Nationalism And Exclusion Of Migrants:

Nationalism and Exclusion of Migrants Mérove Gijsberts, Louk Hagendoorn, 2017-07-05 The association of exclusionist and nationalist relations termed ethnocentrism has been previously explored within single country contexts. Studies have shown that dispositional factors such as social identity and personality traits affect ethnocentric reactions and that attitudes differ between social categories. However, broader national and international explanations have been neglected in the literature. This book fills this major gap by providing a unique account of the relationship between nationalist attitudes and the exclusion of migrants across a range of European countries, the US, Canada, and Australia. Drawing on a variety of comparative surveys, the authors assess whether ethnic exclusionist reactions and nationalist attitudes are indeed systematically related across countries and whether variations in such attitudes reflect country level as well as individual level differences. The authors consider the multidimensionality of the concepts of nationalism and exclusionism as well as the empirical associations and analyze the attitudes of both majority and minority groups within the countries studied.

Nationalism and Exclusion of Migrants Mérove Gijsberts, Louk Hagendoorn, 2017-07-05 This ground breaking book draws on a variety of comparative surveys to provide a unique account of the relationship between nationalist attitudes and the exclusion of migrants across a range of European countries, the US, Canada, and Australia. **Migration and**

Nationalism Michael Samers, Jens Rydgren, 2024-01-18 This cutting edge book presents a unique focus on nationalism and migration, exploring the relationship between these two concepts in countries throughout the world. Combining theoretical and empirical discussions from a range of disciplinary perspectives, the book interrogates the consequences of nationalism for migration in the 21st century. **Turkish Migration Policy** Ibrahim Sirkeci, Barbara Pusch, 2016-06-04 **TURKISH**

MIGRATION POLICY edited by Ibrahim Sirkeci and Barbara Pusch aims to shed light on changes in migration policy determinants, beneath these changes and practical implications for movers and non movers in Turkey. Nevertheless, one should note that Turkey has only recently faced mass immigration and the number of foreign born has more than doubled in less than five years. Such sudden change in population composition warrants policy adjustments and reviews. Policy shift from exporting excess labour in the 1960s and 1970s to immigrant integration today is a drastic but necessary one. Nevertheless, Turkish migration policy is still far from settled as several chapters in this book point out. Despite the exemplary humanitarian engagement in admitting Syrians, Turkey is still at the bottom of the league table of favourable integration policies with an overall score of 25 out of 100. Turkish migration policy is likely to be adjusted further in response to the continuing immigration. **Generations and Nationalism** Alain-G Gagnon, Luc Turgeon, 2025-09-02 **Generations and**

Nationalism breaks new ground by placing the impact of generation and generational changes at the forefront of an investigation on the transformation of nationalist movements and the evolution of support for independence in Catalonia, Quebec, and Scotland. The main objective of the book is to explore how a focus on generations and generational change can

add first to the theoretical toolkit used in the study of nationalism and second can lead to a better understanding of the recent evolution of nationalism in three internal nations Catalonia Quebec and Scotland The book is also an occasion to revisit the distinct evolution of nationalism in these three internal nations that have been the object of important comparative studies in the past and frequent comparisons in public discourses but in which nationalist movements have gone through relatively distinct transformations over the past decade The different chapters tackle nation building autonomy and self determination ethnic identity conflict and accommodation ethnonationalism irredentism and separatism and immigration naturalization and citizenship The book also is unique to the extent that it establishes a dialogue between scholars who are specialists of public opinion drawing on quantitative methods and scholars drawing on different comparative historical perspectives in sociology and political science Containing both theoretical discussions of nationalism as well as case studies and comparative analyses of nationalist movements *Generations and Nationalism* will be of great interest to students and scholars researching nationalism public opinion youth politics political theory and quantitative and historical methods

Bangladeshi Migrants in India Rizwana Shamshad,2017-10-03

In January 2011 Felani Khatun was shot dead while attempting to cross the border from India to Bangladesh Her body remained hung on the fence as a warning to those who illegally crossed an international border Migration to India from the current geographical and political entity called Bangladesh is more than a century old and had begun long before the nation states were created in South Asia Often termed as foreigners and infiltrators Bangladeshi migrants such as Felani find their way into India for the promise of a better future Post 1971 there has been a steady movement of people from Bangladesh into India both as refugees and for economic

need making this migration a complex area of inquiry This book focuses on the contemporary issue of undocumented Bangladeshi migration to the three Indian states of Assam West Bengal and Delhi and how the migrants are perceived in light of the ongoing discourses on the various nationalisms in India Each state has a unique history and has taken different measures to respond to Bangladeshi migrants present in the state Based on extensive fieldwork and insightful interviews with influential members from key political parties civil society organizations and Hindu and ethnic nationalist bodies in these states the book explores the place and role of Bangladeshi migrants in relation to the inherent tension of Indian nationalism

