Nations And Nationalism In A Global Era:

Nationalism in a Global Era Mitchell Young, Eric Zuelow, Andreas Sturm, 2007-03-07 This volume makes a unique contribution to the literature on nations and nationalism by examining why nations remain a vibrant and strong social cohesive despite the threat of globalization Regardless of predictions forecasting the demise of the nation state in the global era the nation persists as an important source of identity community and collective memory for most of the world's population More than simply a corrective to the many scholarly but premature epitaphs for the nation state this book explains the continued health of nations in the face of looming threats The contributors include leading experts in the field such as Anthony D Smith William Safran Edward Tiryakian as well as younger scholars whom adopt a variety of approaches ranging from theoretical to empirical and historical to sociological in order to uncover both the reasons that nations continue to remain vital and the mechanisms that help perpetuate them The book includes case studies on Ireland Thailand Poland the Baltic States Croatia and Jordan Nationalism in a Global Era will be of great interest to students and researchers of international politics sociology nationalism and ethnicity Nations and Nationalism in a Global Era Anthony

Smith, 2013-05-28 In a world of transnational economics and mass communications ethnic conflict and nationalism have recently re-emerged as major political forces Is this due to the advance of modernity Will a global culture supersede nationalism In fact the revolution of modernity has revitalized ethnic memories and communities as people look for stability and meaning in an age of unprecedented change and return to their ethnic heritages Ethnic nationalism challenges but also reinforces the national state By comparison supra national ideals seem vague and pale and the dream of a cosmopolitan global culture is utopian For all its shortcomings Anthony Smith argues the nation and its nationalism is likely to remain the only realistic and widespread popular ideal of community **Nations and nationalism in a global era** Anthony D.

Smith, Derya Kömürcü, 2002 Federalism Doomed? Andreas Heinemann-Grüder, 2002 The conceptual uncertainty when dealing with processes of integration and disintegration in Europe is striking because traditional notions of the nation state constitutionalism sovereignty and federalism do not account for emerging realities in either Western or Eastern Europe This volume explores the complex inter relationship between federal arrangements and their effects on integrating multi ethnic societies in Europe and takes stock of current debates on the effects of federalism on integration and disintegration in Eastern and Western Europe For the first time federalism is addressed in a pan European context and an attempt is made to look for remedies to overcome nationalism in both East and West within a federalist institutional framework

Nationalism John Hutchinson, Anthony D. Smith, 2000 A comprehensive collection of articles on the subject of nationalism It covers concepts and definitions forms of nationalism worldwide and nationalism and culture and feminism and politics *Nation Games* Benjamin Zachariah, 2020-08-10 This volume examines the tension between the nation idea as a necessary language of legitimacy with which to claim liberation and its role in disciplining people and their identities in India

in the name of national liberation It is an attempt to open up new lines of thinking and ways of reading Indian history

Globalization and Belonging Sheila Croucher,2003-08-04 In a world of instant communications permeable borders immigration quotas and terrorist bombings we might well stop and ask Who are we How do we identify ourselves and claim identity in a competing tug and pull of global homogenization and fragmentation Are we Italians or European Unionists Are we Muslims or ethnic Arabs Are we residents of one state citizens of another Are we women no matter where we go This book explores how various forms of sociocultural and political identification and attachment are being affected by the increasing interconnectedness of the globe It looks at the forces of globalization economic technological political and cultural and relates them to forces of identification including citizenship nationhood ethnicity and gender Through it all author Sheila L Croucher emphasizes the sense of belonging and its importance to us as individuals and as citizens of the world *Why Fans Matter?* Kausik Bandyopadhyay,2024-11-29 This book explores the meanings significances and impacts of the complex identities that soccer fans especially those of men s soccer represent worldwide The chapters in this volume construct and reconstruct fandom in terms of diverse fan affiliations from local to global level and from national to transnational spaces Soccer or association football is a game where fans come alive with one goal It is soccer s fanbase that has made it the most popular mass spectator sport in the world Since the sport s growth and its codification in the late nineteenth century soccer and its followers became markers of varied identities This volume is an attempt to understand the soccer fan s tryst with such identities mostly at the level of professional men s football in different parts of the world Fans create represent break recreate transcend complicate and confuse diverse identities in their attachments with and loyalties to particular clubs nations continents spaces communities races ethnicities and players These identities are given shape through the display and observance of diverse forms of fandom and fan subcultures Against this wider backdrop the book brings out the commonalities conflicts and tensions within these fan identities *Why Fans Matter Fans and Identities in the Soccer World* will be a fascinating read for anybody with an interest in sport and its intersection with disciplines such as sociology political science history media studies or cultural studies The chapters in this book were originally published as a special issue of *Soccer Society* In the Shadow of the State Nicola Miller,1999-11-17 Focusing on a period between the early 20th century and the literary boom of the 1960s this study examines the role of intellectuals in Latin American politics It looks at the way modernization impacted on intellectual life *International Encyclopedia of Human Geography* ,2019-11-29 International Encyclopedia of Human Geography Second Edition Fourteen Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender race nationality location and other factors in other words the things that make people and places different Questions of for example politics economics race relations and migration are introduced and discussed through a geographical lens This updated edition will assist readers in their research by providing factual information historical perspectives theoretical approaches reviews of literature and provocative topical

