**Nation-building and Citizenship** Reinhard Bendix, 1977 Examines how states and civil societies interact in their formation of a new political community focusing on authority patterns and relations established between individuals and states during nation building For students and scholars of political science sociology history and comparative studies Originally published in 1964 by John Wiley and Sons with a 1977 enlarged edition published by University of California Press this latest enlarged edition includes an introduction by the author's son Annotation copyright by Book News Inc Portland OR

Nation-building and Citizenship Reinhard Bendix, 1977      **Nation-Building and Citizenship** Marcus Raskin, 2017-09-14 Nation Building and Citizenship examines how states and civil societies interact in their formation of a new political community Reinhard Bendix directs our attention to relations established between individual and state during nation building While the development of citizenship and the interplay between tradition and modernity are important in this process of social and political change his key theme is the examination of authority patterns Bendix explores in depth the possibilities of an alternative approach to the neo evolutionary orientation many social scientists take in their analyses of the underdeveloped areas of the world The subjects he discusses include transformations of Western European societies since medieval times extension of citizenship to the lower classes bureaucratization in the nation state private and public authority in Western Europe and Russia aristocracies and development in Germany and Japan and the development of public authority in India's political community The book concludes with a reconsideration of ideas widely held about tradition modernity and modernization In a new introduction John Bendix writes that what continues to make this book relevant is not only what it can tell us about past and present nation building including the transformations of the 1980s and 1990s but its more general messages about the nature of social and political transformations Nation Building and Citizenship is a necessary addition to the libraries of political scientists sociologists historians and scholars of comparative studies      Nation-Building, Identity and Citizenship Education Joseph Zajda, Holger Daun, Lawrence J. Saha, 2008-12-16 A major aim of Nation Building Identity and Citizenship Education Cross cultural Perspectives is to present a global overview of selected scholarly research on global and comparative trends in dominant discourses of identity politics and nation building in comparative education research It provides an easily accessible practical yet scholarly source of information about the international concern in the field of nation building identity and citizenship education Above all the book offers the latest findings on discourses surrounding national identity nation building and citizenship education in the global culture It offers a timely overview of current issues affecting the formation of social identity and citizenship education in the global culture More than ever before there is a need to understand and analyse both the intended and the unintended effects of globalisation and the forces of globalisation on nations organisations communities educational institutions and individuals around the world This is particularly relevant to the evolving and constantly changing notions of nation states national identity and citizenship education globally Current

global and comparative research demonstrates a rapidly changing world where citizens are experiencing a growing sense of alienation uncertainty and loss of moral purpose In this stimulating and important book the authors focus on discourses surrounding three major dimensions affecting the national identity nation building and citizenship education debate in education and society ideology democracy and human rights These are among the most critical and significant dimensions defining and contextualising the processes surrounding the nation building and identity *Nation-Building and Citizenship* Bendix,1980-03 **Making Of Southeast Asian Nations, The: State, Ethnicity, Indigenism And Citizenship** Leo Suryadinata,2014-11-21 The idea of the nation is a Western concept which has been applied to Southeast Asia It is a project which has been in progress since the last century but is still incomplete Various theoretical frameworks which are associated with nation and nation building in the Southeast Asian region have been briefly dealt with The book aims to examine the making of the nations in Southeast Asia using both historical and political science approaches Concepts related to nation such as ethnicity state indigenism and citizenship have also been analysed in the Southeast Asian context Specific examples of nation building in five major Southeast Asian countries are presented Problems and prospects of Southeast Asia's nation building and citizenship building in the era of globalisation are also discussed *Nation-Building, Identity and Citizenship Education* Joseph Zajda,Holger Daun,Lawrence J. Watson,2022-06-09 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM This book explores

the pivotal role that football played as part of Colombian President Juan Manuel Santos national unity project centred on the peace process with the FARC Football has huge political and social capital in Latin America and has often been rhetorically deployed by governments for various ends rarely however has football's power and potential been used in such a deliberate strategic and active way towards a national peace process and targeted such enduring divisions that have historically impeded a sense of a united nation and national identity Football in Colombia is understood popularly as one of the few things capable of uniting the country a belief that Santos seized upon as the national team had a successful campaign in the 2014 World Cup This first book on Colombian football in English explores previous iterations of football nationalism in the country including the El Dorado and Narcofootball eras before analysing Santos three pronged strategy empowering professional and amateur football including the use of political speeches and Twitter legislation and public policy and Sport for Development and Peace campaigns with a particular focus on football in the FARC demobilisation and reincorporation camps following the historic peace agreement

Nation-building and Contested Identities Balázs Trencsényi, 2001 *The State-Democracy Nexus* Jørgen Møller, Svend-Erik Skaaning, 2016-04-14 The great dilemma of democracy revolves around the state Historically the state has played a crucial role as enforcer of liberal democratic constitutions but it has also been used by autocratic rulers to entrench their rule The state is thus a two edged sword It can both be the guarantee of democratic rights and a tool that can be used to suppress such rights One corollary of this is that the influence of state structures on democratic development depends on who holds government power But the opposite observation can also be made as governments play an important role in shaping the state apparatus The state and the regime are thus intertwined Against this backdrop this book presents a series of attempts authored by influential experts such as Francis Fukuyama and Gerardo Munck to disentangle the relationship between the state and political regimes The contributions differ in terms of their particular theoretical and empirical focus But they share the assumption that three criteria need to be observed to achieve a better understanding of the state democracy nexus First it is valuable to distinguish conceptually between different aspects of the state Second the potential relationships between democracy and these attributes of state should be carefully theorized Third the consequent propositions must be interrogated using comparative approaches This book was originally published as a special issue of Democratization

