*Reading Sex in the Eighteenth Century* Karen Harvey, 2004

Publisher Description [Historic House Museums in the United States and the United Kingdom](#) Linda Young, 2016-12-13

Historic House Museums in the United States and the United Kingdom A History addresses the phenomenon of historic houses as a distinct species of museum Everyone understands the special nature of an art museum a national museum or a science museum but house museum nearly always requires clarification In the United States the term is almost synonymous

with historic preservation in the United Kingdom it is simply unfamiliar the very idea being conflated with stately homes and the National Trust By analyzing the motivation of the founders and subsequent keepers of house museums Linda Young identifies a typology that casts light on what house museums were intended to represent and their significance or lack thereof today This book examines heroes houses once inhabited by great persons e g Shakespeare s birthplace Washington s Mount Vernon artwork houses national identity as specially visible in house design style and technique e g Frank Lloyd Wright houses Modernist houses collectors houses a microcosm of collecting in situ domesticu subsequently presented to the nation as the exemplars of taste e g Sir John Soane s Museum Isabella Stewart Gardner Museum English country houses the palaces of the aristocracy maintained thanks to primogeniture but threatened with redundancy and rescued as museums to be touted as the peak of English national culture English country houses the palaces of the aristocracy maintained for centuries thanks to primogeniture but threatened by redundancy and strangely rescued as museums now touted as the peak of English national culture Everyman woman s social history houses the modern demotic response to elite houses presented as social history but tinged with generic ancestor veneration e g tenement house museums in Glasgow and New York A Journey Through Ruins Patrick Wright,2009-02-26 A unique evocation of Britain at the height of Margaret Thatcher s rule A Journey Through Ruins views the transformation of the country through the unexpected prism of every day life in East London Written at a time when the looming but still unfinished tower of Canary Wharf was still wrapped in protective blue plastic its cast of characters includes council tenants trapped in disintegrating tower blocks depressed gentrifiers worrying about negative equity metal detectorists sharp eyed estate agents and management consultants and even Prince Charles Cutting through the teeming surface of London it investigates a number of wider themes the rise and dramatic fall of council housing the coming of privatization the changing memory of the Second World War once used to justify post war urban development and reform but now seen as a sacrifice betrayed Written half a century after the blitz the book reviews the rise and fall of the London of the post war settlement It remains one of the very best accounts of what it was like to live through the Thatcher years **The Victorian Parlour** Thad Logan,2001-07-05 The parlour was the centre of the Victorian home and as Thad Logan shows the place where contemporary conflicts about domesticity and gender relations were frequently played out In The Victorian Parlour A Cultural Study Logan uses an interdisciplinary approach that combines the perspectives of art history social history and literary theory to describe and analyse the parlour as a cultural artefact She offers a detailed investigation of specific objects in the parlour and argues that these things articulated social meaning and could present symbolic resolutions to disturbances in the social field The book concludes with a discussion of how representations of the parlour in literature and art reveal the pleasures and anxieties associated with Victorian domestic life

**Faded and Threadbare Historic Textiles and their Role in Houses Open to the Public** Margaret Ponsonby,2016-04-15 Many historic houses that open to the public in England and Wales particularly those owned by the

National Trust preserve their contents rather than restore them to a particular period The former owners of these houses often retained objects from various periods and this layering of history produces interiors that look aged and patinated Although the reason for this preservation and lack of fashionable renewable can be attributed to declining economic fortunes in the twentieth century there are many examples of families practising this method of homemaking over a much longer period Taking National Trust properties as its central focus this book examines three interlocking themes to examine the role of historic textiles Firstly it looks at houses with preserved contents together with the reasons for individual families choosing this lifestyle secondly the role of the National Trust as both guardian and interpreter of these houses and their collections and finally and most importantly the influence of textiles to contribute to the appearance of interiors and their physical attributes that carry historical resonances of the past The importance of preserved textiles in establishing the visual character of historic houses is a neglected area and therefore the prominence given to textiles in this project constitutes an original contribution to the study of these houses Drawing upon a range of primary sources including literature produced by the National Trust for their sites and documentary sources for the families and their houses such as diaries letters and household accounts the study takes a broad approach that will be of interest to all those with an interest in material culture heritage collecting studies and cultural history

