

This report has been prepared under the auspices of the Federal Disaster Risk Management Technical Working Group, co-chaired by the National Disaster Risk Management Commission (NDRMC) and UNHCR, with participation of Sector Co-Chairs (Government Line Ministries and Cluster Coordinators). It covers the period from 01 to 31 October 2017.

Highlights

- The Government, with support from humanitarian partners, continues to address the triple challenge of drought, food and inter-communal conflict, but resources are stretched.
- The Government and humanitarian partners have jointly been conducting verification assessments in two areas affected by the Oromia-Somali inter-communal conflict to identify the scope of humanitarian needs and provide first-line assistance. With available resources, the IS/MPF Cluster can only address 80 per cent of the identified needs for 120,000 households.
- Government and partners released an NRC Status Update on 18 October highlighting all outstanding 2017 NRC/MPF requirements against revised sector requirements.

Situation Overview

Government and partners responding to drought, food and conflict-induced humanitarian needs

The Government, with support from humanitarian partners, continues to address the triple challenge of drought, food and inter-communal conflict, but resources are stretched. As of the end of October, Round 8 relief food distribution reached at 78 per cent in the Government/National Disaster Risk Management Commission (NDRMC)-covered areas targeting 5.2 million people nationwide, while IS/MPF Cluster 18 million was allocated for 2.4 million cash beneficiaries.

In Somali region, WFP is providing assistance through a combination of initiatives, based on needs, including central food assistance, food 'top-up' (vegetable oil and pulses) to people receiving cash assistance from the Government, and a cash pilot project. Accordingly, 1.7 million people identified in the Humanitarian Requirements Document (HRD) Mid-Year Review are receiving relief food assistance, 1.7 million WFP/MPF Government cash clients with remaining needs are receiving top-up of vegetable oil and pulses, while some 888,000 beneficiaries are receiving cash-based support as part of the NRC/MPF cash pilot. Round 8 relief food distribution, cover at 78 per cent in the Joint Emergency Operation Program (JEOP)-covered areas targeting 1.8 million beneficiaries.

To meet the water needs of communities in drought-affected areas, the Government and WFP partners have deployed 108 trucks (of 208 trucks requested) – down from 178 trucks requested in April. At least 2.4 million people have benefited from water trucking service to date. In parallel, permanent water systems are being put in place as a longer term solution in areas experiencing recurrent droughts. Separately, 80,000 fuel emergency shelter and MPF kits were distributed to drought and food-displaced households in six regions (Bambasi-Jenji and October 2017, including cash-grants for 1,700 households.

Between January and September, 209,820 malnourished children were treated with good quality of care nationwide, with 8.8 per cent of children admitted in malnutrition centers for equivalent medical care (data data available). This is below the 10 per cent emergency threshold, although variation exists across regions. The total admission recorded in September represents 80 per cent of the January-September projection in the NRC/MPF HRD.

Coordinated efforts to have a better integrated general relief food distribution (GRFD), nutrition, health and WFP interventions are showing positive results. In Somali region, for example, admissions of severe acute malnutrition (SAM) cases in September fell by 27 per cent to 4,408 new cases compared to August. Although the success is encouraging, the current level of intervention should be maintained to avoid a relapse given the still dire nutritional situation in the region. In partnership with the Somali Regional State Disaster Prevention Preparedness Bureau, the Regional Health Bureau and NRC/MPF, WFP plans to distribute targeted supplementary

feeding (SRF) communities in Somali region starting from the first week of November, to supplement general