**European Polity?** Henri Goverde, 2017-11-01 This title was first published in 2000 The contents of this text are structured by three sub themes Firstly the internationalization of Europe This field studies threats and chances of re institutionalization of nation state societies and the role of the public sector therein acknowledging the dynamics of the ever changing international political and economic relations The second sub theme is the creative firm in a European context The object of this field is the conditions for innovative organization and management of firms in Europe taking into account the necessary adjustments to emerging European political and economic transformations The final sub theme is innovative environmental and spacial policy in a European context This section has its object in the far reaching transformations that European societies and particularly the Dutch societies are witnessing These transformations concern the functional relations and spatial and environmental conditions as well as the emerging changes in the way planning and policy institutions deal with their new targets **Citizenship Education and Lifelong Learning** Michael Williams, Graham Humphrys, 2003 Across the

globe citizenship education is high on the reform agendas of policy makers and educators The collapse of the Soviet Union and the entry of former Soviet bloc states into the European Union the fragmentation of the former Yugoslavia the major population movements from poor to rich countries and the increased threats of international terrorism and civil wars in many states have all added to the need to provide up dated and reflective approaches to citizenship education Within nation states the impact of globalisation on social economic and political structures has caused power shifts across and within international borders demanding greater citizenship awareness and participation The effect of these changes and the practice and needs of citizenship are profoundly affected by the distinctive particulars of the places in which they occur This is an essential ingredient in any understanding of what is happening and of any program addressing the resulting citizenship challenges Too often citizenship education has been perceived simply as a matter for schools In this book the discussion is extended to embrace post school education It is acknowledged that the educa **Religious Education for Plural**

**Societies** Robert Jackson, 2018-10-08 In the World Library of Educationalists series international experts themselves compile career long collections of what they judge to be their finest pieces extracts from books key articles salient research findings major theoretical and practical contributions so the world can read them in a single manageable volume Readers will be able to follow the themes and strands and see how their work contributes to the development of the field Religious Education for

Plural Societies highlights key writings from Robert Jackson's international career in education. It provides a historical perspective in relation to current debates about religious education in the UK and internationally, drawing attention to current issues of concern. Carefully selected examples explore the key themes in religious education that allow us to consider how things were, how they are now, and the future for the field of study. Split into parts: empirical research, the interpretive approach to religious education, pedagogy, religious education and plurality, and human rights and international policy developments. Robert Jackson also provides an overview of the text in the form of a general introduction and also introductions to each section of the book, allowing the reader a personal insight into why each piece has been chosen. Religious Education for Plural Societies allows readers to follow themes and strands across Robert Jackson's career and see how his work has contributed to the development of the fields of religion and education. It will be of interest to all followers of Robert Jackson's work and any reader interested in the development of religious education in the UK and internationally.

*Rethinking Religious Education and Plurality* Robert Jackson, 2004. How should schools deal with religions in matters of curriculum, procedure and policy? As Western society becomes increasingly multicultural in character, schools must reassess the provision of religious education and look at how they might adapt in order to accommodate students' diverse experiences of plurality. This book offers a critical view of approaches to the treatment of different religions in contemporary education in order to devise approaches to teaching and learning and to formulate policies and procedures that are fair and just to all. Beginning with a contextual overview of the religious, social and cultural changes of the past fifty years, the book goes on to illuminate and assess six different responses to the challenges posed by religious plurality in schools. Conclusions are drawn from the various positions explored in this book, identifying what the character of religious education should be, how it should be taught, and addressing the issues raised for policy, practice and research. *Rethinking Religious Education and Plurality* argues for a plural approach to education and will be a valuable resource for students and researchers studying courses in religious education as well as teachers, education advisers and policy makers.

*The Qualities of a Good Citizen* Sunday Jial, 2020-04-30. ABOUT THE BOOK. *Qualities of a Good Citizen* is a rare inspirational handbook about good citizenship. This book is equipped with case studies relevant to traits you may want to know about good citizenship. The messages contained herein can only be found in sacred religion, principled politics, disciplined military, humanistic science and ethical business. This makes it useful to political leaders, military personnel, religious leaders, businesspeople, school teachers, pupils and ordinary citizens of all creeds, cultures, traditions and races. If you aspire to impart change to the world, if you are curious to revive your life, and if you are interested to know what you think, you don't know about good citizenship, this book is for you. You may be born with citizenship or earn it through naturalization.

but there is more to being a good citizen than just having a legal piece of paper Good citizenship is about how you conduct yourself as an individual how you care about your surrounding environment how you interrelate with your community and above all how you view the rule of law and human rights As a good citizen you should know that you are on this earth for a mission This task is to care for humanity and all God s creatures by doing good things at all times It is your responsibility to educate the world and pass what you know on to other citizens so that the following generations benefit from it You also have a mandate to work for the good of your country and that of the world Remember the world can only be a better place when you agree to be a good citizen

**Youth on the Move** Kristiina Brunila,Lisbeth Lundahl,2020-02-03 The book addresses one of the most urgent social problems in many countries the uncertain school to work transitions of young people As a result a transition machinery has been created consisting of various education and training measures realised by e g teachers and youth workers The volume demonstrates that discourses related to youth transitions do not simply describe young adults but create them For example young people are expected to be active citizens who make themselves attractive to employers and those who fail in doing so may be labelled having psychological deficiencies When failing transitions resulting in lack of higher education or unemployment are treated as individual s problems rather than rising from structural factors the solutions are likewise individualized The book thus underlines the importance of analysing power relations reflected by gender health social class and ethnicity The articles of the book combine perspectives from young people policymakers teachers and youth workers in Iceland Finland Sweden and England
