Internal Revenue Service, 1997 **The Army Lawyer**, 2003 **Governance in China** Jude Howell, 2004 Over the past two decades the Chinese Communist Party CCP has paradoxically steered the development of a thriving capitalist economy Unlike many faltering post socialist states with fragile economies and weakly institutionalised democratic structures

China has witnessed a tide of economic entrepreneurialism that has raised living standards and the country's global economic stature. However, the strains of rapid economic change and the tensions between an increasingly liberalized economy and the partially reformed institutions of an authoritarian polity have become increasingly severe. Crucial to the success of further economic reform and development, good governance is the greatest challenge faced by the CCP. This groundbreaking book explores the key dimensions of governance in China. These include the prospects for political reform as a new generation of leaders comes to power and China enters the World Trade Organization; the processes of building institutions such as developing a clean, competent and meritocracy-based civil service and improving the legislative framework; enhancing regime legitimacy through the sharing of power at lower levels and promoting citizen participation and voice; and finally, the prevention and management of social discontent with particular reference to worker unrest and the Falun Gong. Drawing on original fieldwork, the international group of authors provides a systematic analysis of the political, institutional and economic causes underlying China's governance problems and considers the prospects for future social and political change.

**The African American Law School Survival Guide** Evangeline M. Mitchell, 2006 **Monthly Catalog of United States Government Publications**, 2002-07 *Decisions and Orders of the National Labor Relations Board*, V. 339, May 9, 2003, Through August 27, 2003, 1936 *List of Companies Registered Under the Investment Company Act of 1940* United States. Securities and Exchange Commission, 1982 *It Takes a Candidate* Jennifer L. Lawless, Richard L. Fox, 2005-09-12 *It Takes a Candidate* serves as the first systematic nationwide empirical account of the manner in which gender affects political ambition. Based on data from the Citizen Political Ambition Study, a national survey conducted on almost 3,800 potential candidates, we find that women even in the highest tiers of professional accomplishment are substantially less likely than men to demonstrate ambition to seek elected office. Women are less likely than men to be recruited to run for office. They are less likely than men to think they are qualified to run for office. And they are less likely than men to express a willingness to run for office in the future. This gender gap in political ambition persists across generations. Despite cultural evolution and society's changing attitudes toward women in politics, running for public office remains a much less attractive and feasible endeavor for women than men.
