Forging the Nation SiuSue Mark, 2023 On February 1 2021 Myanmar was thrown into a state of crisis by a military coup abruptly ending a decade of civilian rule The junta imprisoned the political opposition and deployed lethal force to quell dissent thinking that most people would meekly acquiesce However they underestimated the tenacity of the nascent democracy that had taken root in the last decade Instead a civil disobedience movement quickly emerged with people going on strike across the country to prevent the junta from exerting control which was soon followed by armed struggle among urban youth Forging the Nation Land Struggles in Myanmar s Transition Period examines how democratic institutions were fought over and built from 2011 to 2020 through the lens of land politics This book explains how the differences in outcomes in the contest over land are situated in the specific historic and political contexts of Myanmar s states and regions despite them being subject to the same national dynamics As Myanmar is an agriculture based economy involving two thirds of the population land remains a coveted asset in the era of the global land rush referring to the intensification of capital s pursuit of land since the food price surges in 2008 2009 Thus land is also the ideal lens through which to understand the dynamics of a country that underwent a three part transition towards democracy towards peace with a national ceasefire and towards open markets after the lifting of sanctions by the West Against a fraught democratization process that unfolded from 2011 to 2020 Forging the Nation looks at how state and societal actors in Myanmar s multiethnic society recovering from over seven

decades of civil war negotiated land politics to shape democratic land institutions By exploring the interaction of the democratic transition ethnic politics and global capital pressures on land across national regional and local scales this book provides an overarching frame that pulls together these three facets that are usually treated separately in the literature Finally by emphasizing the co constituent relationship between democratization and land politics this book makes a unique contribution to understanding the role of land in political economic transitions
