Farnen, Nationalism national identity and ethnicity are cultural issues in contemporary Western societies Problems in the United States the Netherlands Germany Austria Turkey Poland Croatia the Ukraine Hungary and Bulgaria illustrate both large scale internal variations in these phenomena as well as their cross national relevance for teaching research and educational development on such subjects as multiculturalism ethnic diversity and socialization **Special Bibliography Series**, 1957 **U.S. Intervention Policy in the Post-cold War World** Frances K. Library, 1994 *Minority Protection in Post-Apartheid South Africa* Kristin Henrard, 2002-08-30 Accommodation of population diversity is a vital issue for any multinational society The legacy of Apartheid in South Africa complicates this effort considerably Henrard introduces a theoretical framework regarding how to accommodate minority protection in the most appropriate way and analyzes the respective contributions of individual rights minority rights and the right to self-determination Subsequent chapters examine the case study of post-apartheid South Africa and attempt to investigate its constitutional development Henrard finds that provisions within the 1996 Constitution do acknowledge an interrelation between these three important factors however implementation of minority protection policy is often quite a different matter In seeking appropriate means of minority protection this study stresses inclusionism integration and the essential right to identity and real equality While Henrard reviews and discusses the entire democratic transformation process in South Africa she cautions that because current developments are characterized by their unsettled nature major transformation and flux analysis of the implementation phase can be only indicative The apartheid history does not in itself inhibit progressive stances on this important issue Still despite the promising nature of the 1996 Constitution the

picture that emerges in terms of policy development aimed at minority protection is ambivalent *Human Values and Beliefs* Ronald F. Inglehart, Miguel Basanez, Alejandro Moreno, 1998-05-18 Provides a wealth of information about values and beliefs of people all over the world **International Change and the Stability of Multiethnic States** Badredine Arfi, 2005-02-23 An important contribution to scholarship rigorous and intelligible Patrick James University of Missouri International Change and the Stability of Multiethnic States contributes to the debate over ethnic conflict and cooperation in multiethnic states destabilized by the changing environment of the post Cold War era proposing a new way of viewing and dealing with these problems Through an analysis of important moments in the history of two prominent multiethnic societies the former Yugoslavia and Lebanon in which nonstate actors such as communal groups played important roles in events that determined the fates of both states Badredine Arfi builds a general theory of how the governance of multiethnic societies is transformed under changing international conditions His work provides new insights on how policymaking can be improved to respond to the challenges posed by the creation maintenance transformation and when it occurs collapse of state governance in multiethnic societies This timely work will interest scholars of international relations and comparative politics regional specialists policymakers and activists **Encyclopaedia of Nationalism** Athena S. Leoussi, With over one hundred entries the Encyclopaedia of Nationalism offers a complete and concise set of tools for the study of nationalism in a single volume The focus throughout is theoretical and for this reason particular nationalist movements and individual leaders are treated only as illustrative historical contemporary cases in numerous entries The Encyclopaedia is organized in an alphabetical sequence of entries each of which includes a short bibliography for further reading The reader will find in depth discussions of the work of modern theoreticians of nationalism BOOK JACKET **The East European Gypsies** Zoltan D. Barany, 2002 Includes statistics *Escaping the Self-Determination Trap* Marc Weller, 2009-05-31 There is new movement in the discussion about self determination and statehood The contested declaration of independence by Kosovo and Russia s recognition of the purported independence of Abkhazia and South Ossetia have caused significant controversy These developments may well put an end to the attempt by governments to keep in place the highly restricted doctrine of self determination that has previously only been made available in the colonial context This monograph argues that classical self determination narrowly conceived in the colonial context cannot contribute to the resolution of the presently ongoing self determination conflicts around the world However this study finds that over the past few years a new practice of addressing self determination conflicts has emerged This practice significantly extends our understanding of the legal right to self determination and of the means that can be brought to bear in terminating secessionist conflicts **Breathing: Violence In, Peace Out** Ivana Milojevic, 2013-10-01 An investigation into the long term impact of transgenerational trauma and the possibilities for healing this book explores the links between personal histories and world events and helps us to understand life s dualities violence and peace self and other stability and change slavery and freedom Author Ivana Milojevic asks How

Intermarium Marek Jan Chodakiewicz, 2012-11-06 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture
