*Nationality and Nationalism in East-Central Europe Since 18th the Century*, 1996

*Nationality* Bernard Joseph, 2021-11-21. Originally published in 1929 the author begins the discussion of nationality by a survey of its main factors race language religion the homeland tradition literature and the will to live together. With the discovery that racial purity is a myth race in its biological sense loses much of its significance though racial self consciousness remains virtually unaffected. The second half of the volume studies the historical origins of nationality and its world wide ramifications. The nationalities of Europe are briefly surveyed in a single chapter while the British Empire India the Jews and the Americans have chapters to themselves. The study of Asia is completed by an additional chapter on National Groups of the East. Towards the end of the volume the author returns to the discussion of the meaning of nationality defines its relation to the state Patriotism Internationalism and war and sums up its merits and its defects. This book is a re issue originally published in 1929. The language used and assumptions made are a reflection of its era and no offence is meant by the Publishers to any reader by this re publication.

Toward a Catholic Theology of Nationality Dorian Llywelyn, 2010-06-28. Nationality continues to be an important part of how people identify themselves and others. Who am I is inseparable from the question Who and what are we. Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions. Catholic theology however has never elaborated on a systematic treatment of nationality. Dorian Llywelyn forges a new approach treating the nation as a form of culture. He addresses some key questions. How are the religious and national aspects of human identity connected? What does Catholic doctrine have to say about nationality and nationalism? Is there really such a thing as a Christian nation? Is Catholicism compatible with patriotism? Llywelyn's wide ranging book introduces the reader to contemporary approaches to nationality nationality national identity nationalism and patriotism. Drawing from the insights of sociology history and anthropology he investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth century papal teaching have to say on the matter. He provides an original Catholic theology of national belonging one which is based on the implications of the Incarnation. Examining popular devotions to the Virgin Mary as national patroness and

drawing from the metaphysical acumen of the medieval thinker John Duns Scotus Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values

the present war but the questions discussed in the later lectures arise out of that conflict There as elsewhere I hope my treatment has been as objective and impartial as present conditions admit Lack of space has precluded a study of the lesser national movements in Europe and of all similar movements outside of Europe I regret this latter omission because the growth of Nationality in the United States and the British Commonwealths is developing a wider and cosmopolitan sentiment which makes for peace At present however we are confronted by Nationality of the old type and to pass it by with sneers as to its being antiquated does not further the international cause A careful study of past and present conditions is the first requisite for success in the construction of the healthier European polity which ought to emerge from the present conflict and criticisms of German Socialists such as will be found in Lectures IX and X are I believe necessary if mankind is to avoid a repetition of the disastrous blunders of July 1914 The sense which I attach to the words race people nation nationality nationalism is briefly as follows For the reasons stated in Lecture VIII I have rarely used the word race and then only as a quasi scientific term The word people I have generally used as implying a close sense of kinship nation as a political term designating a people which has attained to state organization nationality in the concrete sense as a people which has not yet attained to it but I have nearly always referred to Nationality in the ideal sense namely as an aspiration towards united national existence In Lecture IX I have used Nationalism to denote the intolerant and aggressive instinct which has of late developed in Germany and the Balkan States

**Nationality in Modern History**

J. Holland Rose, 2017-04-21 From the PREFACE Lectures I VIII of this series were delivered at Cambridge in the Michaelmas Term of 1915 and Lectures LX and X are based on those which I delivered in December last to the Historical Associations at Birmingham and Bristol My aim throughout has been historical namely to study the varied manifestations of Nationality among the chief European peoples before attempting to analyze or define it That I have sought to do in Lecture VIII It is noteworthy that only in recent times has Nationality become a conscious and definite movement Apart from the writings of Machiavelli where that instinct figures dimly it was not I believe treated by any writer before the year 1758 Then an anonymous Swiss brought out a book entitled Von dem Nationalen tolze Of National Pride in which he discussed its good and bad characteristics I have no space in which to summarize his work but at some points it breathes the spirit of Schiller s Wilhelm Tell the inner meaning of which I have sought to portray in Lecture III I began these studies several years ago and early in 1916 was about to complete them Most of my conclusions have not been modified by the present war but the questions discussed in the later lectures arise out of that conflict There as elsewhere I hope my treatment has been as objective and impartial as present conditions admit Lack of space has precluded a study of the lesser national movements in Europe and of all similar movements outside of Europe I regret this latter omission because the growth of Nationality in the United States and the British Commonwealths is developing a wider and cosmopolitan sentiment which makes for peace At present however we are confronted by Nationality of the old type and to pass it by with sneers as to its being antiquated does not further the international cause A careful study

of past and present conditions is the first requisite for success in the construction of the healthier European polity which ought to emerge from the present conflict and criticisms of German Socialists such as will be found in Lectures IX and X are I believe necessary if mankind is to avoid a repetition of the disastrous blunders of July 1914 The sense which I attach to the words race people nation nationality nationalism is briefly as follows For the reasons stated in Lecture VIII I have rarely used the word race and then only as a quasi scientific term The word people I have generally used as implying a close sense of kinship nation as a political term designating a people which has attained to state organization nationality in the concrete sense as a people which has not yet attained to it but I have nearly always referred to Nationality in the ideal sense namely as an aspiration towards united national existence In Lecture IX I have used Nationalism to denote the intolerant and aggressive instinct which has of late developed in Germany and the Balkan States

**Ethnicity, Nationalism and Conflict in the South Caucasus** Ohannes Geukjian, 2016-05-13 This book examines the underlying factors of the Nagorno Karabakh conflict in the South Caucasus from 1905 to 1994 and explores the ways in which issues of ethnicity and nationalism contributed to that conflict The author examines the historiography and politics of the conflict and the historical territorial and ethnic dimensions which contributed to the dynamics of the war The impact of Soviet policies and structures are also included pinpointing how they contributed to the development of nationalism and the maintenance of national identities The book firstly explores the historical development of the Armenian and Azerbaijani national identities and the overlapping claims to the territory of Nagorno Karabakh The author goes on to assess the historical link between ethnicity and territorial location as sources of ethnic identification and conflict He examines how identity differences shaped the relations between Armenians and Azerbaijanis during the different phases of conflict and presents a detailed historical account of Soviet nationalities policy and ethno territorial federalism the basis of which ethnic relations were conducted between governing and minority nations in the south Caucasus This invaluable book offers students and scholars of post Soviet politics and society a unique insight into the causes and consequences of this long standing conflict

**Nationalism** Philip Spencer, Howard Wollman, 2002-07-09 Spencer and Wollman seek to challenge fixed notions of national identity ethnicity and culture to more fully explore and understand the contemporary complexities of citizenship and the genuine potential for a cosmopolitan democracy

**Ethnicity, Nationalism and the European Cold War** Robert Knight, 2012-04-26 This book questions the prevalent assumption that ethnicity and nationalist politics had nothing to do with the Cold War and that far from being frozen until the fall of communism they remained central to the conflict in Europe Leading scholars bring their understanding of particular regions to bear on the wider issue of why ethnic explanations were written out of the discourse and whether this was a failure on the part of Western observers This in turn has led to an overly simple understanding of power flowing downwards from superpower to nation state and from state to society Engaging with key thinkers such as Gaddis Moynihan and Adam Roberts this collection ultimately allows such speculation to be replaced by historical research

and bridges the gap between high politics and ethnic concerns
