Landscaping and gardening are great careers for people who like to work primarily outdoors. Landscapers are mostly concerned with the places where plants grow and how the land is used, whereas gardeners pay most of their attention to the plants themselves. Some of these occupations are the same as they have been for thousands of years, and some are new, made possible by computers and other scientific advances. In this insightful volume, readers investigate a wide range of jobs and responsibilities, including landscape architects and designers concentrating on community planning, environmental restoration, or therapeutic gardens; landscapers working at nurseries and greenhouses, golf courses, sports complexes, as turf specialists; and gardening TV shows and arborists earning their living as tree surgeons at arboreta and botanical gardens. Such practical details as job preparation and training, professional certification, networking, compiling a résumé, and the pros and cons of being your own boss are considered.

From Grass to Gardens Janet Lembke, 2006-01-01. Inspires, sustains, surprises, and consoles. *National Geographic Traveler* for River Time. The good stuff. Not only good history but an engaging intellectual autobiography. Sue Hubbell. *New York Times Book Review* for *Dangerous Birds*. Janet Lembke loves to garden. But when she moved into her urban home in Virginia, she only had one eighth of an acre to work with, a small front yard and a small backyard. How she traded a postage stamp lawn for an edible cornucopia is what this enchanting book is all about. Lembke joyfully guides us on her gardening journey in chapters called *Tomato Haven*, *The Grass Extermination Project*, *Tools of the Trade*, *How a Garden Grows*, *Herbs*, *Flowers*, *Vegetables*, *Outwitting the Gardener*, *Wooing the Green Man*, *Courting Dame Kind*, and *Garden Dreams*. *From Grass to Garden* is chock full of tips and advice for gardeners with tiny plots, including what plants are compatible with others, garden paths, and seating; what vegetables and plants work best in front versus backyards, and more. She offers everything a hopeful gardener needs to reap bounty for the kitchen table from what was once a small pesky lawn.
