saucers Watch the Skies chronicles the arrival and invasion of the UFO myth in American popular culture Curtis Peebles recounts in detail the record of sightings contacts and abductions over nearly fifty years among them The Classics of 1948 the Invasion of Washington and the famous swamp gas sighting that led to the Condon Report Drawing on sources ranging from Air Force files to pulp magazines to popular movies such as Close Encounters of the Third Kind Peebles shows how mania about UFOs took hold of society in different ways Peebles shows how supposed eye witness accounts published in the late 1940s and early 1950s pulp magazines like Amazing Stories and True led decades later to wild ravings about underground bases where aliens waited to enslave humanity and about treaties between the government and aliens On another level Peebles shows organizations were established to try to induce the Air Force as the official government arm that investigated claims of UFOs to release alleged hard evidence of an alien presence A skeptic with an encyclopedic knowledge of UFO lore and history Peebles critically assesses the past record and more recent claims involving cattle mutilations abductions Air Force test flights of UFOs and the existence of a mach 8 superplane called Aurora This thoroughly researched chronicle concludes that the flying saucer myth is not really about disk shaped spaceships and their angelic or demonic pilots Rather like earlier mythologies it is an attempt to make order out of the world an expression of our hopes and fears BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
