Nationalism Democracy And National Integration In China:

Nationalism, Democracy and National Integration in China Leong H. Liew, Shaoguang Wang, 2012-11-12 This book examines the changing role of nationalism in China in the light of the immense political and economic changes there during the 1990s It analyses recent debates between the nationalists New Left and liberals in China and examines the roles played by state sponsored and populist nationalism in China's foreign relations with the West in general and the USA in particular The issues of Taiwanese nationalism and Tibet and Xinjiang separatism are discussed with a focus on the questions of the impact of globalisation on national integration or fragmentation and the relationship between democracy and national integration should democracy precede national integration or could democracy be realised only after national integration or are democracy and national integration mutually exclusive objectives The book also examines the roles played by the People's Liberation Army and fiscal system in China in promoting Chinese nationalism and national integration The Geopsychology Theory of International Relations in the 21st Century B. M. Jain, 2021-02-15 This book introduces an innovative theoretical construct of geopsychology to navigate the complex dynamics of international politics in the 21st century It explains how geopsychology is different from mainstream international relations theories in terms of primary actors human behavior spatial application instruments and key issues It argues that peace and stability in the troubled parts of the world warrants an imperative need for understanding psychological dispositions of non state actors and authoritarian regimes In The Geopsychology Theory of International Relations in the 21st Century Escaping the Ignorance Trap B M Jain unfolds that neither a global hegemon nor a cohort of powers could weaken their resolve and break their morale as proven in the cases of Iraq Afghanistan and North Korea Importantly the regional case studies India and Pakistan in South Asia North Korea and China in Northeast Asia and the U S involvement in the Middle East reveal how the psyche and thought processes of national and regional actors have been the driving force in triggering interstate conflicts and civil wars The book brilliantly illuminates how America became a conscious victim of the ignorance trap in Asia's volatile regions This must book offers easy solutions to complex conflicts to induce a peaceful change in world politics Globalisation and the Asia-Pacific Iyanatul Islam, Moazzem Hossain, 2006-06-27 Presents contested perspectives on globalisation illustrated by the diverse experiences of selected economies of the Asia Pacific as case studies Country experiences ranging from broad political economy perspectives to industry case studies are discussed Australian Islam from Griffith university **The SAGE Handbook of Contemporary China** Weiping Wu, Mark Frazier, 2018-07-09 The study of contemporary China constitutes a fascinating yet challenging area of scholarly inquiry Recent decades have brought dramatic changes to China's economy society and governance Analyzing such changes in the context of multiple disciplinary perspectives offers opportunities as well as challenges for scholars in the field known as contemporary China Studies The SAGE Handbook of Contemporary China is a two volume exploration of the transformations of contemporary China firmly grounded in the both disciplinary and China

specific contexts Drawing on a range of scholarly approaches found in the social sciences and history an international team of contributors engage with the question of what a rapidly changing China means for the broader field of contemporary China studies and identify areas of promising future research Part 1 Context History Economy and the Environment Part 2 Economic Transformations Part 3 Politics and Government Part 4 China on the Global Stage Part 5 China's Foreign Policy Part 6 National and Nested Identities Part 7 Urbanization and Spatial Development Part 8 Poverty and Inequality Part 9 Social Change Part 10 Future Directions for Contemporary China Studies **China's Foreign Policy Making** Lin Su, 2017-03-02 Various domestic factors impact upon China's foreign policy making such as bureaucracy academics media and public opinion This stimulating book examines their increasing influence and focuses in particular on China's policy towards the United States exploring whether there has been an emergence of societal factors independent of the Communist Party that have begun to exert influence over the policy process It also debates questions such as how it will affect the ability of the Chinese government to frame and implement its policy towards the US and whether it has generated institutional arrangements in China for cooperation on issues such as trade human rights and Taiwan The book provides a better understanding of the role of societal forces in China's foreign policy making process China's Foreign Policy Contradictions Tim Nicholas Rühlig, 2022 China's rise to great power status is indisputable but can it shape the future international order This question remains widely debated because China's foreign policy is contradictory Contrary to conventional wisdom this book shows that China does not act from a position of strength but that foreign policy contradictions are the result of the domestic vulnerabilities of the ruling Chinese Communist Party Providing exceptional insights into the considerations behind the opaque institutional structures of Chinese foreign policymaking and decision making it shows that China will not provide a model for a new international system but could undermine the existing order

Reconsidering the East Asian Peace William R. Thompson, Thomas J. Volgy, 2024-08-01 This volume re-examines the notion of the East Asian peace arguing that it requires updating for the current and near future context of US Chinese rivalry The East Asian peace refers to the remarkable change in conflict levels in eastern Eurasia over the past 80 years or even the past 130 years or so Prior to the late 1970s East Asia was regarded as the most conflictual region on the planet Although insurgencies have continued in places such as Myanmar Thailand and the Philippines after the 1980s East and Southeast Asia became one of the world's least conflictual regions Geopolitics and economic development worked hand in hand to reduce conflict in the region and in this respect the East Asian peace has been a confluential peace The general problem with a confluential peace is that the factors that shape it evolve over time and the specific circumstances in question seem to be evolving in a different direction with East Asia shaping up to be the most central locale of the contest between US and Chinese hegemony both regionally and perhaps globally This book argues that the idea of the East Asian peace now requires adjustment to the current and near future context The more general arguments presented here focus on alternative

interpretations of how regional peace and order should be interpreted while the more specific arguments involve interpretations of Chinese and other countries behavior in the context of the heightened rivalry between China and the United States This book will be of much interest to students of East Asian politics peace studies foreign policy and international relations

