Association for South Asian Studies The Alchemy of Empire unravels the non European origins of Enlightenment science Focusing on the abject materials of empire building this study traces the genealogies of substances like mud mortar ice and paper as well as forms of knowledge like inoculation Showing how East India Company employees deployed the paradigm of alchemy in order to make sense of the new worlds they confronted Rajani Sudan argues that the Enlightenment was born largely out of Europe s and Britain s sense of insecurity and inferiority in the early modern world Plumbing the depths of the imperial archive Sudan uncovers the history of the British Enlightenment in the literary artifacts of the long eighteenth century from the correspondence of the East India Company and the papers of the Royal Society to the poetry of Alexander Pope and the novels of Jane Austen

**Empires of the Weak** J. C. Sharman,2020-11-10 What accounts for the rise of the state the

creation of the first global system and the dominance of the West The conventional answer asserts that superior technology tactics and institutions forged by Darwinian military competition gave Europeans a decisive advantage in war over other civilizations from 1500 onward In contrast Empires of the Weak argues that Europeans actually had no general military superiority in the early modern era J C Sharman shows instead that European expansion from the late fifteenth to the late eighteenth centuries is better explained by deference to strong Asian and African polities disease in the Americas and maritime supremacy earned by default because local land oriented polities were largely indifferent to war and trade at sea Europeans were overawed by the mighty Eastern empires of the day which pioneered key military innovations and were the greatest early modern conquerors Against the view that the Europeans won for all time Sharman contends that the imperialism of the late nineteenth and early twentieth centuries was a relatively transient and anomalous development in world politics that concluded with Western losses in various insurgencies If the twenty first century is to be dominated by non Western powers like China this represents a return to the norm for the modern era Bringing a revisionist perspective to the idea that Europe ruled the world due to military dominance Empires of the Weak demonstrates that the rise of the West was an exception in the prevailing world order