Interdependent Yet Intolerant Robert Mandel,2021-07-27 People everywhere are more dependent than ever on foreign migrants products and ideas and more xenophobic Intolerance and hate based violence is on the rise in countries from Hungary to South Africa threatening global security With *Interdependent Yet Intolerant* Robert Mandel explains why we live in an unexpectedly and increasingly hateful world why existing policies have done little to help and what needs to be done Through an in depth analysis of case studies from twelve diverse countries that have experienced violence between native citizens and foreign migrants Mandel finds that the interdependence of the current liberal international order does not breed mutual understanding between groups through increased contact but rather under specific conditions stimulates boomerang effects in the exact opposite direction And the very policy measures intended to decrease violence from heightened border enforcement intended to minimize instability to intergovernmental payoffs to other countries to keep foreigners away as in the EU only inflame intolerance and promote global insecurity Providing practical policy recommendations for managing identity based violence in an age of mass migration and globalization *Interdependent Yet Intolerant* calls on societies around the world to rethink their predominant notions of national identity and control

Sociology in Times of Glocalization Christian Karner,2022-11-08 Seminal sociological work has described the world today as a local global nexus that is defined by localized often conflictual responses to a series of global flows Building on this this book traces the workings and dynamics of today s globalization and of the different reactions it spurs across a range of social domains that is in localities affected by rapid infrastructural change in the economic realm and through consumerism in experiences of migration in urban settings in cultural practices such as street art that negotiate both global and local events and phenomena and in digital technology Crucially the book formulates and critically explores the methodological challenges created by such social and political developments Rather than treating the fundamental question as to how and why sociologists can claim to know more about the social world than the people living it as an abstract issue this book tackles this through a careful engagement with existing research on globalization glocalization and neo nationalism The result is two fold first the book demonstrates that sociology confronts some profound challenges today second the author argues that an increasingly inter disciplinary sociology is already making vital contributions to our understanding of and responses to today s multiple crises

Identity, Belonging and Migration Gerard Delanty,Ruth Wodak,Paul Jones,2008-02-01 This volume

addresses the question of migration in Europe It is concerned with the extent to which racism and anti immigration discourse has been to some extent normalised and democratised in European and national political discourses Mainstream political parties are espousing increasingly coercive policies and frequently attempting to legitimate such approaches via nationalist populist slogans and coded forms of racism Identity Belonging and Migration shows that that liberalism is not enough to oppose the disparate and diffuse xenophobia and racism faced by many migrants today and calls for new conceptions of anti racism within and beyond the state The book is divided into three parts and organised around a theoretical framework for understanding migration belonging and exclusion which is subsequently developed through discussions of state and structural discrimination as well as a series of thematic case studies In drawing on a range of rich and original data this timely volume makes an important contribution to discussions on migration in Europe

The Routledge Handbook of Contemporary Inequalities and the Life Course Magda Nico,Gary Pollock,2021-12-31 Drawing upon perspectives from across the globe and employing an interdisciplinary life course approach this handbook explores the production and reproduction of different types of inequality across a variety of social contexts Inequalities are not static easily measurable and essentially quantifiable circumstances of life They are processes which impact on individuals throughout the life course interacting with each other accumulating attenuating reproducing or distorting themselves along the way The chapters in this handbook examine various types of inequality such as economic gender racial and ethnic inequalities and analyse how these inequalities manifest themselves within different aspects of society including health education and the family at multiple levels and dimensions The handbook also tackles the global COVID 19 pandemic and its striking impact on the production and intensification of inequalities The interdisciplinary life course approach utilised in this handbook combines quantitative and qualitative methods to bridge the gap between theory and practice and offer strategies and principles for identifying and tackling issues of inequality This book will be indispensable for students and researchers as well as activists and policy makers interested in understanding and eradicating the processes of production reproduction and perpetuation of inequalities

