National Socialism And Gypsies In Austria:

National Socialism and Gypsies in Austria Erika Thurner, 1998 Originally published in German this text is a study of Nazi policy towards gypsies during the Third Reich focusing on Camps Salzburg and Lackenbach The author's research included piecing together fragments from Nazi documents recollections of victims and formal records *The CASSIA Spy Ring in World War II Austria* C. Turner, 2017-11-29 After Hitler annexed Austria in 1938 the Gestapo began silencing critics Many were shipped to concentration camps those deemed most dangerous to the Reich were executed Yet a few slipped through the Gestapo's net and organized resistance cells One group codenamed CASSIA became America's most effective spy ring in Austria during World War II This first full length account of CASSIA describes its contributions to the Allied war effort including reports on the V 2 missile Nazi death camps and advanced combat aircraft and tanks before a catastrophic intelligence failure sent key members to the guillotine firing squad or gas chamber **Burgenland** David Joseph, 2023-05-15 A dazzling multi generational examination exploring Jewishness in Europe the Holocaust and the dark spectres of anti Semitism and populism *"Gypsy" Camps Salzburg and Lackenbach* Erika Thurner, 1983 Originally published in German Erika Thurner's *National Socialism and Gypsies in Austria* is the ground breaking study of Nazi policy toward Gypsies during the Third Reich As noted in the foreword although Jews were the major target of the Nazis others were also marked for extermination Indeed of the groups targeted by the Nazis only Jews and Gypsies were killed indiscriminately and tribally that is by the gassing of entire family groups of men women and children Of the eleven thousand Gypsies living in Austria at the start of the war only three thousand survived Nazi persecution In the first English translation of this important work Gilya Gerda Schmidt makes available Thurner's investigation of Camps Salzburg and Lackenbach the two central areas of Gypsy persecution in Austria This English translation has also been expanded with a new study of Camp Salzburg an updated bibliography and numerous photographs which were not included in the German edition Nomadic Peoples and Human Rights Jérémie Gilbert, 2014-03-26 Although nomadic peoples are scattered worldwide and have highly heterogeneous lifestyles they face similar threats to their mobile livelihood and survival Commonly nomadic peoples are facing pressure from the predominant sedentary world over mobility land rights water resources access to natural resources and migration routes Adding to these traditional problems rapid growth in the extractive industry and the need for the exploitation of the natural resources are putting new strains on nomadic lifestyles This book provides an innovative rights based approach to the issue of nomadism looking at issues including discrimination persecution freedom of movement land rights cultural and political rights and effective management of natural resources Jeremie Gilbert analyses the extent to which human rights law is able to provide protection for nomadic peoples to perpetuate their own way of life and culture The book questions whether the current human rights regime is able to protect nomadic peoples and highlights the lacuna that currently exists in international human rights law in relation to nomadic peoples It goes on to propose avenues for the

development of specific rights for nomadic peoples offering a new reading on freedom of movement land rights and development in the context of nomadism The Jews in Poland and Russia Antony Polonsky,2012-02-09 A comprehensive socio political economic and religious history an important story whose relevance extends beyond the Jewish world or the bounds of east central Europe *Encyclopedia of the World's Minorities* Carl Skutsch,2013-11-07 This study of minorities involves the difficult issues of rights justice equality dignity identity autonomy political liberties and cultural freedoms The A Z Encyclopedia presents the facts arguments and areas of contention in over 560 entries in a clear objective manner For a full list of entries contributors and more visit the Encyclopedia of the World s Minorities website **Terrortimes, Terrorspaces** Volker Benkert,Michael Mayer,2022-09-15 Terrortimes Terrorspaces Continuities of Space Time and Memory in Twentieth Century War and Genocide investigates interconnections between space and violence throughout the twentieth century and how such connections informed collective memory The interdisciplinary volume shows how entangled notions of time and space amplified by memory narratives led to continuities of violence across different conflicts creating terrortimes and terrorspaces in their wake The volume examines such continuities of violence with the help of an analytical framework built around different themes Its first part spatial and temporal continuities of violence looks at contested spaces and ideas of national ethnic or religious homogeneity that are often at the heart of prolonged conflicts The second part on states and actors addresses the role of states as enablers of violence asymmetric power dynamics and the connection between imperialism and genocide in Africa Imagination and emotion the focus of the third part explores utopian visions and their limits that instigate or hinder and the mobilization of emotion through propaganda Finally the fourth part shows how the recollection of the past sometimes triggers new terrortimes Departing from an understanding of violence limited to certain areas and time frames this volume describes continuities of violence as overlapping fabrics woven together from notions of space time and memory **Deportations in the Nazi Era** Henning Borggräfe,Akim Jah,2022-11-21 During the Nazi era about three million Jews half the victims of the Holocaust were deported from the German Reich the occupied territories as well as Nazi allied countries and sent to ghettos camps and extermination centers The police and the SS also deported tens of thousands of Sinti and Roma mainly to the Auschwitz concentration and extermination camp where most of them were killed Deportations were central to National Socialist persecution and extermination In November 2020 an international conference organized by the Arolsen Archives focused on the various historical sources their research potential and digital methods of cataloging them It also explored new systematizing and comparative approaches in historical research This volume features over 20 contributions by scholars from different countries and with a variety of perspectives and questions The main geographical focus is on deportations from the German Reich and German occupied Southeastern Europe *Salzburg and the Jews* Stan Nadel,2009-04-01 When I moved to Salzburg in 2002 I followed in the footsteps of thousands of others and fell in love with this quaint old city and its beautiful surroundings I am a historian by trade and I was enchanted with walking the

