Sugar, 2002 Ramet political science Norwegian U of Science and Technology Norway Felak East European history U of Washington US and Ellison emeritus Russian history and international studies U of Washington present 16 essays one is not in English that deal with historical and historiographical issues of the development of nationalism and related questions Broad themes explored in the essays include the different meanings attached to the nation and nationalism typologies of nations the relationship of nationalism to rural urban cleavages and the role of political activists in promoting or denigrating nationalism A final essay discusses the academic contributions of festschrift honoree Sugar Annotation c Book News Inc Portland OR booknews com Radical Right Parties in Central and Eastern Europe Bartek Pytlas, 2015-10-16 In Central and Eastern Europe radical right actors significantly impact public debates and mainstream policy agenda But despite this high discursive influence the electoral fortune of radical right parties in the region is much less stable It has been suggested that this may be due to the fact that mainstream competitors increasingly co opt issues which are fundamental for the radical right However the extent to which such tactics play a role in radical right electoral success and failure is still a subject for debate This book is the first to provide a systematic theoretical framework and in depth empirical research on the interaction between discursive influence party competition and the electoral fortune of radical right parties in Central and Eastern Europe It argues that in order to fully explain the impact of mainstream party strategies in this regard it is vital to widen the analysis beyond competition over issues themselves and towards their various legitimizing narratives and frame ownership Up to date debates over policies of collective identity minority morality and nationalizing politics in Hungary Poland and Slovakia serve as best cases to observe these under researched phenomena The analytical model is evaluated comparatively using original primary data combined with election studies and expert surveys Advancing an innovative fine grained approach on the mechanisms and effects of party competition between radical right and mainstream parties this book will be of interest to students and scholars researching the far right and European party politics as well as political contestation and framing **The Politics of Language and Nationalism in Modern Central Europe** T. Kamusella, 2008-12-16 This work focuses on the ideological intertwining between Czech Magyar Polish and Slovak and the corresponding nationalisms steeped in these languages The analysis is set against the earlier political and ideological history of these languages and the panorama of the emergence and political uses of other languages of the region *Historians and Nationalism* Monika Baár, 2010-02-25 Monika Ba r examines the work of five prominent East Central European historians in the 19th century analyzing and contrasting their body of work their promotion of a national culture and the contributions they made to European historiography **Nations and Nationalisms in East-Central Europe, 1806-1948** , 2002 Manufacturing Middle Ages , 2013-08-22 Across the nineteenth century European history philology archaeology art and architecture turned from a common classical vocabulary

and ideology to images of pasts and origins drawn primarily from the Middle Ages. The result was a paradox as scholars and artists schooled in the same pan-European vocabularies and methodologies nevertheless sought to discover through them unique and frequently oppositional national identities. These essays edited by Patrick J. Geary and Gábor Klaniczay focus on this all-European phenomenon with a special focus on Scandinavia and East Central Europe bearing witness to the inextricable links between cultural and scientific engagement, the search for national identity and political agendas in the long nineteenth century that made the search for archaic origins an entangled history. Contributors include Walter Pohl, Ian Wood, Sverre Bagge, Maciej Janowski, Sir David Wilson, Anders Andrén, Ernő Marosi, Carmen Popescu, Ahmet Ersoy, Michael Werner, Joep Leerssen, R. Howard Bloch, Pavlína Rychterová, Tommaso di Carpegna Falconieri, Stefan Detchev, Florin Curta, and Peter Lang.

Civic and Uncivic Values in Macedonia Sabrina P. Ramet, 2013-01-23 One of the central challenges facing Macedonia along with other Yugoslav successor states is to develop civic values and to combat such uncivic values as ethnic intolerance, religious bigotry, and homophobia. This volume brings together specialists in Macedonian affairs to offer insights into the experiences and values of the Macedonians.

Beyond Violence Anna Cichopek-Gajraj, 2014-06-19 This book tells a story of Polish and Slovak Holocaust survivors returning to homes that no longer existed in the aftermath of the Second World War. It focuses on their daily efforts to rebuild their lives in the radically changed political and social landscape of post-war Eastern Europe. Such an analysis shifts the perspective from post-war violence and emigration to post-war reconstruction. Using a comparative approach, Anna Cichopek-Gajraj discusses survivors' journeys home, their struggles to retain citizenship and repossess property, their coping with antisemitism, and their efforts to return to normality. She emphasizes the everyday communal and personal experiences of survivors in the context of their relationships with non-Jews. In essence, by focusing on the daily efforts of Polish and Slovak Jews to rebuild their lives, the author investigates the limits of belonging in Eastern Europe after the Holocaust.

The Three Yugoslavias Sabrina P. Ramet, 2006-06-06 Based on extensive archival research and fieldwork and the culmination of more than two decades of study, *The Three Yugoslavias* is a major contribution to an understanding of Yugoslavia and its successor states.

Genocide and Fascism Aristotle Kallis, 2008-09-25 This book investigates how fascism as an ideology and political praxis reconfigured the ideological, political, and moral landscape of interwar Europe, generating an atmosphere of extreme license that facilitated the leap into eliminationist violence. It demonstrates how fascist ideology linked the prospect of violent cleansing to utopias of national racial regeneration, thus encouraging and legitimizing targeted hatred against particular others. It also shows how the diffusion and internationalization of fascism in the 1930s produced a sense of a revolutionary new beginning and created a transnational fascist new order in which Nazi Germany came to occupy a potent position of authority. The book analyzes how the eliminationist initiative and precedent of Nazi Germany became a second license that empowered fascist regimes across Europe to embark on their own eliminationist projects with diminished accountability. Finally, it examines how this license

enhanced by the actions of fascists and the collapse of order caused by World War Two released individuals and communities from the burden of legal and moral accountability turning them into accomplices in the most wide brutal and devastating genocidal campaign that the continent had ever experienced *Initial - Dictionnaire des nations et des nationalismes*
