Nationalism And Ethnic Conflict Threats To European Security:

Nationalism and Ethnic Conflict Stephen Iwan Griffiths, Stockholm International Peace Research Institute, 1993

The Kosovo crisis and the evolution of a post-Cold War European security Martin A Smith, Paul

Latawski, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license Analyses the international response to the crisis in Kosovo and its broader implications by examining its diplomatic military and humanitarian features Unravelling these implications can be challenging as it remains an event replete with paradoxes the originality of this book s approach lies in its exploration of these paradoxes The crisis in Kosovo has been a headline grabbing event a serious study of the implications of the conflict on wider European security issues and institutions is urgently required

Ethnic Violence and the Societal Security Dilemma Paul Roe, 2004-08-02 Ethnic Violence and the Societal Security Dilemma explores how the phenomenon of ethnic violence can be understood as a form of security dilemma by shifting the focus of the concept away from its traditional concern with state sovereignty to that of identity instead The book includes case studies on ethnic violence between Serbs and Croats in the Krajina region of Croatia August 1990 ethnic violence between Hungarian and Romanians in the Transylvania region of Romania March 1990

European Security Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

Uncertain Europe Martin Smith, Graham Timmins, 2002-04-12 This timely book

considers the topical issue of the enlargement processes of the European Union and NATO This book is an essential resource for those academics interested in the development of the European Union

Ethnic Diasporas and the Canada-United States Security Community David G. Haglund, 2015-03-25 Ethnic Diasporas and the Canada United States Security Community focuses on three diasporas and their impact on North American security relations the Irish and Germans which were mainly in the US and the Muslim diaspora which is based in both countries The book begins by examining the evolution of North America from a zone of war to a zone of peace i e a security community starting with the debate over the nature and meaning of the Canada US border It then assesses the role of ethnic diasporas in North American security looking as to whether ethnic interest groups have been gaining influence over the shaping of the US foreign policy This debate is also valid in Canada especially given the practice of federal political parties of catering to blocs of ethnic voters The second section of the book focuses on three case studies The first examines the impact of the Irish Americans on the quality of security relations between the US and the UK and therefore between the former and Canada The second looks at an even larger diaspora the German Americans whose political agenda by the start of twentieth century attempted to discourage Anglo American entente and eventual alliance The final case concentrates on the debates around the North American Muslim diaspora in the past two decades a time when policy attention turned toward the greater Middle East which in many ways constitute the kin community of this politically active diaspora This comparative assessment of the three cases provides contextualization for today s discussion of homegrown terrorism and its implication for bilateral security cooperation in North America

Arms Watch Edward J. Laurance, Siemon T. Wezeman, Herbert Wulf, 1993 This report documents the government submissions to the UN on the transfer of arms in seven weapons categories in 1992 and compares this data with information published by SIPRI in its arms trade register It assesses the results of the UN register and the prospects for improving it in 1994 **Liberal and Illiberal Nationalisms** R. Taras, 2002-07-05 How people construct their idea of home influences the types of nationalisms that emerge in various parts of the world These nationalisms can be inclusive or exclusionary tolerant or intolerant peaceful or violent In this important new book Ray Taras provides a comprehensive analysis of the history and study of nationalism He describes what happens when home is defined as empire Russia and India secessionist state KwaZulu and Quebec unational Volkstaat Germany and Israel or transnational community Islam and anti Americanism