Incentivized Development in China David J. Bulman, 2016-10-18 China's economy as a whole has developed rapidly over the past 35 years and yet its richest county is over 100 times richer in per capita terms than its poorest county To explain this vast variation in development David J Bulman investigates the political foundations of local economic growth in China focusing on the institutional and economic roles of county level leaders and the career incentives

that shape their behaviour Through a close examination of six counties complemented by unique nation wide data he presents and explores two related questions what is the role of County Party Secretaries in determining local governance and growth outcomes And why do County Party Secretaries emphasize particular developmental priorities Suitable for scholars of political economy development economics and comparative politics this original study analyzes the relationship between political institutions local governance and leadership roles within Chinese government to explain the growing divergence in economic development between counties **Populist Authoritarianism** Wenfang Tang,2016-01-04 Populist

Authoritarianism focuses on the Chinese Communist Party which governs the world s largest population in a single party authoritarian state Wenfang Tang attempts to explain the seemingly contradictory trends of the increasing number of protests on the one hand and the results of public opinion surveys that consistently show strong government support on the other hand The book points to the continuity from the CCP s revolutionary experiences to its current governing style even though China has changed in many ways on the surface in the post Mao era The book proposes a theoretical framework of Populist Authoritarianism with six key elements including the Mass Line ideology accumulation of social capital public political activism and contentious politics a hyper responsive government weak political and civil institutions and a high level of regime trust These traits of Populist Authoritarianism are supported by empirical evidence drawn from multiple public opinion surveys conducted from 1987 to 2015 Although the CCP currently enjoys strong public support such a system is inherently vulnerable due to its institutional deficiency Public opinion can swing violently due to policy failure and the up and down of a leader or an elite faction The drastic change of public opinion cannot be filtered through political institutions such as elections and the rule of law creating system wide political earthquakes *Understanding the Global Community* Zach P.

Foreign Policy Emilian Kavalski, 2016-04-01 The Ashgate Research Companion to Chinese Foreign Policy draws out the full range of topics and issues that characterise China's external affairs. The volume is intended to provide an overview of Chinese foreign policy that will be relevant both to experts in the field as well as those that are just starting to grapple with Beijing's international outlook. The investigation of Chinese foreign policy offered by the volume is divided into seven parts. Part I focuses on the historical evolution of Chinese foreign policy by detailing the specific traditions and the altering paradigms of Beijing's external outlook proffered for the explanation and understanding of Chinese foreign policy. Part II discusses the different analytical perspectives proffered for the explanation and understanding of Chinese foreign policy. Part III considers the domestic sources of Chinese foreign policy. Part IV analyses the international impact of Beijing's outreach. Part V of the volume begins the exploration of China's relations with specific international actors. Part VI investigates the regional interactions of Chinese foreign policy. Part VII of the volume draws attention to several issues impacting both the practice and the understanding of Chinese foreign policy. This Companion draws a vivid picture of the full spectrum of topics, issues, and relationships that define China's international interactions. The collection therefore provides a relevant point of departure for anyone interested in learning about Beijing's external affairs. Owing to the wide range of themes and ideas, this volume is essential reading for students of Chinese foreign policy.

Cultural Education - Cultural Sustainability Zvi Bekerman, Ezra Kopelowitz, 2008-02-06 This volume is a path-breaking contribution to the study of efforts of diaspora, indigenous, and minority groups broadly defined to use education, formal and informal, to sustain cultural continuity while grappling with the influences and demands of wider globalizing, nationalizing, or other homogenizing and assimilatory forces. Particular attention is given to groups that use educational elements other than second language teaching alone in programs to sustain their particular cultural traditions. The focus of the book on cultural sustainability changes the nature of questions posed in multicultural education from those that address the opening of boundaries to issues of preserving boundaries in an open yet sustainable way. As forced and elective immigration trends are changing the composition of societies and the educational systems within them, bringing a rich diversity of cultural experience to the teaching-learning process, diaspora, indigenous, and minority groups are looking more and more for ways to sustain their cultures in the context of wider socio-political influences. This volume is a first opportunity to consider critically multicultural efforts in dialogue with educational options that are culturally particularistic but at the same time tolerant. Academics will find this an excellent reference book. Practitioners will draw inspiration in learning of others' efforts to sustain cultures and will engage in critical reflection on their own work vis-à-vis that of others. Teachers will realize they do not stand alone in their educational efforts and will uncover new strategies and methodologies through which to approach their work.

