**Strategies of Symbolic Nation-building in South Eastern Europe** Pål Kolstø, 2016-04-01 After the conflagration of Tito's Yugoslavia a medley of new and not so new states rose from the ashes Some of the Yugoslav successor states have joined or are about to enter the European Union while others are still struggling to define their national borders symbols and relationships with neighbouring states Strategies of Symbolic Nation building in South Eastern Europe expands upon the existing body of nationalism studies and explores how successful these nation building strategies have been in the last two decades Relying on new quantitative

research results the contributors offer interdisciplinary analyses of symbolic nation building in Albania Bosnia Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia to show that whereas the citizens of some states have reached a consensus about the nation building project other states remain fragmented and uncertain of when the process will end A must read not only for scholars of the region but policy makers and others interested in understanding the complex interplay of history symbolic politics and post conflict transition East Europe ,1969 **Preying on the State** Venelin I. Ganey,2013-07-02 Immediately after 1989 newly emerging polities in Eastern Europe had to contend with an overbearing and dominant legacy the Soviet model of the state At that time the strength of the state looked like a massive obstacle to change less than a decade later the state s dominant characteristic was no longer its overweening powerfulness but rather its utter decrepitude Consequently the role of the central state in managing economies providing social services and maintaining infrastructure came into question Focusing on his native Bulgaria Venelin I Ganey explores in fine grained detail the weakening of the central state in post Soviet Eastern Europe Ganey starts with the structural characteristics of the Soviet satellites and in particular the forms of elite agency favored in the socialist party state As state socialism collapsed Ganey demonstrates its institutional legacy presented functionaries who had become accustomed to power with a matrix of opportunities and constraints In order to maximize their advantage under such conditions these elites did not need a robust state apparatus in fact all of the incentives under postsocialism pushed them to subvert the infrastructure of governance Throughout *Preying on the State* Ganey argues that the causes of state malfunctioning go much deeper than the policy preferences of free marketeers who deliberately dismantled the state He systematically analyzes the multiple dimensions implications and significance of the institutional and social processes that transformed the organizational basis of effective governance **Australian Slavonic and East European Studies** ,2004 **Heritage, Ideology, and Identity in Central and Eastern Europe** Matthew Rampley,2012 Essays looking at heritage practices and the construction of the past along with how they can be used to build a national identity The preservation of architectural monuments has played a key role in the formation of national identities from the nineteenth century to the present The task of maintaining the collective memories and ideas of a shared heritage often focused on the historic built environment as the most visible sign of a link with the past The meaning of such monuments and sites has however often been the subject of keen dispute whose heritage is being commemorated by whom and for whom The answers to such questions are not always straightforward particularly in Central and Eastern Europe the recent history of which has been characterized by territorial disputes the large scale movement of peoples and cultural dispossession This volume considers the dilemmas presented by the recent and complex histories of European states such as Germany Greece Poland Hungary Romania and Bulgaria Examining the effect of the destruction of buildings by war the loss of territories or the unwanted built heritage of the Communist and Nazi regimes the contributors examine how architectural and urban sites have been created destroyed or transformed in the attempt to make

visible a national heritage Matthew Rampley is Professor of History of Art at the University of Birmingham Contributors Matthew Rampley Juliet Kinchin Paul Stirton Susanne Jaeger Arnold Bartetzky Jacek Friedrich Tania Vladova George Karatzas Riitta Oittinen The Evolution of Civil-Military Relations in South East Europe Philipp H. Fluri, Gustav E. Gastenau, Plamen I. Pantev, 2005-08-04 This book authored by a multi national team draws a complicated yet logically evolving picture of the problems in the security sector reform field of South East Europe examining the post totalitarian and post conflict challenges to be faced **Communism in Eastern Europe** Teresa Rakowska-Harmstone, 1984 **The Experience of Democratization in Eastern Europe** Richard Sakwa, 1999-05-17 Drawing on a selection of papers presented to the Fifth World Congress of Central and East European Studies held in Warsaw in August 1995 the book presents a broad cross section of thinking about postcommunist developments in Eastern Europe and the former Soviet Union Specialists from the region and the West apply their unique insights to challenge some conventional views on the transition The book is both diverse and focused suggesting that the experience of democratisation is an open ended process in which those involved learn both from their own experience and from comparative transitions elsewhere It provides a rich source for the comparative analysis of democratisation Developments in Central and East European Politics 3 Stephen White, Judy Batt, Paul G. Lewis, 2003 **Constitutional Politics in Central and Eastern Europe** Anna Fruhstorfer, Michael Hein, 2016-10-12 The contributions to this edited volume discuss constitutional politics in 20 Central and Eastern European countries The country chapters describe all constitutional amendments and new constitutions after the first post communist constitution making all failed amendment attempts and the political discourses about constitutional politics Framed by a broad comparative chapter the country studies are embedded in the established literature on constitutional politics The book thus provides a better understanding of constitutional politics in the region and beyond Historical Dictionary of Bulgaria Raymond Detrez, 2014-12-18 Bulgaria is a country of extraordinary beauty with high wild mountains and gentle valleys and with picturesque cities and idyllic villages It is bordered by Romania Serbia Macedonia Greece Turkey and the Black Sea After many years of communist rule Bulgaria adopted a democratic constitution and began the process of moving toward political democracy and a market economy while combating inflation unemployment corruption and crime The country joined NATO in 2004 and the EU in 2007 This third edition of Historical Dictionary of Bulgaria covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Bulgaria Dilemmas of Justice in Eastern Europe's Democratic Transitions N. Calhoun, 2016-04-30 Calhoun innovatively examines how the ideology of liberal democracy influences one of the most contentious and potentially traumatic and divisive issues facing countries transitioning from authoritarian regimes to democracy how to confront the past violations of human rights Competing views of liberal

democracy frame debates about how to confront the past and in particular how to deal with the truth of systematic human rights violations Democratic values may not determine the precise method of dealing with the past whether through truth commissions lustration or tribunals but the very process of debate inherent in democratic theory and practice has important implications for the perceived fairness of the result These implications are examined through a comparison of transitional justice in East Germany Poland and Russia The result is a provocative integration of democratic theory and comparative politics     Soviet Policy in Eastern Europe Sarah Meiklejohn Terry, 1984-01-01 A comprehensive look at both the diversity of Eastern Europe and the multiplicity of Soviet concerns in the region     **Slavonic and East European Review** ,1926