city's streets and identifying where various historical events had taken place I am also Jewish so I read all I could about the history of Jews in Salzburg and began to fit what I learned into the geography of the streets and buildings that I so much enjoyed As I learned more about the city and its history I found it unsettling to see the shadows of a very ugly past in the city I have come to love I liked my first apartment but I was not happy that one of Adolf Eichmann's associates lived in an apartment downstairs after it had been taken away from an elderly Jewish man There are many such shadows in Salzburg but it remains a beautiful city with many attractions I certainly do not want to discourage anyone from coming to Salzburg to enjoy as I do its beauty culture food and wonderful beers To the contrary I would like to encourage others to come and share my pleasure But I also want to share what I have learned with visitors to Salzburg who might like to know about some aspects of its history that are often neglected by the standard tourist guidebooks

From the Preface *The Memoirs of Ceija Stojka, Child Survivor of the Romani Holocaust* Ceija Stojka, 2022 First English translation of the memoirs of Austrian Romani Holocaust survivor writer visual artist musician and activist Ceija Stojka 1933 2013 along with poems an interview historical photos and reproductions of her artworks Is this the whole world This question begins the first of three memoirs by Austrian Romani writer visual artist musician and activist Ceija Stojka 1933 2013 told from her perspective as a child interned in three Nazi concentration camps from age nine to twelve Written by a child survivor much later in life the memoirs offer insights into the nexus of narrative and extreme trauma expressing the full spectrum of human emotions fear and sorrow at losing loved ones joy and relief when reconnecting with family and friends desire to preserve some memories while attempting to erase others horror at acts of genocide and hope arising from dreams of survival In addition to annotated translations of the three memoirs the book includes two of Stojka's poems and an interview by Karin Berger editor of the original editions of Stojka's memoirs as well as color reproductions of several of her artworks and historical photographs An introduction contextualizes her works within Romani history and culture and a glossary informs the reader about the concentrationary universe Because the memoirs show how Stojka navigated male dominated postwar Austrian culture generally discriminatory to Roma and the patriarchal aspects of Romani culture itself the book is a contribution not only to Holocaust Studies but also to Austrian Studies Romani Studies and Women's and Gender Studies

The People's Dictatorship Alan E. Steinweis, 2023-01-26 An up to date succinct and highly readable survey of a compelling subject making accessible classic and recent research on Nazi Germany

Visions and Visionaries in Contemporary Austrian Literature and Film Margarete Lamb-Faffelberger, Pamela S. Saur, 2004 Visions and Visionaries is an apt title for this volume of essays on contemporary Austrian literature and film because this collection offers insightful discussions of a gallery of significant authors and cultural figures It also investigates important issues of style and genre and portrays questions of Austrian identity and culture in rich contexts of recent literary and multi media developments cross cultural interactions and historical forces This book encompasses relevant trends and notions from the past especially the complexities of lingering effects of the

Nazi era along with issues of the future in particular the present and anticipated interactions of culture and cyberspace The essays are enhanced by poems by Evelyn Schlag and Gerhard Kofler *The Routledge Handbook to Auschwitz-Birkenau* Sarah M. Cushman, Joanne Pettitt, Dominic Williams, 2025-08-12 This handbook examines Auschwitz Birkenau as both a site and a symbol of Nazi genocide Scholars from a range of disciplinary perspectives consider Auschwitz s history by engaging with Holocaust historiography and its place in Holocaust memory and representation illustrating their mutual influence The chapters bring new insights to topics that other studies of Auschwitz have explored before such as the Sonderkommando the Czech family camp and literary representations of Auschwitz Other chapters cover recent developments and more neglected areas such as the experience and memory of Romani prisoners the fate of Soviet prisoners of war and Auschwitz s presence on social media The handbook also responds to a number of recent trends and new paradigms in Holocaust Studies including contributions from the fields of Environmental Studies Spatial Studies and Gender Studies As a crucial overview of the topic of Auschwitz Birkenau and an introduction to its most recent and fruitful scholarly approaches this handbook will be a valuable resource for undergraduates from second year and up as well as for graduate students and researchers seeking a survey of the field **Historical Dictionary of World War II** Anne Sharp Wells, 2013-12-24 This dictionary covers the complex and costly conflict that began when Germany ruled by Adolf Hitler and the Nazi Party invaded neighboring Poland on 1 September 1939 and concluded when Germany surrendered on 7 9 May 1945 leaving much of the European continent in ruins and its population devastated The war against Germany Italy and the other European Axis members was fought primarily in Europe the Mediterranean the Middle East East and North Africa and the Atlantic Ocean The Axis powers were defeated by the Allies led by the Grand Alliance of Great Britain the United States and the Union of Soviet Socialist Republics The Historical Dictionary of World War II The War against Germany and Italy relates the history of this war through a chronology an introductory essay maps and photos and an extensive bibliography The dictionary section has more than 300 cross referenced entries on the countries and geographical areas involved in the war as well as the nations remaining neutral wartime alliances and conferences significant civilian and military leaders and major ground naval and air operations This book is an excellent access point for students researchers and anyone wanting to know more about World War II *Roma Voices in the German-Speaking World* Lorely French, 2015-05-21 The Roma are Europe s largest minority and yet they remain one of the most misunderstood and underrepresented Scholarship on the Roma in German speaking countries has focused mostly on the portrayal of Zigeuner Gypsies in literature by non Roma and on persecution during the Nazi period Rarely have scholars examined the actual voices of Roma to glean their perspectives on their social interactions and customs Without such studies the Roma appear passive in the face of their long and troubled history With a basis in theories of intersectionality subalternity and cultural hybridity *Roma Voices in the German Speaking World* rectifies this image of passivity by analyzing autobiographies folktales and novels by Roma thereby promoting a better understanding of the

