**National Purpose in the World Economy** Rawi Abdelal, 2018-08-06 How do national identities affect the world economy Building on the insight that nationalisms and national identities endow economic policy with social purpose Rawi Abdelal proposes a novel theoretical framework a distinctively Nationalist perspective on international political economy to answer this question Using this framework and drawing on field research in Lithuania Ukraine and Belarus he provides an in

depth look at the link between national identity and the economic policies of the new states formed by the breakup of the Soviet Union All these states from the Baltic coast to central Asia were economically dependent on Russia during the 1990s However they reacted very differently to that dependence and their reactions can be traced Abdelal contends to their individual societies Some such as Belarus found dependence inevitable and sought economic reintegration with Russia Others like Lithuania interpreted dependence as a large scale security threat and reoriented their economies away from Russia A third group typified by Ukraine demonstrated no coherent economic policy at all regarding dependence Abdelal distinguishes the Nationalist tradition in international political economy from the Realist tradition and shows that economic nationalism is different than mercantilism He demonstrates the ways that national identity affects economic policy and explains why some governments seek economic autonomy while others prefer regional reintegration He then applies his approach to other cases of economic reorganization after the end of empire eastern Europe in the 1920s after the Habsburgs 1950s Indonesia and French West Africa in the 1960s *National Identity, Popular Culture and Everyday Life* Tim Edensor, 2020-06-15 The Millennium Dome Braveheart and Rolls Royce cars How do cultural icons reproduce and transform a sense of national identity How does national identity vary across time and space how is it contested and what has been the impact of globalization upon national identity and culture This book examines how national identity is represented performed spatialized and materialized through popular culture and in everyday life National identity is revealed to be inherent in the things we often take for granted from landscapes and eating habits to tourism cinema and music Our specific experience of car ownership and motoring can enhance a sense of belonging whilst Hollywood blockbusters and national exhibitions provide contexts for the ongoing and often contested process of national identity formation These and a wealth of other cultural forms and practices are explored with examples drawn from Scotland the UK as a whole India and Mauritius This book addresses the considerable neglect of popular cultures in recent studies of nationalism and contributes to debates on the relationship between high and low culture *Turkey's Kurdish Question from an Educational Perspective* Adem Ince, 2017-11-15 Turkey's Kurdish question is a long standing issue which gained special importance after the start of armed conflict between Kurdish insurgents and Turkish security forces Despite multiple failed attempts to solve the Kurdish question it remains the most significant issue in Turkey today This book approaches Turkey's Kurdish question for the first time from an educational perspective It scrutinizes the relationship between the ideological Kemalist education and the challenges facing Kurdish pupils educated in Turkish public schools Turkey's Kurdish Question from an Educational Perspective represents a comprehensive examination of all major factors in education teachers curriculum policy documents educational attainments and textbooks that might possibly affect Kurds It sheds a critical spotlight on the educational side of the issue offering a summary of existing challenges ways to deal with these problems and the proposal of long term solutions to achieve permanent peace in the region *National Politics and Sexuality in Transregional Perspective* Achim

Rohde, Christina von Braun, Stefanie Schüler-Springorum, 2017-11-28 *National Politics and Sexuality in Transregional Perspective* explores how modern identity politics around the world are gendered and sexualized in multiple ways. Constructions of the imagined collective self often contain references to a heteronormative order whereas relevant internal or external others are often felt to deviate from this order through their gendered or sexual practices. By contrast, some Western countries have witnessed the evolution of LGBTQI friendly discourses by certain political actors in recent years, often in the context of the post 9/11 culture wars. This pathbreaking book focuses on perceptions of self and other in Europe, the Middle East and North Africa from a gendered perspective. It deals with anti LGBTQI as well as LGBTQI friendly aspects of modern culture and politics in countries within these regions, focusing on the functions such discursive markers play in nationalist and racist imageries in discourses legitimizing class differences from the nineteenth century to the present day, including globalized discourses in the context of 9/11 and its aftermath. It shows that discourses on sexuality and gendered performances in everyday life often undermine the stability of such binary constructions as they point to the multiplicity, ambivalence and the indeterminate character of individual and collective identities under conditions of modernity. Addressing contemporary identity politics both in a wider historical context and within a transregional comparative framework, thus helps to discern differences and similarities between different world regions and serves to dislocate essentialized notions of cultural differences based on gender and sex. This book will appeal to those with an interest in Political Sociology, Gender Studies and Globalisation.

*National Poetry, Empires and War* David Aberbach, 2016-09-13 Nationalism has given the world a genre of poetry bright with ideals of justice, freedom and the brotherhood of man, but also at times burning with humiliation and grievance, hatred and lust for revenge, driving human kind as the Austrian poet Grillparzer put it: From humanity via nationality to bestiality. *National Poetry, Empires and War* considers national poetry and its glorification of war from ancient to modern times in a series of historical, social and political perspectives. Starting with the Hebrew Bible and Homer and moving through the Crusades and examples of subsequent empires, this book has much on pre-modern national poetry but focuses chiefly on post-1789 poetry which emerged from the weakening and collapse of empires as the idealistic liberalism of nationalism in the age of Byron, Whitman, D. Annunzio, Yeats, Bialik and Kipling was replaced by darker purposes culminating in World War I and the rise of fascism. Many national poets are the subject of countless critical and biographical studies, but this book aims to give a panoramic view of national poetry as a whole. It will be of great interest to any scholars of nationalism, Jewish Studies, history, comparative literature and general cultural studies.

**Turbo-folk Music and Cultural Representations of National Identity in Former Yugoslavia** Uroš Čvoro, 2016-03-03 Turbo folk music is the most controversial form of popular culture in the new states of former Yugoslavia. Theoretically ambitious and innovative, this book is a new account of popular music that has been at the centre of national, political and cultural debates for over two decades. Beginning with 1970s Socialist Yugoslavia, Uroš Čvoro explores the cultural and political paradoxes of turbo folk described as

backward music whose misogynist and Serb nationalist iconography represents a threat to cosmopolitanism turbo folk s iconography is also perceived as a genuinely Balkan form of resistance to the threat of neo liberalism Taking as its starting point turbo folk s popularity across national borders voro analyses key songs and performers in Serbia Slovenia and Croatia The book also examines the effects of turbo on the broader cultural sphere including art film sculpture and architecture twenty years after its inception and popularization What is proposed is a new way of reading the relationship of contemporary popular music to processes of cultural political and social change and a new understanding of how fundamental turbo folk is to the recent history of former Yugoslavia and its successor states *Democracy and the*

*Post-Totalitarian Experience* ,2005-01-01 This book presents the work of Polish and American philosophers about Poland s transition from Communist domination to democracy Among their topics are nationalism liberalism law and justice academic freedom religion fascism and anti Semitism Beyond their insights into the ongoing situation in Poland these essays have broader implications inspiring reflection on dealing with needed social changes *The International Social Survey*

*Programme 1984-2009* Max Haller,Roger Jowell,Tom W Smith,2009-09-11 The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research **Storia della storiografia** ,2007