The Battle For China's Past Mobo Gao, 2008-02-20 Shows that the Mao era was beneficial for most Chinese citizens. A powerful mixture of political passion and original research, a brave polemic against the fashionable view on China. Aims a knockout blow at Jung Chang's recent book

on Mao which Bush and the conservatives rave reviewed Gregor Benton Professor of Chinese History University of Cardiff This important book opens a much needed window onto Chinese perceptions of the country s post Mao direction Highlights the renewal of popular support for socialism and the growing opposition to contemporary state policies Martin Hart Landsberg Professor of Economics Lewis Clark College Portland Oregon Mao and his policies have long been demonised in the West with the Cultural Revolution considered a fundamental violation of human rights As China embraces capitalism the Mao era is being surgically denigrated by the Chinese political and intellectual elite This book tackles the extremely negative depiction of China under Mao in recent publications and argues most people in China including the rural poor and the urban working class actually benefited from Mao s policy of a comprehensive welfare system for the urban and basic health and education provision for the rural which is being reversed in the current rush towards capitalism By a critical analysis of the mainstream account of the Mao era and the Cultural Revolution and by revealing what is offered in the unofficial e media debates this book sets the record straight making a convincing argument for the positive effects of Mao s policies on the well being of the Chinese people *East Asia and the Trials of Neo-Liberalism* Kevin Hewison, Richard Robison, 2013-09-13 A much needed examination of the impact of neo liberalism in East Asia in the years since the 1997 to 1998 Asian Economic Crisis These leading contributors tackle the nature of neo liberalism and the forces and institutions driving it With fresh case studies of Indonesia Thailand South Korea Malaysia China and Vietnam showing how domestic elites are critical to the ways in which the neo liberal agenda is manifested modified and rejected They also engage with the key question of why there has been a dramatic restructuring of state and economic power with some elements of domestic elites having been decimated others reinventing themselves while important new elements have been constituted This book was previously published as a special issue of the leading Journal of Development Studies Identity Discourses and Communities in International Events, Festivals and Spectacles Udo Merkel, 2015-02-10 This collection focuses on the multi layered links between international events and identity discourses With a unique line up of international scholars this book offers a diverse range of exciting case studies including sports competitions music festivals exhibitions fashion shows and royal celebrations **New Thinking about the Taiwan Issue** Jean-Marc F. Blanchard, Dennis V. Hickey, 2012-06-12 The Taiwan question has long been considered one of the most complicated and explosive issues in global politics In recent years however relations between Taiwan and the Chinese mainland have improved substantially to the surprise of many In this ground breaking collection distinguished contributors from the US Asia and Europe seek to go beyond the standard recitation of facts that often characterizes studies focusing on the Beijing Taipei dyad Rather they employ a variety of theories as well as both quantitative and qualitative methodologies to analyze the ebbs and flows of the Taiwan issue Their discussions clearly illuminate why there is a Taiwan Problem why conflict did not escalate to war between 2000 and 2008 and why cross Strait relations improved after 2008 The book further reveals the limits of realism as a device to gain traction into the Taiwan issue

demonstrates the importance of taking into account domestic political variables and shows how theory can be used to advance the cause of better China Taiwan relations and to analyze the potential for future conflict over Taiwan New Thinking about the Taiwan Issue is essential reading not only for students scholars and practitioners with an interest in studying relations across the Taiwan Strait but also for any reader interested in economics international relations comparative politics or political theory

Chinese Thought as Global Theory Leigh Jenco, 2016-05-12 With a particular focus on Chinese thought this volume explores how and under what conditions so called non Western traditions of thought can structure generally applicable social and political theory Reversing the usual comparison between local Chinese application and universal theory the work demonstrates how Chinese experiences and ideas offer systematic insight into shared social and political dilemmas Contributors discuss how medieval Chinese understandings of causal heterogeneity can relieve impasses within contemporary historiography how current economic and social conditions in China respond proactively to the future configuration of world markets and how hybrid modes of cross cultural engagement offer new foundations for the enterprise of learning from cultural others Each chapter works from Chinese perspectives to theorize the location of knowledge its conditions of production and the modes through which its content or adequacy is legitimated challenged and sustained Rather than reproducing Eurocentric knowledge production in Chinese form the mobilization of Chinese thought as a generally applicable body of theory actually breaks down clear boundaries between Chinese and non Chinese thought

Middle Class China David S. G. Goodman, Minglu Chen, 2013-01-01 A general expectation has developed that China's middle class will generate not only social but also political change This expectation often overlooks the reality that there is no single Chinese middle class with a common identity or will to action This timely volume examines the behaviour and identity of the different elements of China's middle class entrepreneurs managers and professionals in order to understand their centrality to the wider processes of social and political change in China The expert contributors seek to identify the social space occupied by the Chinese middle class rather than identifying social backgrounds and attitudes In so doing they explore socio political issues the development of a consumer society relationships between gender and class in the workplace home ownership and the appearance of gated communities and the political interaction between the Party state and the entrepreneurial middle classes and their impact on the new institutional economics Providing a more nuanced understanding of the structure of the middle class in China and identifying dynamic elements in their behaviour this unique book will prove a fascinating and thought provoking read for academics students and researchers with an interest in Asian studies and public policy