Finally he explores the idea that the mantra of multiculturalism has fuelled conflicts over what home is and generates divisions within and between communities *Religious Minorities, Nation States and Security* Mario Apostolov, 2020-10-07 This title was first published in 2001 Why in this contemporary secular age does violent conflict among confessional communities still occur Covering several key conflicts of recent years in one of the most dynamic areas of the world the Eastern Mediterranean and the Balkans Mario Apostolov uses both interpretative and comparative analysis to answer this question His versatile approach makes for an engaging account that makes an important contribution to the current debate surrounding such conflicts The author focuses on five case studies taken from the traditional zone of contact between Christianity and Islam The Copts The Palestinian Christians The Lebanese communities The Pomaks The communities of Bosnia Herzegovina The book examines the relationship between these issues and communal mobilisation the collective use of violence and the problems of international security An informative study for students academics policy makers and personnel in international organizations with an interest in communal conflict and security **Parameters**, 1995 Language, Minorities and Human Rights Fernand de Varennes, 2021-09-27 One of the most vexing issues in many of the world's so called ethnic or minority conflicts is the question of language use by the State and its citizens While international and national law has traditionally viewed language preference to be within a State's prerogative at least when involving governmental activities and machinery this position has proved to be a continuous source of acrimony and conflict and wrong in some respects Language Minorities and Human Rights is the most complete book ever written on the topic providing for the first time an analysis of every aspect of language and the law In addition to presenting a theoretical model for language's particular position and relevance in human rights it constitutes an invaluable reference document by including the provisions of close to 100 international multilateral and bilateral instruments involving language rights as well as the constitutional provisions of 140 countries dealing with language By addressing little explored areas such as the language rights of indigenous peoples non citizens and even the use of script in addition to more traditional topics such as nationalism and language freedom of expression and non discrimination Language Minorities and Human Rights proposes a complete descriptive picture of language and human rights as well as proposing a number of suggestions on how to address and balance the many problems currently caused by the linguistic demands of various individuals and the interests of states in nation building *Israel in Comparative Perspective* Michael N. Barnett, 2012-02-01 Because Israel is unique in many dimensions many social scientists consider it a historical peculiarity Neither East nor West developed nor undeveloped capitalist nor socialist Third World nor First World Israel has little in common with other countries and their historical experiences This book of original essays challenges the image of Israeli uniqueness and the status of the Israeli case and at the same time corrects some common misperceptions about the comparative method in general and case selection in particular At the same time it compares Israeli and Arab experiences and addresses critical issues in Middle Eastern studies

To challenge the image of Israeli uniqueness the authors situate Israel's history in comparative context employ macrohistorical concepts both to reexamine the Israeli case and to build bridges between Israel and other historical experiences and use the Israeli case to reconsider existing social science theories Articles by Michael Barnett Yehezkal Dror Rebecca Kook Ian Lustick Joel Migdal Gershon Shafir Gabriel Sheffer Shibley Telhami and Mark Tessler and Ina Warriner Israel in Comparative Perspective demonstrates how our understanding of the region can be enriched by using models and theories developed in other regions to reexamine Israeli history

Security, Arms Control and Defence Restructuring in East Asia Bjørn Møller, 2019-01-22 First published in 1998 this volume examines East Asia especially Northeast Asia which has been a region of considerable political security of importance for several key reasons It features several great and medium powers China Japan and Russia as well as North and South Korea Even though no arms race is yet discernible among these states with the partial exception of the two Koreas it is conceivable that one might commence If it did the level of militarization could become quite alarming if only because of the tremendous and rapidly growing economic potential of the regional states Even though relations among regional states except the two Koreas are currently peaceful the region features several unresolved issues e.g. concerning territory and a historical legacy of enmity between several states To prevent such conflicts of interest from erupting into armed conflict is of the utmost importance A stabilizing factor is that the military potentials in the region are still predominantly defensively oriented i.e. most states lack the requisite power projection or invasion capabilities to inflict serious harm on each other However this might change in the not so distant future Hence the importance of confidence building measures of an institutionalization of regional relations and of a strengthening of commitments to defensive military strategies and postures

Security and Arms Control in Post-confrontation Europe Jenonne Walker, 1994 The new dangers and challenges to international security in Europe after the Cold War are examined in this book The changing nature of Europe's security problems has necessitated new thinking among both civilians and the military about arms control the problems it should address the purposes it should serve and even what should be called arms control today Arms control should be seen as encompassing all aspects of the military dimension of the endeavours to mitigate or mediate tensions within states and to keep them from turning violent It entails joint management of the cold war legacy of nuclear and conventional weapons Security and Arms Control in Post Confrontation Europe examines in particular the role which could and should be played by the Conference on Security and Co operation in Europe CSCE for the prevention of intra state armed conflicts