Museums, Migration and Cultural Diversity Christina Johansson,2015-03-04 Historically an important role of museums has been to contribute to national homogenization The book specifically deals with how the Swedish museum sector of culture and history addresses new demands from a society that is profoundly characterized by migration and cultural diversity Besides the museums representations of migration and cultural diversity the book also examines how changes in the museum sector relate to general policy developments in the fields of culture integration and minorities The book also discusses whether and how museums are open for dialogue and collaboration with migrants and ethnic minorities and the kinds of problems museums encounter in their efforts to be more inclusive

Theorising Transnational Migration Boris Nieswand,2012-10-02 Societal transformations have recently stimulated political debates and policies on the integration of migrants and minorities in most Western European countries While transnational migration studies have

documented migrants cross border activities there have been few empirically grounded efforts to theorise these developments in the framework of integration and status theory Based on a case study of Ghanaian migrants this book seeks to understand integration processes and develops a theorem of the status paradox of migration which explores the interaction between migrants integration into the receiving country and the maintained inclusion into the sending society It describes a characteristic problem for a large class of labour migrants from the global south who gain status in the sending countries by simultaneously losing it in the receiving countries of migration This transnational dynamic of status attainment which goes along with specifically national forms of status inconsistency is what is called the status paradox of migration By bringing together two modes of national status incorporation within one framework the status paradox provides an innovative perspective on migration processes and demonstrates the usefulness of a transnationalist integration theory This book will be of interest to students and scholars of migration transnationalism politics sociology and anthropology

Political Science ,2010 Causes and Consequences of Migrant Criminalization Neža Kogovšek Šalamon,2020-07-01

The book illustrates how the trend of associating migrants and refugees with criminality is on the rise In political discourses and popular media alike migrants and refugees are frequently portrayed as being dangerous while cultures intent on welcoming newcomers are increasingly seen as being na ve and providing assistance to migrants is more and more frequently subject to administrative or criminal penalties At the same time nondemocratic trends and practices that violate human rights and equality are gaining momentum in Europe the US and Australia Racism xenophobia and anti Islamism are simultaneously becoming more open and public they are no longer restricted to clandestine platforms but are increasingly being mainstreamed into the political programs of parties that are entering both the EU parliaments and member state legislatures Similar developments can be seen in the US and Australia Such transformations in societies governments and institutions seem to reflect a growing amnesia regarding the lessons of the two World Wars of the 20th century and the role that Europe the US and Australia played in developing a post war legal framework based on a shared if imperfect commitment to human rights The book presents individual national analyses to reveal an emerging trend of crimmigration regardless of the peculiarities of national legislatures and internal political dynamics By collecting original contributions from scholars based in and focused on each of these regions it addresses above all the causes and impacts of the criminalization of migration in the early 21st century It tackles the direct causes of these trends and encourages readers to rethink their broader political and socio historic context Importantly the book does so by highlighting the ties between the criminalization of migration and equality racism and xenophobia As the politics of migration become more perilous for political alliances like the EU as well for individual migrants it is more important than ever to critically examine the cause and consequences of migrant criminalization This collection does so from a variety of disciplinary perspectives and political traditions seeking to overcome the distractions of charismatic politicians and the peculiar factions of national political systems in order to reveal

the underlying trends and disturbing patterns that are of interest to a broad internationally focused audience **Fractured Militancy** Marcel Paret, 2022-02-15 Drawing on extensive ethnographic fieldwork and interviews with activists **Fractured Militancy** tells the story of postapartheid South Africa from the perspective of Johannesburg's impoverished urban Black neighborhoods Nearly three decades after South Africa's transition from apartheid to democracy widespread protests and xenophobic attacks suggest that not all is well in the once celebrated rainbow nation Marcel Paret traces rising protests back to the process of democratization and racial inclusion This process dangled the possibility of change but preserved racial inequality and economic insecurity prompting residents to use militant protests to express their deep sense of betrayal and to demand recognition and community development Underscoring remarkable parallels to movements such as Black Lives Matter in the United States this account attests to an ongoing struggle for Black liberation in the wake of formal racial inclusion Rather than unified resistance however class struggles within the process of racial inclusion produced a fractured militancy Revealing the complicated truth behind the celebrated success of South African democratization Paret uncovers a society divided by wealth urban geography nationality employment and political views **Fractured Militancy** warns of the threat that capitalism and elite class struggles present to social movements and racial justice everywhere
