Housing Finance Review ,1982 Landmarks Preservation and the Property Tax David Listokin, 2017-07-12 Historic preservation is an issue of growing importance and public commitment Federal and state mechanisms have been established to identify and support historic buildings sites while local governments have been active in supporting and protecting historic resources Communities across the country have established designation programs whereby individual buildings or districts of historical architectural significance are accorded landmark status Designation activity has been accompanied by growing interest in other local incentives disincentives to the support of historic buildings In this regard the property tax is viewed as either a possible powerful drawback to or a catalyst of preservation This study examines the relationship between historic preservation and the property tax focusing on the question of how designated buildings should be assessed for real taxation purposes Listokin focuses on New York City in considering the effects of historic status on property value and in evaluating assessment practices But this book s findings are transferrable to other communities because the base conditions are similar Many other cities have designation programs modeled on New York City's In addition New York's property tax system and administrative processes resemble those found in communities across the nation To enhance the transferability of this study s findings Listokin refers to the national experience and literature typically on a side by side basis with the New York City Museum Revolutions Simon Knell, Suzanne MacLeod, Sheila Watson, 2007-09-12 Capturing the richness of counterpart the museum studies discipline Museum Revolutions is the ideal text for museum studies courses providing a wide range of interlinked themes and the latest thought and research from experts in the field The Heritage Industry Robert Hewison, 2023-02-03 First published in 1987 The Heritage Industry sets out to protect the present and the future of life in Britain from their most dangerous enemy a creeping takeover by the past The author sets today s obsession with yesterday in the context of a climate of social and political decline The economic uncertainties and cultural convulsions of post war life have made the past seem a pleasanter and safer place But how true is that image of the past and whose past is it anyway Hewison questions the way institutions like the National Trust are helping to create a past that never was While the real economy crumbles a new force is taking over the Heritage Industry a movement dedicated to turning the British Isles into one vast open air museum This book will be of interest to students of history art and cultural studies The Visible Poor Toel Blau, 1992 Taking an in depth look at the causes of homelessness in the United States Joel Blau disproves the convenient myths that most homeless are crazy drug addicts or lazy misfits who brought their suffering upon themselves He shows that the current crisis was an inevitable result of economic and political changes in recent decades systematically reviewing the explanations offered by researchers politicians and pundits from the deinstitutionalization of mental patients in the 1960s to the gentrification of urban neighborhoods in the 1970s to the evisceration of federal spending on social welfare in the 1980s

Blau argues that current government policies at every level are mired in pointless headcounting and quick fix solutions that only push the homeless out of sight without touching the underlying causes He advocates social reforms ranging form a national standard for welfare benefits a higher minimum wage and establishment of a social sector for non profit affordable housing A powerful contribution to public debate on homelessness The Visible Poor must be read by concerned citizens as well as by policy makers and advocates The Correspondence of Charles Darwin: Volume 22, 1874 Charles Darwin, 2015-03-05 This volume is part of the definitive edition of letters written by and to Charles Darwin the most celebrated naturalist of the nineteenth century Notes and appendixes put these fascinating and wide ranging letters in context making the letters accessible to both scholars and general readers Darwin depended on correspondence to collect data from all over the world and to discuss his emerging ideas with scientific colleagues many of whom he never met in person The letters are published chronologically volume 22 includes letters from 1874 the year in which Darwin completed his research on insectivorous plants and published second editions of Descent of Man and Coral Reefs The year also saw an acrimonious dispute between Darwin and St George Jackson Mivart as a result of an anonymous review the latter had written in which he criticised Darwin s son George In Churchill's Shadow David Cannadine, 2003 With In Churchill's Shadow David Cannadine offers an intriguing look at ways in which perceptions of a glorious past have continued to haunt the British present often crushing efforts to shake them off The book centers on Churchill a titanic figure whose influence spanned the century Though he was the savior of modern Britain Churchill was a creature of the Victorian age Though he proclaimed he had not become Prime Minister to preside over the liquidation of the British Empire in effect he was doomed to do just that And though he has gone down in history for his defiant orations during the crisis of World War II Cannadine shows that for most of his career Churchill's love of rhetoric was his own worst enemy Cannadine turns an equally insightful gaze on the institutions and individuals that embodied the image of Britain in this period Gilbert Sullivan Ian Fleming Noel Coward the National Trust and the Palace of Westminster itself the home and symbol of Britain's parliamentary government This superb volume offers a wry sympathetic yet penetrating look at how national identity evolved in the era of the waning of an empire