multifaceted and multifarious cultures alive today in Germany Austria and Switzerland In documenting their voices Roma writers unveil the large extent to which their personal lives their social interactions with other Roma and non Roma and the images they project of their values and traditions are highly influenced by gender and ethnicity Anthropological and historical studies have frequently portrayed Romani groups as displaying a patriarchal social structure with highly demarcated roles for men and women In contrast the significant parts that both men and women play in disseminating autobiographical fictional and historical narratives challenge this ubiquitous notion of largely patriarchal Romani cultures The insights that both sexes provide on the relationship between gender and ethnicity in the context of cultural taboos norms and expectations unveil the complexities and diversities inherent in any minority group and its relationship to the dominant society

The Dictators: Hitler's Germany, Stalin's Russia Richard Overy,2006-01-17 A book of great importance it surpasses all others in breadth and depth Commentary If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction at the heart of darkness may be found Hitler Stalin and the systems of domination they forged Their lethal regimes murdered millions and fought a massive deadly war Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people In the first major historical work to analyze the two dictatorships together in depth Richard Overy gives us an absorbing study of Hitler and Stalin ranging from their private and public selves their ascents to power and consolidation of absolute rule to their waging of massive war and creation of far flung empires of camps and prisons The Nazi extermination camps and the vast Soviet Gulag represent the two dictatorships in their most inhuman form Overy shows us the human and historical roots of these evils

Diaspora, Memory and Identity Vijay Agnew,2005-01-01 Memories establish a connection between a collective and individual past between origins heritage and history Those who have left their places of birth to make homes elsewhere are familiar with the question Where do you come from and respond in innumerable well rehearsed ways Diasporas construct racialized sexualized gendered and oppositional subjectivities and shape the cosmopolitan intellectual commitment of scholars The diasporic individual often has a double consciousness a privileged knowledge and perspective that is consonant with postmodernity and globalization The essays in this volume reflect on the movements of people and cultures in the present day when physical social and mental borders and boundaries are being challenged and sometimes successfully dismantled The contributors from a variety of disciplinary perspectives discuss the diasporic experiences of ethnic and racial groups living in Canada from their perspective including the experiences of South Asians Iranians West Indians Chinese and Eritreans Diaspora Memory and Identity is an exciting and innovative collection of essays that examines the nuanced development of theories of Diaspora subjectivity double consciousness gender and class experiences and the nature of home

The Holocaust David M. Crowe,2018-05-04 This book details the history of the Jews their two millennia old struggle with a larger Christian world and the historical anti Semitism that created the environment that helped pave the way for the

Holocaust It helps students develop the interpretative skills in the fields of history and law Historicizing Roma in Central Europe Victoria Schmidt, Bernadette Nadya Jaworsky, 2020-09-13 In Central Europe limited success in revisiting the role of science in the segregation of Roma reverberates with the yet unmet call for contextualizing the impact of ideas on everyday racism This book attempts to interpret such a gap as a case of epistemic injustice It underscores the historical role of ideas in race making and provides analytical lenses for exploring cross border transfers of whiteness in Central Europe In the case of Roma the scientific argument in favor of segregation continues to play an outstanding role due to a long term focus on the limited educability of Roma The authors trace the long term interrelation between racializing Roma and the adaptation by Central European scholars of theories legitimizing segregation against those considered non white conceived as unable to become educated or civilized Along with legitimizing segregation sterilization and even extermination theorizing ineducability has laid the groundwork for negating the capacity of Roma as subjects of knowledge Such negation has hindered practices of identity and quite literally prevented Roma in Central Europe from becoming who they are This systematic epistemic injustice still echoes in contemporary attempts to historicize Roma in Central Europe The authors critically investigate contemporary approaches to historicize Roma as reproducing whiteness and inevitably leading to various forms of epistemic injustice The methodological approach herein conceptualizes critical whiteness as a practice of epistemic justice targeted at providing a sustainable platform for reflecting upon the impact of the past on the contemporary situation of Roma
