

National security policy

Security committee of Pakistan, it approved the first ever national security of Pakistan on 27 December 2021. National security policy we announced after APS attacks but the first ever comprehensive document and the comprehensive policy about national security was unveiled in 2021. The draft was presented to the national security committee which was approved.

Here your fundamental argument over here that we must ensure the safety and security of all the citizens of Pakistan, but this is the first ever security policy in Pakistan which is comprehensive and holistic. Which not only covers the internal dimensions but also the external dimensions. It not only covers the economic dimensions but also the territorial security dimensions. And when we say internal security, it refers to a very very broad debate of maintaining law and order and you know: covering terrorism, extremism, as well as countering insurgencies in Pakistan, now the third main component is economic security that is key to the overall national security of Pakistan. Without having economic security, the dream of achieving national security will be near to impossible. Another major component of the state's good governance. As by governance we mean improving the service delivery of the governmental departments and especially with respect to the national law enforcement agencies as well as economic policymakers that is also key to ensure the national security of Pakistan. Another dimension of the national security was documented in that. That is about human security aspects, nothing human skills concept that is a relatively new concept in the modern knowledge and modern literature. It just can be the security of individual people. Just can be their political security, economic security. Seven different security threats could identify security, but they all relate to the security of individuals groups and communities. Another security dimension that was added to this national security document was the foreign policy. When we say foreign policy obviously Pakistan's security interest whether his other states and especially when Pakistan makes alliances, treaties, agreements with the states how it affects Pakistan's national security that is also being made part of the national security. In the civilian departments, in the law enforcement departments besides the input from the military establishment and the military institutions as well it is an example of the collective wisdom of different governmental bodies including civilian as well as the military is national security documents.