discussions that will stimulate creative thinking Presents the most up to date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with understand and contribute to problem solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context

The Process of Politicization Adam Jarosz, 2017-11-06 The problem signalled in the title of this volume is of utmost importance today While envisioning a completely depoliticised society requires a big leap of imagination there can still be doubts as to the degree to which modern societies may or should be politicised in different dimensions This book gives a range of answers to this question using selected examples from modern history and the present time and it outlines the process of politicising the society together with the tools and means used for that It does not attempt an exhaustive coverage of the topic of politicisation but serves as a reference for persons interested in the discussed issues including students of political and social sciences

Kashmir and Sindh Suranjan Das, 2001 Professor Das provides a fascinating study on the issue of ethnic politics in multi ethnic Third World countries and the non convergence of state and nation in this discussion of the Kashmir and Sindh questions The artificial de colonization process in the South Asian sub continent resulted in the construction of national frontiers for its two successor states that did not rest on a synchronization of ethnic and state boundaries Consequently cross border loyalties amongst significant sections of the population survived the boundaries imposed between the two successor states When in the context of centralizing nation building strategies ethnic political assertions occur in outlying or frontier areas of these nation states the distinction between domestic and external affairs or between home and foreign politics tends to lose its significance in the traditional sense Political actors from across the borders of neighbouring state can then deny the marks of their different objective nationalities and treat themselves as members of a single loyalty group Thus ethnic politics transcends its domestic contours and helps foment regional tensions In such circumstances ethnic assertions tend to constitute vital local or domestic ingredients that define the national security priorities within a particular region The current insurrection in Kashmir and turmoil in Sindh superbly demonstrate this pattern

Design and National Identity Javier Gimeno-Martínez, 2016-09-22 This important study introduces the key theories of national identity and relates them to the broad fields of product graphic and fashion design Javier Gimeno Martínez approaches the inter relationship between national identity and cultural production from two perspectives the distinctive characteristics of a nation s output and the consumption of design products within a country as a means of generating a national design landscape Using case studies ranging from stamps in nineteenth century Russian occupied Finland to Coca Cola as an American drink in modern Trinidad and Tobago he addresses concepts of essentialism constructivism geography and multiculturalism and considers the works of key theorists including Benedict Anderson Eric Hobsbawm and Doreen Massey This illuminating book offers the first comprehensive account of how national identity and cultural policy have shaped design while suggesting that traditional formations of the national are increasingly unsustainable

in an age of globalisation migration and cultural diversity Javier Gimeno Martinez is Lecturer in Design Cultures at the VU University Amsterdam The Netherlands

European Political Cultures Roger Eatwell, 2002-09-11 This comparative study of the political cultures of the major European nations explores the notion of nationhood as it applies in different political contexts

Charles de Gaulle, the International System, and the Existential Difference Graham O'Dwyer, 2017-03-27 This innovative account of Charles de Gaulle as a thinker and writer on nationalism and international relations offers a view of him far beyond that of a traditional nationalist Centring on the way de Gaulle regarded nations as individuals the author frames his argument by rationalising de Gaulle's nationalism within the existential movement that flowed as an intellectual undercurrent throughout early and mid twentieth century France Graham O'Dwyer asserts that this existentialism of the nation and the presence of the past allowed de Gaulle to separate the nation from the state when looking at China Russia Vietnam and East European countries enabling him to understand the idiosyncrasies of specific national characters better than most of his contemporaries This was especially the case for Russia and China and meant that he read the Cold War world in a way that Washington and London could not allowing him a unique insight into how they would act as individuals and in relation to other nations

