The Baltic States Thomas Lane, Artis Pabriks, Aldis Purs, David J. Smith, 2013-11-05 Since the end of the Cold War there has been an increased interest in the Baltics The Baltic States brings together three titles Estonia Latvia and Lithuania to provide a comprehensive and analytical guide integrating history political science economic development and contemporary events into one account Since gaining their independence each country has developed at its own pace with its own agenda and facing its own obstacles The authors examine the tensions accompanying a post communist return to Europe after the long years of separation and how each country has responded to the demands of becoming a modern European state Estonia was the first of the former Soviet republics to enter membership negotiations with the European Union in 1988 and is a potential candidate for the next round of EU expansion in 2004 Lithuania and Latvia have also expressed their desire for future membership of NATO and the EU

Latvia Artis Pabriks, Aldis Purs, 2013-03-07 The past one hundred years have been a very trying time for Latvia complete with success tragedy and still unrealized promise Within the course of a generation the country experienced revolutions wars and independent statehood and then the slide into authoritarianism World War II brought new occupations The tragedies were staggering holocaust executions and an exodus of refugees Soviet consolidation bred deportations forced collectivization and partisan warfare Almost fifty years later Latvia regained its independence and emerged from decades of disastrous Soviet rule This book comprehensively surveys Latvia's recent past and prospects for the new millennium placing contemporary events in historical perspective The authors address the evolution of the country from the movement against Soviet rule to the dilemmas of contemporary politics party formation the problem of corruption the quest for the future and a regional and international role the struggle to develop a civil society the issue of ethnic relations and the recurring tendency towards statist solutions Proper attention is also given to economic developments

The Foundations of Ethnic Politics Henry E. Hale, 2008-06-30 Despite implicating ethnicity in everything from civil war to economic failure researchers seldom consult psychological research when addressing the most basic question What is ethnicity The result is a radical scholarly divide generating contradictory recommendations for solving ethnic conflict Research into how the human brain actually works demands a revision of existing schools of thought Hale argues ethnic identity is a cognitive uncertainty reduction device with special capacity to exacerbate but not cause collective action problems This produces a new general theory of ethnic conflict that can improve both understanding and practice A deep study of separatism in the USSR and CIS demonstrates the theory's potential mobilizing evidence from elite interviews three local languages and mass surveys The outcome significantly reinterprets nationalism's role in CIS relations and the USSR's breakup which turns out to have been a far more contingent event than commonly recognized

Brezhnev Reconsidered E. Bacon, M. Sandle, 2002-10-11 Leonid Brezhnev was leader of the Soviet Union for almost two decades when it was at the height of its powers This book is a long overdue reappraisal of Brezhnev the man and the system over which he ruled By incorporating much of the new material available in Russian it challenges the received wisdom about the Brezhnev years and provides a fascinating insight into the life and times of one of the twentieth century's most neglected political leaders

Elections and Democratization in Ukraine Sarah Birch, 2000-06-22 Elections and Democratization in Ukraine analyses the role of competitive elections in the Ukraine's crucial democratic transition period of 1989 to 1998 focusing on how Ukrainian voters make vote choices and which electoral cleavages are most important Contrary to those who claim that the Soviet Union left in its wake an atomized society with weak social divisions this study argues that the Ukrainian electorate has from the advent of competitive elections exhibited relatively stable voting behaviour

The Geography of Nationalism in Russia and the USSR Robert J. Kaiser, 2017-03-14 The Geography of Nationalism in Russia and the USSR is an important addition to the small library of essential works on the collapse of the Soviet empire The first attempt to construct and test broad theoretical propositions about place and territoriality in the making of nations it examines the critical social processes underlying the formation of nations and homelands in Russia and the USSR during the nineteenth and twentieth centuries Robert Kaiser finds that for the most part national self consciousness was only beginning to supplant a localist mentality by the time of World War I The national problem faced by Lenin was fundamentally different from the more difficult nationalist challenge that confronted Gorbachev In Kaiser's place based theory the homeland once created in the imaginations of the indigenous masses powerfully structured national processes and international relations

Indigenization from below became an active competitor with nationality policies that promoted Russification resulting in the restructuring of ethnic stratification to favor indigenes in their own respective home republics and to challenge Russian dominance outside Russia. The revolutionary changes occurring since 1989 Kaiser argues should therefore be seen as part of a longer process of indigenization. The Geography of Ethnic Violence Monica Duffy Toft, 2010-01-01. The Geography of Ethnic Violence is the first among numerous distinguished books on ethnic violence to clarify the vital role of territory in explaining such conflict. Monica Toft introduces and tests a theory of ethnic violence, one that provides a compelling general explanation of not only most ethnic violence, civil wars, and terrorism, but many interstate wars as well. This understanding can foster new policy initiatives with real potential to make ethnic violence either less likely or less destructive. It can also guide policymakers to solutions that endure. The book offers a distinctively powerful synthesis of comparative politics and international relations theories, as well as a striking blend of statistical and historical case study methodologies. By skillfully combining a statistical analysis of a large number of ethnic conflicts with a focused comparison of historical cases of ethnic violence and nonviolence, including four major conflicts in the former Soviet Union, it achieves a rare balance of general applicability and deep insight. Toft concludes that only by understanding how legitimacy and power interact can we hope to learn why some ethnic conflicts turn violent while others do not. Concentrated groups defending a self-defined homeland often fight to the death, while dispersed or urbanized groups almost never risk violence to redress their grievances. Clearly written and rigorously documented, this book represents a major contribution to an ongoing debate that spans a range of disciplines, including international relations, comparative politics, sociology, and history.

Public Opinion And Regime Change Arthur H. Miller, William M. Reisinger, Vicki Hesli, 2019-07-11. The Making of Nagorno-Karabagh Levon Chorbajian, 2001-08-08. The first major territorial struggle in the late Soviet period involved Nagorno-Karabagh, an Armenian inhabited territory that had been assigned to the Azerbaijan Soviet Socialist Republic. In the early 1920s, Armenian protests calling for reunification with Armenia in 1988 led to Azerbaijani pogroms against Armenians and later to armed conflict that claimed over twenty thousand lives. The struggle remains unresolved. A distinguished group of historians and social scientists

analyze the Karabagh struggle in this unique volume that covers one of the world's strategic oil rich regions *Problems of Communism*, 1991 **Europe from the Balkans to the Urals** Renéo Lukic, Allen Lynch, 1996 The disintegration of Yugoslavia and the Soviet Union in 1991 shed entirely new light on the character of their political systems There is now a need to re-examine many of the standard interpretations of Soviet and Yugoslav politics This book is a comparative study of the disintegration of Yugoslavia and the Soviet Union as multinational federal communist states and the reaction of European and US foreign policy to the parallel collapses of these nations The authors describe the structural similarities in the destabilization of the two countries providing great insight into the demise of both