Between Design and Making Andrew Tierney, Melanie Hayes, 2024-07-08

The seventeenth and eighteenth centuries represent a high point in the intersection between design and workmanship Skilled artisans creative and technically competent agents within their own field worked across a wide spectrum of practice that encompassed design supervision and execution and architects relied heavily on the experience they brought to the building site Despite this the bridge between design and tacit artisanal knowledge has been an underarticulated factor in the architectural achievement of the early modern era Building on the shift towards a collaborative and qualitative analysis of architectural production Between Design and Making re evaluates the social and professional fabric that binds design to making and reflects on the asymmetry that has emerged between architecture and craft Combining analysis of buildings archival material and eighteenth century writings the authors draw out the professional pedagogical and social links between architectural practice and workmanship They argue for a process oriented understanding of architectural production exploring the obscure centre ground of the creative process the scribbled sketched hatched and annotated beginnings of design on the page the discussions arguments and revisions in the forging of details and the grappling with stone wood and plaster on the building site that pushed projects from conception to completion

Interiors Steven Parissien, 2009

The development of the domestic interior is a history of consumption and taste In Interiors The Home since 1700 for the first time this story is set against the cultural and industrial changes taking place in the western world since the seventeenth century Unlike almost all previous histories this book does not deal exclusively with the grand houses of the aristocracy Steven Parissiens masterly text concentrates rather on the homes of the merchants and middle classes who have been the first to

take advantage of new technologies to furnish and decorate their homes Fully illustrated with contemporary plates from catalogues and books as well as paintings and photography this beautiful book traces a constantly absorbing and often surprising story as it took place all over Western Europe and North America Ideal for all students of and enthusiasts for the domestic interior and period settings Steven Parissiens strong narrative explains not simply what happened but why

**Historic Floors** Jane Fawcett,1998 This is the first book in the UK to be devoted to historic floors It introduces an important and largely neglected subject and considers conservation methods in a European context It traces the history of some of the great floors of Europe from the fourth century B C and outlines the development of mosaic tiles marble and parquet floors in secular buildings The early Christian pavements in basilicas temples and cathedrals the creation of medieval tiles ledger stones and monumental brasses their destruction by iconoclasts and re creation during the Gothic Revival are also discussed Leading authorities archaeologists architects and archivists consider the latest methods of recording and repairing cathedral floors including those of cathedrals country houses the monumental tiled pavements of the Palace of Westminster and other public buildings Management policies to protect outstanding floors in over visited sites are considered and historic features particularly at risk are identified Urgent action is recommended to contain the damage caused by the dramatic increase in tourism throughout Europe The first book in the UK to be devoted to historic floors Contributions from leading practitioners in their field *Design and Plan in the Country House* Andor Harvey Gomme,Austin Harvey Gomme,Alison Maguire,2008-01-01 The way a man thinks about his day to day living and the needs of his household reveals a great deal about his ambitions his idea of himself and his role in the community And his house or castle offers many clues to his habits as well as those of the members of his household This intriguing book explores the evolution of country house plans throughout Britain and Ireland from medieval times to the eighteenth century With photographs and detailed architectural plans of each house under discussion the book presents a whole range of new insights into how these homes were designed and what their varied designs tell us about the lives of their residents Starting with fortified medieval tower houses the book traces patterns that developed and sometimes repeated in country house design over the centuries It discusses who slept in the bedchambers where food was prepared how rooms were arranged for official and private activities what towers signified and more Groundbreaking in its depth the volume offers a rare tour of country houses for scholar and general reader alike **The Heritage Industry** Robert Hewison,2023-02-03 First published in 1987 The Heritage Industry sets out to protect the present and the future of life in Britain from their most dangerous enemy a creeping takeover by the past The author sets today s obsession with yesterday in the context of a climate of social and political decline The economic uncertainties and cultural convulsions of post war life have made the past seem a pleasanter and safer place But how true is that image of the past and whose past is it anyway Hewison questions the way institutions like the National Trust are helping to create a past that never was While the real economy crumbles a new force is taking

over the Heritage Industry a movement dedicated to turning the British Isles into one vast open air museum This book will be of interest to students of history art and cultural studies      **American House Styles** John Milnes Baker, 1994 America has an abundance of fascinating and varied house styles as fascinating and diverse as its people This unique book will allow readers to recognize the architectural features and style of virtually any house they encounter      **The Cumulative Book Index** , 1990 A world list of books in the English language