Territorial Integrity in a Globalizing World Abdelhamid El Ouali, 2012-03-28 This book offers a comprehensive highly informative and interdisciplinary study on territorial integrity and the challenges globalization self determination and external interventions present This study aims at not only to fill an epistemological gap in this regard but also answer the question of whether International Law is adequately equipped to help states address these challenges The author argues that the biggest threat that many states are confronted with today is their disintegration rather than their obsolescence and that International Law has not often been able to prevent that eventuality In fact states when they were not destroyed by war managed to survive thanks to the flexibility of territoriality i.e. their ability to adjust to difficult situations as they arose It is this understanding of adaptation that urges an increasing number of states today to revive territorial autonomy and restore an original understanding of self determination in which democracy is a pivotal factor in establishing congruence between the states and their nations While this move is endorsed by International Law it is not the case for globalization for their own sake proponents of globalization should recognize that the states are irreplaceable as long as they remain the sole providers of protection for their peoples

Conceptual History in the European Space Willibald Steinmetz, Michael Freeden, Javier Fernández-Sebastián, 2017-06-01 The result of extensive collaboration among leading scholars from across Europe Conceptual History in the European Space represents a landmark intervention in the historiography of concepts It brings together ambitious thematic studies that combine the pioneering methods of historian Reinhart Koselleck with contemporary insights and debates each one illuminating a key feature of the European conceptual landscape With clarifying overviews of such contested theoretical terrain as translatability spatiality and center periphery dynamics it also provides indispensable contextualization for an era of widespread disenchantment with and

misunderstanding of the European project *Accommodating National Identity* Stephen Tierney, 2021-10-18 This collection of essays brings together international lawyers with their perspectives on how the international community has coped with contemporary cases of nationalist crisis and constitutional lawyers from states which are attempting to facilitate the political expression of national identity through developments in federalism devolution and the protection of minority rights The aim is to explore to what extent existing legal mechanisms permit a flexible engagement with and accommodation of the aspirations of national and ethnic groups It would appear that a heightened level of fluidity in the interaction and exchange of normative standards now exists in the relationship between international and domestic law as both types of system confront the challenge which national identity continues to constitute As this process marks a renewed preparedness on the part of legal systems to expand imaginatively to meet current problems it is hoped that this collection will highlight opportunities for an ongoing process of development in this complex and troubled area **Political Transition and**

Development Imperatives in India Ranabir Samaddar, Suhit K. Sen, 2020-11-25 This volume explores the transition from colonial to constitutional rule in India and the various configurations of power and legitimacies that emerged from it It focuses on the developmental structures and paradigms that provided the circumstances for this transition and the establishment of the post colonial state Different articles interrogate the idea of liberal constitutionalism the spaces it provides for rights and claims the assumptions it makes about citizenship and its attendant duties and the assumptions it further makes about what it can or has to become in the particular situation of India The book locates these questions in the reconfiguration of society power and the economy since the shift in the identity of the state after Independence and deals with issues of constitution making in a historical and political setting and its outcomes especially the centrality of law and legalisms in shaping civil society With a companion volume on the transition to a constitutional form of governance and the consequent moulding of the citizens this book emphasises continuity and change in the context of the movement from the colonial to the constitutional order It will be of interest to those in politics history South Asian studies policy studies and sociology **Intra-State Immigrants as Sub-State Nationalists** Nick Hutcheon, 2019-09-17 This book explores the

attitudes opinions and life experiences of first and second generation intra state immigrants who are convinced and committed Basque nationalists Based on in depth interviews with activists it challenges many of the assumptions often made about Basque nationalism as an exemplary case of ethnic nationalism in the exclusive sense Focusing on activists migration history their experiences of social and political inclusion and exclusion their national and regional identities their political identities and their experiences of political activism the author explores the role of origins identity and life experience in activists willingness to engage with Basque nationalism As such Intra State Immigrants as Sub State Nationalists will appeal to scholars of sociology and politics with interests in migration national identities and nationalist movements
