Nation Of Adversaries How The Litigation Explosion Is Reshaping America:

A Nation of Adversaries Patrick M. Garry, 2013-11-11 *Failures of American Civil Justice in International Perspective* James R. Maxeiner, 2011-08-29 Civil justice in the United States is neither civil nor just. Instead, it embodies a maxim that the American legal system is a paragon of legal process which assures its citizens a fair and equal treatment under the law. Long have critics recognized the system's failings while offering abundant criticism but few solutions. This book provides a comparative critical introduction to civil justice systems in the United States, Germany, and Korea. It shows the shortcomings of the American system and compares them with German and Korean successes in implementing the rule of law. The author argues that these shortcomings could easily be fixed if the American legal systems were open to seeing how other legal systems' civil justice processes handle cases more efficiently and fairly. Far from being a treatise for specialists, this book is an introductory text for civil justice in the three aforementioned legal systems.

Jews and the Law Ari Mermelstein, Victoria Saker Woeste, Ethan Zadoff, Marc Galanter, 2014-06-10 Jews are a people of law and law defines who the Jewish people are and what they believe. This anthology engages with the growing complexity of what it is to be Jewish and more problematically, what it means to be at once Jewish and participate in secular legal systems as lawyers, judges, legal thinkers, civil rights advocates, and teachers. The essays in this book trace the history and chart the sociology of the Jewish legal profession over time, revealing new stories and dimensions of this significant aspect of the American Jewish experience and at the same time exploring the impact of Jewish lawyers and law firms on American legal practice. This superb collection reveals what an older focus on assimilation obscured: Jewish lawyers wanted to make it, but they also wanted to make law and the legal profession different and better. These fascinating essays show how, despite considerable obstacles, they succeeded.

Daniel R. Ernst, Professor of Law, Georgetown University Law Center, Author of *Tocqueville's Nightmare: The Administrative State Emerges in America, 1900-1940*. This fascinating collection of essays by distinguished scholars illuminates the distinctive and intricate relationship between Jews and law. Exploring the various roles of Jewish lawyers in the United States, Germany, and Israel, they reveal how the practice of law has variously expressed, reinforced, or muted Jewish identity as lawyers demonstrated their commitments to the public interest, social justice, Jewish tradition, or personal ambition. Any student of law, lawyers, or Jewish values will be engaged by the questions asked and answered.

Jerold S. Auerbach, Professor Emeritus of History, Wellesley College, Author of *Unequal Justice* and *Rabbis and Lawyers*.

Reimagining Courts Victor E. Flango, Thomas M. Clarke, 2015 In their timely and topical book *Reimagining Courts*, Victor Flango and Thomas Clarke argue that courts are a victim of their own success. Disputes that once were resolved either informally in the family or within the community are now handled mainly by courts, which strains government agency resources. The authors offer provocative suggestions for a thorough overhaul of American state and local courts, one that better fits the needs of a twenty-first century legal system. *Reimagining Courts* recommends a triage process based upon case characteristics, litigant goals, and resolution.

processes Courts must fundamentally reorganize their business processes around the concept of the litigant as a customer Each adjudication process that the authors propose requires a different case management process and different amounts of judicial staff and facility resources Reimagining Courts should spark much needed debate This book will be of significant interest to lawyers judges and professionals in the court system as well as to scholars in public administration and political science

Beyond the Adversarial System Helen Stacy, Michael Lavarch, 1999 Australia is presently seeking to streamline its civil justice system It is popular folklore that the Australian civil justice system is inaccessible to ordinary people as it is expensive slow and complex The reasons for these alleged failings are attributed to various causes such as arcane and inefficient judicial practices money hungry lawyers or more fundamentally to the very underpinnings of civil litigation adversarialism This volume confronts this folklore It provides perspectives about civil justice from its major user and funding source government and the group of Australians who have used it the least and feel most alienated from the system indigenous Australians It explores the insights of those who work with adversarialism day in and day out judges and lawyers and reveals both defenders and strident advocates for change Finally it steps back and gives an outsider's view of Australian adversarialism from those with knowledge of a sister system in the United States

The Diocese's Darkest Chapter Allison Niebauer, 2023-12-08 From its quiet inception in 1988 to a hailstorm of statewide and national controversy over thirty years later this book follows the development of public discourse regarding a clergy sexual abuse scandal in a small Catholic Diocese in Central Pennsylvania Weaving together the evolving local and national narratives it offers a striking account of how stakeholder rhetoric has influenced public perception of the Catholic abuse crisis in America and driven public actions While the book enriches our local knowledge of the tragic and ongoing cultural

