**Communist and Workers' Parties' Manifesto Adopted November-December, 1960** United States. Congress. Senate. Committee on the Judiciary, 1961 Communist and Workers' Parties' Manifesto Adopted Nov.- Dec., 1960: Interpretation and Analysis United States. Congress. Senate. Committee on the Judiciary. Subcommittee to Investigate the Administration of the Internal Security Act and Other Internal Security Laws, United States. Congress. Senate. Judiciary, 1961 Considers the effects of the 1960 meeting of 81 Communist and workers parties in Moscow on U S relationship with Communist parties and countries **Translations from Kommunist**, 1966 **Daily Report, Foreign Radio Broadcasts** United States. Central Intelligence Agency, 1962 Translations on International Communist Developments, 1961 **Lenin On Anti-Imperialist Wars** Erdogan A, 2020-08-08 On Anti Imperialist Wars Collected writings on the subject from Lenin with addition from Stalin and Enver Hodja *Vietnam and the World* Eero Palmujoki, 2016-07-27 Vietnam and the World is a comprehensive book on Vietnam's international relations since 1975 It is also a study on the development of Marxist Leninist doctrine in Vietnam With its special reference to foreign policy the book examines how formalist Marxist Leninist rhetoric penetrated traditional pragmatically oriented Vietnamese thinking By using previously unexploited Vietnamese material the author pinpoints the development of Vietnamese doctrine vis a vis pragmatism and formalism and analyzes the line pursued by Vietnam during the radical changes in international relation between 1975 and 1993 The Metaphysics of Power Anthony E. Mansueto, 2025-03-18 Mounting a searing critique of Martin Heidegger and Carl Schmidt and their broader influence on the contemporary Left including the work of Giorgio Agamben Alain Badiou and Slavoj Žižek Anthony Mansueto's *The Metaphysics of Power* argues that the common flaw of all contemporary political projects Left and Right is a narrow strategic focus on achieving and holding state power This focus is grounded in a doctrine of sovereignty divine and human rooted in a decisionist political theology which derives ultimately from Paul of Tarsus and which made historic Christianity from the beginning an ideology of empire In the place of this decisionist political theology he proposes that we understand Being and thus God as a relational transformative generativity that acts only as final cause and only from outside space and time making even divine sovereignty logically impossible Seeking to become God but trapped in a contingency that cannot be transcended we create structures that attempt divinity by means of exploiting and oppressing others structures which like the commodification of labor power ultimately strip us of our humanity making resistance impossible And yet we are also lured by the incredible beauty of God to mend the torn fabric of the universe to build and rebuild relationships and institutions which challenge and nurture us and thus to ripen a contingent being that will always fall short of its end but is capable of finding meaning and joy nonetheless **International Affairs**, 1979 **Collections of United States Joint Publications Research Service Translations in the Social Sciences Emanating from Communist China** United States. Joint Publications Research Service, 1962 On the Emergence of the New-Imperialist Countries Stefan

Engel, 2017-09-14 The analysis of the emergence and development of a number of new imperialist countries became necessary because this new phenomenon dramatically calls into question the present fabric of the imperialist world system On the firm foundation of the analysis of imperialism starting from Lenin since 1969 the MLPD has fundamentally and concretely analyzed new manifestations and essential changes using the dialectical materialist method state monopoly capitalism in the Federal Republic of Germany the restoration of capitalism in the Soviet Union and in China the emergence of neocolonialism the reorganization of international production and the development of the environmental crisis This Blue Supplement builds upon this ideological political line worked out in programmatic documents and the system of MLPD's theoretical organ Revolution rer Weg and develops it further The book Dawn of the International Socialist Revolution advanced the thesis of the emergence and development of new imperialist countries for the first time in 2011 The present analysis provides scientific proof of this well founded thesis This analysis is a contribution to a consciousness raising discussion among the masses of workers women and youth In addition it sets out the position of the MLPD vis vis the international revolutionary and working class movement for the discussion on the 100th Anniversary of the Russian October Revolution

**Judiciary** United States. Congress. Senate. Committee on the Judiciary, 1969 The State, Identity, and the National Question in China and Japan Germaine A. Hoston, 2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with the Western democratic model
