National Epics Kate Milne Rabb, 1896 *National Epics* Kate Milner Rabb, 2020-09-28 This volume is intended for an introduction to the study of the epics While the simplicity and directness of the epic style seem to make such a book unnecessary the fact that to many persons of literary tastes some of these great poems are inaccessible and that to many more the pleasure of exploring for themselves the realms of gold is rendered impossible by the cares of business has seemed sufficient excuse for its being Though the beauty of the original is of necessity lost in a condensation of this kind an endeavor has been made to preserve the characteristic epithets and to retain what Mr Arnold called the simple truth about the matter of the poem It is believed that the sketch prefacing each story giving briefly the length versification and history of the poem will have its value to those readers who have not access to the epics and that the selections following the story each recounting a complete incident will give a better idea of the epic than could be formed from passages scattered through the text The epic originated among tribes of barbarians who deified departed heroes and recited legends in praise of their deeds As the hymn developed the chorus and strophe were dropped and the narrative only was preserved The word epic was used simply to distinguish the narrative poem which was recited from the lyric which was sung and from the dramatic which was acted As the nation passed from childhood to youth the legends of the hero that each wandering minstrel had changed to suit his fancy were collected and fused into one by some great poet who by his power of unification made this written epic his own This is the origin of the Hindu epics the Iliad and the Odyssey the Kalevala the Shah Nameh Beowulf the Nibelungen Lied the Cid and the Song of Roland The conditions for the production of the primitive epic exist but once in a nation s growth Its later epics must be written on subjects of national importance chosen by the poet who arranges and embellishes his material according to the rules of the primitive epic *National Epics* Kate Milner Rabb, 1896 Intended as an introduction to the epics with selections from the Ramayana Mahabharata Iliad Odyssey Kalevala neid Beowulf Nibelungen lied Song of Roland Shah nameh Poem of the Cid Divine comedy Orlando Furioso Lusiad Jerusalem delivered Paradise lost and Paradise regained **National Epics** Kate Milner Rabb, 2015-06-16 This volume is intended for an introduction to the study of the epics While the simplicity and directness of the epic style seem to make such a book unnecessary the fact that to many persons of literary tastes some of these great poems are inaccessible and that to many more the pleasure of exploring for themselves the realms of gold is rendered impossible by the cares of business has seemed sufficient excuse for its being Though the beauty of the original is of necessity lost in a condensation of this kind an endeavor has been made to preserve the characteristic epithets and to retain what Mr Arnold called the simple truth about the matter of the poem It is believed that the sketch prefacing each story giving briefly the length versification and history of the poem will have its value to those readers who have not access to the epics and that the selections following the story each recounting a complete incident will give a better idea of the epic than could be formed from passages scattered through the text **National epics volume 1**

Religion, Myth and Folklore in the World's Epics Lauri Honko, 2011-08-02 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series

The Epic World Pamela Lothspeich, 2024-01-30 Reconceptualizing the epic genre and opening it up to a world of storytelling The Epic World makes a timely and bold intervention toward understanding the human propensity to aestheticize and normalize mass deployments of power and violence The collection broadly considers three kinds of epic literature conventional celebratory tales of conquest that glorify heroism especially male heroism anti epics or stories of conquest from the perspectives of the dispossessed the oppressed the despised and the murdered and heroic stories utilized for imperialist or nationalist purposes

The Epic World illustrates global patterns of epic storytelling such as the durability of stories tied to religious traditions and or to peoples who have largely stayed put the tendency to reimagine and retell stories in new ways over centuries and the imbrication of epic storytelling and forms of colonialism and imperialism especially those perpetuated and glorified by Euro Americans over the past 500 years resulting in unspeakable and immeasurable harms to humans other living beings and the planet Earth The Epic World is a go to volume for anyone interested in epic literature in a global framework Engaging with powerful stories and ways of knowing beyond those of the predominantly white Global North this field shifting volume exposes the false premises of Western civilization and Classics and brings new questions and perspectives to epic studies

Orozco's American Epic Mary K. Coffey, 2020-02-28 Between 1932 and 1934 Jos Clemente Orozco painted the twenty four panel mural cycle entitled The Epic of American Civilization in Dartmouth College s Baker Berry Library An artifact of Orozco s migration from Mexico to the United States the Epic represents a turning point in his career standing as the only fresco in which he explores both US American and Mexican narratives of national history progress and identity While his title invokes the heroic epic form the mural indicts history as complicit in colonial violence It questions the claims of Manifest Destiny in the United States and the Mexican desire to mend the wounds of conquest in pursuit of a postcolonial national project In Orozco s American Epic Mary K Coffey places Orozco in the context of his contemporaries such as Diego Rivera and David Alfaro Siqueiros and demonstrates the Epic s power as a melancholic critique of official indigenism industrial progress and Marxist messianism In the process Coffey finds within Orozco s work a call for justice that resonates with contemporary debates about race immigration borders and nationality

Archaeology and the Homeric Epic Susan Sherratt, John Bennet, 2016-11-30 The relationship between the Homeric epics and archaeology has long suffered mixed fortunes swinging between fundamentalist attempts to use archaeology in order to demonstrate the essential historicity of the epics and their background and outright rejection of the idea that archaeology is capable of contributing anything at all to our understanding and appreciation of the epics Archaeology and the Homeric Epic

concentrates less on historicity in favor of exploring a variety of other perhaps sometimes more oblique ways in which we can use a multidisciplinary approach archaeology philology anthropology and social history to help offer insights into the epics the contexts of their possibly prolonged creation aspects of their prehistory and what they may have stood for at various times in their long oral and written history The effects of the Homeric epics on the history and popular reception of archaeology especially in the particular context of modern Germany is also a theme that is explored here Contributors explore a variety of issues including the relationships between visual and verbal imagery the social contexts of epic or sub epic creation or re creation the roles of bards and their relationships to different types of patrons and audiences the construction and uses of history as traceable through both epic and archaeology and the relationship between prehistoric oral and historical recorded in writing periods Throughout the emphasis is on context and its relevance to the creation transmission re creation and manipulation of epic in the present or near present as well as in the ancient Greek past