trauma triggered by the revelation of clergy perpetrated abuse in a small Catholic Diocese it also makes a critical theoretical contribution to our understanding of the role of rhetoric in publicizing private pain and galvanizing collectives to take it on as their own The process of cultural trauma Niebauer contends unfolds through rhetorical forms that provide individuals with a constraining and enabling set of rhetorical choices Highlighting the recurrent rhetorical forms of narration *kategoria* *apologia* and *topoi* The Diocese's Darkest Chapter brings a new vocabulary and explanatory force to the study of cultural trauma and the Catholic abuse crisis in America *Distorting the Law* William Haltom, Michael McCann, 2009-11-15 In recent years stories of reckless lawyers and greedy citizens have given the legal system and victims in general a bad name Many Americans have come to believe that we live in the land of the litigious where frivolous lawsuits and absurdly high settlements reign Scholars have argued for years that this common view of the depraved ruin of our civil legal system is a myth but their research and statistics rarely make the news William Haltom and Michael McCann here persuasively show how popularized distorted understandings of tort litigation or tort tales have been perpetuated by the mass media and reform proponents *Distorting the Law* lays bare how media coverage has sensationalized lawsuits and sympathetically portrayed corporate interests supporting big business and reinforcing negative stereotypes of law practices Based on extensive interviews nearly two decades of newspaper coverage and in depth studies of the McDonald's coffee case and tobacco litigation *Distorting the Law* offers a compelling analysis of the presumed litigation crisis the campaign for tort law reform and the crucial role the media play in this process *The Litigation State* Sean Farhang, 2010-08-02 Of the 1.65 million lawsuits enforcing federal laws over the past decade 3 percent were prosecuted by the federal government while 97 percent were litigated by private parties When and why did private plaintiff driven litigation become a dominant model for enforcing federal regulation *The Litigation State* shows how government legislation created the nation's reliance upon private litigation and investigates why Congress would choose to mobilize through statutory design private lawsuits to implement federal statutes Sean Farhang argues that Congress deliberately cultivates such private lawsuits partly as a means of enforcing its will over the resistance of opposing presidents Farhang reveals that private lawsuits functioning as an enforcement resource are a profoundly important component of American state capacity He demonstrates how the distinctive institutional structure of the American state particularly conflict between Congress and the president over control of the bureaucracy encourages Congress to incentivize private lawsuits Congress thereby achieves regulatory aims through a decentralized army of private lawyers rather than by well staffed bureaucracies under the president's influence The historical development of ideological polarization between Congress and the president since the late 1960s has been a powerful cause of the explosion of private lawsuits enforcing federal law over the same period Using data from many policy areas spanning the twentieth century and historical analysis focused on civil rights *The Litigation State* investigates how American political institutions shape the strategic design of legislation to mobilize private lawsuits for policy implementation **Forensic Neuropsychology** Jerry J.

A Comparative Study of Funding Shareholder Litigation Wenjing Chen,2017-04-25 This book studies the funding problems with shareholder litigation through a functionally comparative way In fact funding problems with shareholder lawsuits may largely discourage potential shareholder litigants who bear high financial risk in pursuing such a claim but on the other hand they may not have much to gain Considering the lack of incentives for potential shareholder claimants effective funding techniques should be in place to make shareholder actions function as a corporate governance tool and discipline corporate management The book analyzes among others the practice of funding shareholder litigation in the Australia Canada the UK the US and Israel and covers all of the typical approaches being used in financing shareholder litigation in the current world For instance Israel and Canada Quebec and Ontario are probably unique in having a public funding mechanism for derivative actions and class actions while Australia is the country where third party litigation funding is originated and is growing rapidly Based on this comparative research the last part of this book discusses how to fund shareholder litigation in China in context of its social and legal background and what kind of problems need to be solved if certain funding techniques are used

Rediscovering a Lost Freedom Patrick M. Garry, 2006 Since ratification of the First Amendment in the late eighteenth century there has been a sea change in American life When the amendment was ratified individuals were almost completely free of unwanted speech but today they are besieged by it Indeed the First Amendment has for all practical purposes been commandeered by the media to justify intrusions of offensive speech into private life In its application the First Amendment has become one sided Even though America is virtually drowning in speech the First Amendment only applies to the speaker's delivery of speech Left out of consideration is the one participant in the communications process who is the most vulnerable and least protected the helpless recipient of offensive speech In *Rediscovering a Lost Freedom* Patrick Garry addresses what he sees as the most pressing speech problem of the twenty first century an often irresponsible media using the First Amendment as a shield behind which to hide its socially corrosive speech To Garry the First Amendment should protect the communicative process as a whole And for this process to be free and open listeners should have as much right to be free from unwanted speech as speakers do of not being thrown in jail for uttering unpopular ideas *Rediscovering a Lost Freedom* seeks to modernize the First Amendment With other constitutional rights changed circumstances have prompted changes in the law Restrictions on political advertising seek to combat the perceived influences of big money the Second Amendment right to bear arms due to the prevalence of violence in America has been curtailed and the Equal Protection clause has been altered to permit affirmative action programs aimed at certain racial and ethnic groups But when it comes to the flood of violent and vulgar media speech there has been no change in First Amendment doctrines This work proposes a government facilitated private right to censor *Rediscovering a Lost Freedom* will be of interest to students of American law history and the U S Constitution

The American Legal Profession in Crisis James E. Moliterno, 2013-04-11 *The American Legal Profession in Crisis* Resistance and Responses to Change analyzes the efforts of the legal profession to protect and maintain the status quo even as the world around it changed James E Moliterno demonstrates how the profession has held to its anachronistic ways at key crisis points in US history Ultimately he urges the profession to look outward and forward to find in society and culture the causes and connections with these periodic crises and in doing so to grow with the society it claims to serve
